

Parks and Recreation Strategic Planning Subcommittee

Wednesday, April 27, 2022 at 5:30 PM

Gilbert Lodge at Twin Lakes Park 6800 N. Long Lake Road, Traverse City, MI 49684

Parks and Recreation: Enhance community and quality of life through people, parks and programs.

Committee Members: Jalen Provo (Chair), Grace Edinger (Vice-Chair), Joseph Underwood, Rod Kivell, and Whitney Waara (Citizen Member).

General Meeting Policies:

- Please turn off all cell phones or switch them to silent mode.
- Any person may make a video, audio or other record of this meeting. Standing equipment, cords, or portable microphones must be located so as not to block audience view.
- If you need auxiliary aid assistance, contact 231-922-6880.

A. CALL TO ORDER:

B. PLEDGE OF ALLEGIANCE

C. ROLL CALL:

D. FIRST PUBLIC COMMENT:

Rules: Any person shall be permitted to address the Parks and Recreation Commission, which is required to be open to the public under the provision of the Michigan Open Meetings Act, as amended (MCLA 15.261, et. seq.). Public comment shall be carried out in accordance with the following Board Rules and Procedures.

1. Any person wishing to address the Commission may state his or her name and address.
2. No person shall be allowed to speak more than once on the same matter, excluding Commissioners' questions. The President shall control the amount of time each person shall be allowed to speak, which shall not exceed three (3) minutes. The President may, at his or her discretion, extend the amount of time any person is allowed to speak. No member of the Commission or staff shall respond to public comment. All commenters must refrain from any personal or political attacks on any member of the public, staff, or board. No profanity, harassment, or bullying will be tolerated, and will provide just cause to be removed from the meeting.

E. APPROVAL OF/ ADDITION TO AGENDA:

F. CONSENT CALENDAR

The purpose of the Consent Calendar is to expedite business by grouping non-controversial items to be dealt with by one Commission motion without discussion. Any member of the Commission, staff, or the public may ask that any item on the Consent Calendar be removed therefrom and placed elsewhere on the agenda for full discussion. Such requests will automatically be respected. If any item is not removed from the Consent Calendar, the action noted (Receive and File or Approval) is approved by a single Commission action adopting the Consent Calendar.

APPROVALS

K. ADJOURNMENT

**MINUTES
REGULAR MEETING**

5:30 PM - Wednesday, March 30, 2022

Gilbert Lodge at Twin Lakes Park 6800 N. Long
Lake Road, Traverse City, MI 49684

The Parks and Recreation Strategic Planning Subcommittee of the Grand Traverse County was called to order on Wednesday, March 30, 2022, at 5:30 PM, in the Gilbert Lodge at Twin Lakes Park 6800 N. Long Lake Road, Traverse City, MI 49684, with the following members present:

PRESENT: Jalen Provo, Grace Edinger, and Rod Kivell

LATE:

EXCUSED: Whitney Waara and Joseph Underwood

CALL TO ORDER:

The meeting was called to order at 5:42 p.m.

PLEDGE OF ALLEGIANCE

ROLL CALL:

FIRST PUBLIC COMMENT:

There was no first public comment.

APPROVAL OF/ ADDITION TO AGENDA:

Approval of the Agenda

ITEMS REMOVED FROM CONSENT CALENDAR:

No items were removed from the Consent Calendar.

PARKS WISH LIST WORKSHOP

Review and Prioritize Parks Wish List for ARPA and Other Funding Options

- The committee went through each proposed wish on the Parks Wish List and prioritized each item with a 1 to 3 ranking of importance (1 being most important, 3 being the least important). The committee identified issues such as flooding, safety, sanitary, and accessibility as areas of focus for funding. Specifically, discussion of the Civic Center Howe Arena expansion for emergencies, permeable materials vs impermeable materials and sustainable planting infrastructure for flooding mitigation, free wi-fi accessibility, and restrooms and drinking fountain upgrades to meet high sanitary standards.
- During the next meeting, the committee will review a re-organized list and work on grouping items, as well as begin work on the proposal to the GTC Board of Commissioners.

SECOND PUBLIC COMMENT (REFER TO ITEM C ON AGENDA FOR RULES)

There was no second public comment.

NOTICES AND COMMISSIONER COMMENTS:

There were no notices or commissioner comments.

ADJOURNMENT

The meeting was adjourned at 7:59 p.m.

	Park	American Rescue Plan Act (ARPA)	Infrastructure Investment and Jobs Act	Reconciliation Bill	An Economic Development Administration (EDA) Grant	Which GTC defined category does the project fall under (1-8)?
Priority 1						
Indoor Restrooms: upgrade the indoor restrooms and include touchless features.	Civic Center					
Outdoor Restrooms: upgrade and expand the outdoor restrooms.	Civic Center					
Drinking Fountains: upgrade drinking fountains with water bottle fillers.	Civic Center					
Additional Rink: expand Howe Arena as an emergency response center with an additional lobby and a multipurpose community room.	Civic Center					
Locker Rooms: remodel the existing locker rooms in Howe Arena.	Civic Center					
New Locker Rooms: add new locker rooms (2) to the northwest corner of Howe Arena.	Civic Center					

Walking Track and Safety Features: during grading and resurfacing of walking track, review flooding mitigation and include additions of an emergency phone around walking track.	Civic Center					
Walking Path Bridge: make the walking path bridge safer and more durable.	Civic Center		Infrastructure			
Safety Features: Add cameras near the pavilion and amphitheater and add placement for an outdoor AED.	Civic Center					
Athletic Fields: prevent flooding on Athletic Fields.	Civic Center		Infrastructure			
Athletic Fields: universally accessible ballfield dugouts.	Civic Center					
Wi-Fi: reliable and accessible free Wi-Fi in the park.	Civic Center					
Parking Lots: improve parking lots, specifically, fill potholes and add asphalt to the Pavilion parking area.	Civic Center		Infrastructure			
Outdoor Restrooms: paint and renovate bathrooms to include touchless features.	VASA Trailhead					

Outdoor Restroom: build restroom facility with touchless features.	Keystone					
Priority 2						
Storage: expand space (behind pool or Facilities parking lot) for additional storage for partners and the Parks Department.	Civic Center					
Priority 3						
Improve the road into the park by adding additional gravel and fill material to crown the road to appropriately shed water from the roadway and install culverts to facilitate drainage. Formalize and improve the parking area by adding fill material, grading, fencing, signage, and define parking spaces by using curb stops.	Maple Bay	Aligned with ARPA grant criteria facilitating outdoor recreation and health wellness benefits	Infrastructure		This project fits with the EDA: Travel, Tourism, and Outdoor Recreation competitive grant by supporting infrastructure improvement that will strengthen tourism and outdoor recreation in our region.	
Lighting Upgrade: Tivoli lighting upgrade around walking track and park.	Civic Center					
Campsite Expansion: potential Bassett Island expansion.	Power Island					
Pickleball Courts: develop	Civic					

pickleball courts (2).	Center					
Basketball Courts: upgrade the basketball court and the hoops.	Civic Center					

- The Strategic Planning Committee would like to have the proposal ready by May or June to bring to the Board of Commissioners as all needs need to be spent by 2026.
- The American Rescue Plan Advisory Committee has put out a survey to help determine the best ways for an influx of \$18.2 million in American Rescue Plan funds to be spent within the County [Survey - American Rescue Plan Act](#). This survey will be presented to the BOC in June.

1	Enhance mental and behavioral health and other social services (e.g., mental health counseling, crisis center, senior services)
2	Enhance small business support and economic development (e.g., access to capital, small business grants, large employer attraction)
3	Stabilize the healthcare system (e.g., ongoing pandemic response, employee retention and recruitment)
4	Increase child care capacity and quality (e.g., family and caretaker subsidies, provider subsidies, in-home training programs for providers)
5	Increase the number of skilled employees to fill in-demand jobs (e.g., job training, employee recruitment, educational support)
6	Increase attainable workforce housing (e.g., land acquisition, site utilities, stormwater retention)
7	Support critical infrastructure needs (e.g., parks, roads, water, stormwater, and sewers)
8	Support public safety (e.g., police and fire operations, emergency response capacity)

INTERIM FINAL RULE

Rule is for the Coronavirus State and Local
Fiscal Recovery Fund

U.S. Department of Treasury

Final rule should be published end of the year

IMPLEMENTING THE RULES

Directly fund priorities through grants and loans

Transfer funds to:

- Private nonprofits
- Other units of government, special purpose districts, and the State

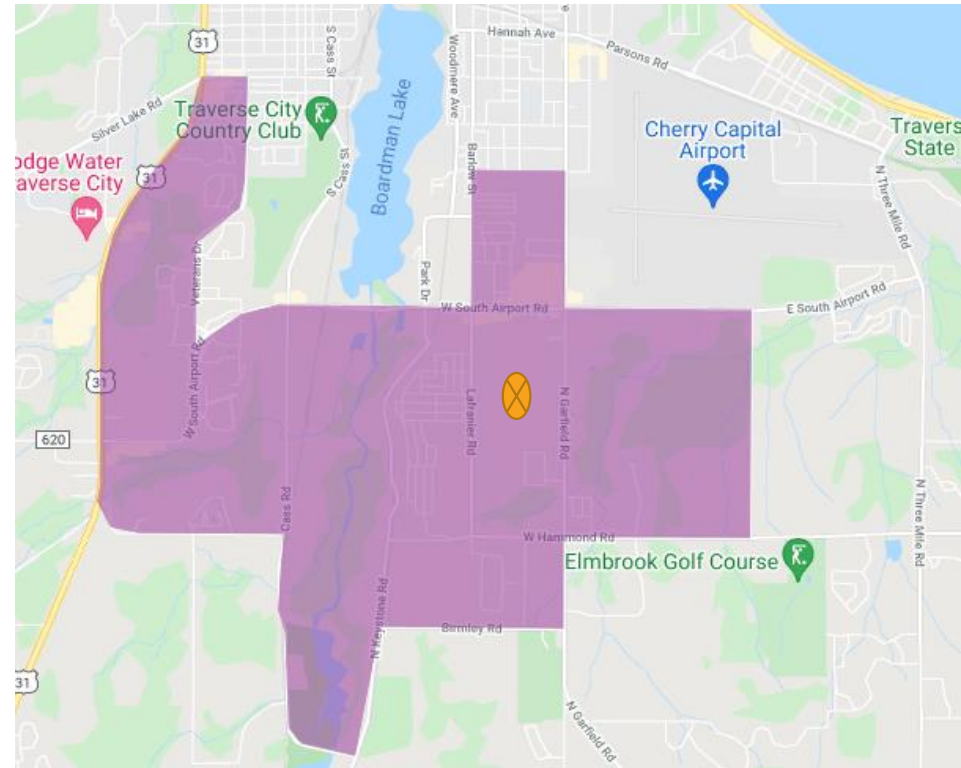

Can not use funds to pay unfunded pension liabilities

Can not use funds to pay for debt service, legal settlements or judgments

Can not deposit funds into a rainy-day fund or financial reserves

QUALIFIED CENSUS TRACT

- QCT is an area where 50 percent of the households have income less than 60 percent of the area median gross income
- Treasury will presume that certain specific services are eligible when provided in a QCT, to families who live in the QCT, or services are provided by Tribal governments.

IFR FIVE FUNDING CATEGORIES

- Responding to COVID-19
- Responding to the negative economic impacts of COVID-19
- Replace lost revenue caused by the Pandemic
- Premium pay for eligible workers performing work during the Pandemic
- Water, Sewer, Broadband infrastructure

DEPARTMENT OF THE TREASURY

31 CFR Part 35

RIN 1505-AC77

Coronavirus State and Local Fiscal Recovery Funds

AGENCY: Department of the Treasury

ACTION: Interim Final Rule

RESPONDING TO COVID-19

Mitigation and prevention

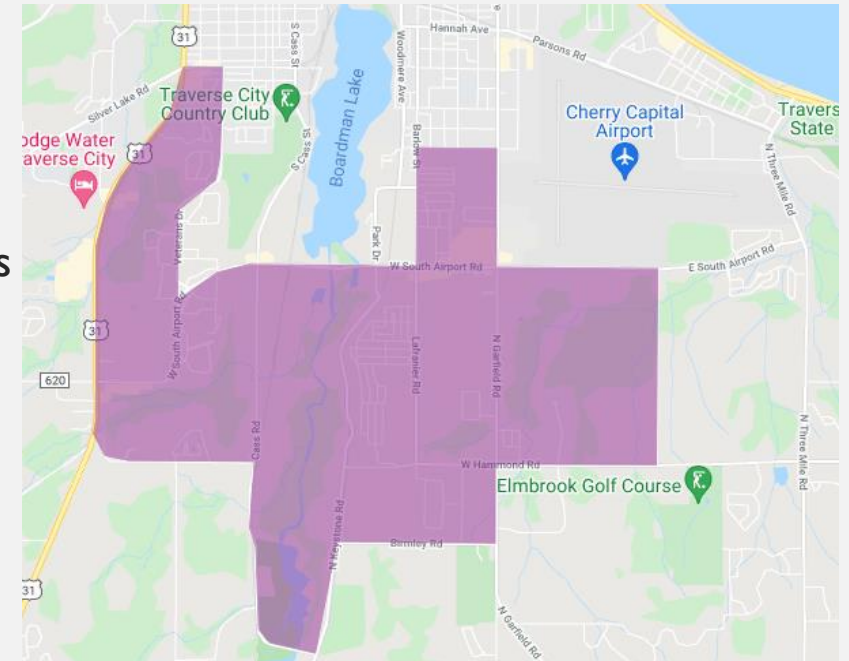

- Testing, contact tracing, surveillance and monitoring
- Vaccine distribution
- Improve public buildings for mitigation purposes
- Equipment that will prevent the spread of COVID-19 such as filters, barriers and touchless systems
- Fund hospitals, and other care facilities
- Health care workers and emergency responders
- Mental health treatment, substance abuse treatment and other behavioral health services

QCT ELIGIBLE ACTIVITIES

Treasury will presume that certain specific services are eligible when provided in a QCT, to families who live in the QCT, or services are provided by Tribal governments.

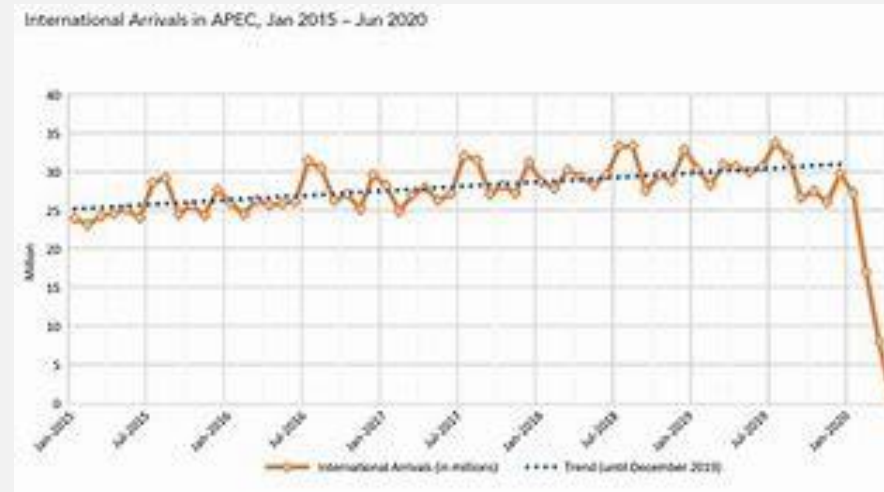

- Community Health Workers
- Public Benefits Navigators
- Housing services
- Remediation of lead paint and other lead hazards
- Community violence intervention programs

RESPONSE TO THE NEGATIVE ECONOMIC IMPACTS OF COVID-19

An economic harm resulted from the public health emergency and the use of funds would respond to or address the harm

- Aid to households
- Aid to small businesses
- Aid to hospitality industries such as tourism and hospitality
- Aid to non-profits

QCT

Treasury will presume that certain specific services are eligible when provided in a QCT, to families who live in the QCT, or services are provided by Tribal governments.

- Affordable Housing
- Supportive Housing
- Housing vouchers or navigators
- Expanded childcare and early childhood learning
- Aid to certain school programs

PREMIUM PAY

- Eligible workers performing essential work during the Pandemic
- Work involving regular in-person interactions or physical handling of items that were also handled by others
- Examples:
 - Staff at nursing homes and hospitals
 - Janitors and sanitation workers
 - Childcare workers
 - Social service staff

An amount up to \$13 per hour in addition to wages or remuneration the worker otherwise receives in an aggregate amount not to exceed \$25,000 per eligible worker.

REVENUE LOSS

- Use payments from the funds for the provision of government services to the extent of the reduction in revenue due to the Pandemic.
- Government services can include maintenance or pay-go funded building of infrastructure, modernization of cybersecurity, health services, environmental remediation and the provision of public safety services.
- GTC \$2.3 million

INVESTMENTS IN INFRASTRUCTURE

- Improve access to clean drinking water
- Improve wastewater systems
- Improve stormwater infrastructure systems
- Improve broadband services to unserved or underserved populations

Additional points:

- Projects that control non-point sources of pollution
- Improve resilience of infrastructure to severe weather events
- Water/sewer infrastructure includes projects on privately owned property
- Broadband projects designed to deliver service that has upload/download speeds of 100 Mbps.

Maricopa County Outlines Priorities for American Rescue Plan Dollars

Maricopa County is using a new influx of federal funds to bring services and stability to individuals, families, and businesses impacted by the pandemic.

When the Board of Supervisors approved the fiscal year 2022 budget, they also approved spending priorities for \$435 million in federal funds made available through the American Rescue Plan Act (ARPA) passed by Congress. ARPA funds are meant to help communities address public health and economic recovery needs related to the COVID-19 crisis.

"Maricopa County took immediate and aggressive action to ease the pain of our citizens during the worst of the pandemic. Now, using ARPA money, we will build on the experience we have implementing targeted, successful assistance programs to support small business owners, seniors and persons with disabilities, folks struggling to get a job or pay bills, and people who are experiencing homelessness," said Maricopa County Board of Supervisors Chairman Jack Sellers, District 1. "How we treat and respond to these members of our community not only says a lot about who we are as public servants, but will also determine the speed and extent to which Maricopa County can bounce back from the effects of the COVID-19 crisis."

Under the plan approved by the Board, the County would allocate funds to key recovery efforts including:

\$136 million to support the ongoing public health response to COVID-19

The County is focused on ending the pandemic. This starts with getting more people vaccinated. To support that effort, Maricopa County has purchased vehicles that will allow Public Health to take mobile COVID-19 vaccinations to hard-to-reach populations. ARPA funds are also being used for a vaccination campaign that seeks to get facts to people who are on the fence about getting vaccinated. In addition, ARPA funds will be used to establish two new public health clinics—one in the Southwest Valley and one in the East Valley—which will provide an array of services including COVID-19 vaccinations.

\$60 million for business support

The County will continue its effort to help small businesses keep their doors open and thrive in a post-COVID world through a combination of grants, loans, and technical assistance. The focus will be on small and micro-sized businesses.

\$40 million for housing

FACT SHEET: The Coronavirus State and Local Fiscal Recovery Funds Will Deliver \$350 Billion for State, Local, Territorial, and Tribal Governments to Respond to the COVID-19 Emergency and Bring Back Jobs

May 10, 2021

Aid to state, local, territorial, and Tribal governments will help turn the tide on the pandemic, address its economic fallout, and lay the foundation for a strong and equitable recovery

Today, the U.S. Department of the Treasury announced the launch of the Coronavirus State and Local Fiscal Recovery Funds, established by the American Rescue Plan Act of 2021, to provide \$350 billion in emergency funding for eligible state, local, territorial, and Tribal governments. Treasury also released details on how these funds can be used to respond to acute pandemic response needs, fill revenue shortfalls among these governments, and support the communities and populations hardest-hit by the COVID-19 crisis. With the launch of the Coronavirus State and Local Fiscal Recovery Funds, eligible jurisdictions will be able to access this funding in the coming days to address these needs.

State, local, territorial, and Tribal governments have been on the frontlines of responding to the immense public health and economic needs created by this crisis – from standing up vaccination sites to supporting small businesses – even as these governments confronted revenue shortfalls during the downturn. As a result, these governments have endured unprecedented strains, forcing many to make untenable choices between laying off educators, firefighters, and other frontline workers or failing to provide other services that communities rely on. Faced with these challenges, state and local governments have cut over 1 million jobs since the beginning of the crisis. The experience of prior economic downturns has shown that budget pressures like these often result in prolonged fiscal austerity that can slow an economic recovery.

To support the immediate pandemic response, bring back jobs, and lay the groundwork for a strong and equitable recovery, the American Rescue Plan Act of 2021 established the Coronavirus State and Local Fiscal Recovery Funds, designed to deliver \$350 billion to state, local, territorial, and Tribal governments to bolster their response to the COVID-19 emergency and its economic impacts. Today, Treasury is launching this much-needed relief to:

- Support urgent COVID-19 response efforts to continue to decrease spread of the virus and bring the pandemic under control;
- Replace lost public sector revenue to strengthen support for vital public services and help retain jobs;
- Support immediate economic stabilization for households and businesses; and,
- Address systemic public health and economic challenges that have contributed to the unequal impact of the pandemic on certain populations.

The Coronavirus State and Local Fiscal Recovery Funds provide substantial flexibility for each jurisdiction to meet local needs—including support for households, small businesses, impacted industries, essential workers, and the communities hardest-hit by the crisis. These funds also deliver resources that recipients can invest in building, maintaining, or upgrading their water, sewer, and broadband infrastructure.

Starting today, eligible state, territorial, metropolitan city, county, and Tribal governments may request Coronavirus State and Local Fiscal Recovery Funds through the Treasury Submission Portal. Concurrent with this program launch, Treasury has published an Interim Final Rule that implements the provisions of this program.

FUNDING AMOUNTS

The American Rescue Plan provides a total of \$350 billion in Coronavirus State and Local Fiscal Recovery Funds to help eligible state, local, territorial, and Tribal governments meet their present needs and build the foundation for a strong recovery. Congress has allocated this funding to tens of thousands of jurisdictions. These allocations include:

Type	Amount (\$ billions)
States & District of Columbia	\$195.3
Counties	\$65.1
Metropolitan Cites	\$45.6
Tribal Governments	\$20.0
Territories	\$4.5
Non-Entitlement Units of Local Government	\$19.5

Treasury expects to distribute these funds directly to each state, territorial, metropolitan city, county, and Tribal government. Local governments that are classified as non-entitlement units will receive this funding through their applicable state government. Treasury expects to provide further guidance on distributions to non-entitlement units next week.

Local governments should expect to receive funds in two tranches, with 50% provided beginning in May 2021 and the balance delivered 12 months later. States that have experienced a net increase in the unemployment rate of more than 2 percentage points from February 2020 to the latest available data as of the date of certification will receive their full allocation of funds in a single payment; other states will receive funds in two equal tranches. Governments of U.S. territories will receive a single payment. Tribal governments will receive two payments, with the first payment available in May and the second payment, based on employment data, to be delivered in June 2021.

USES OF FUNDING

Coronavirus State and Local Fiscal Recovery Funds provide eligible state, local, territorial, and Tribal governments with a substantial infusion of resources to meet pandemic response needs and rebuild a stronger, more equitable economy as the country recovers. Within the categories of eligible uses, recipients have broad flexibility to decide how best to use this funding to meet the needs of their communities. Recipients may use Coronavirus State and Local Fiscal Recovery Funds to:

- **Support public health expenditures**, by funding COVID-19 mitigation efforts, medical expenses, behavioral healthcare, and certain public health and safety staff;
- **Address negative economic impacts caused by the public health emergency**, including economic harms to workers, households, small businesses, impacted industries, and the public sector;
- **Replace lost public sector revenue**, using this funding to provide government services to the extent of the reduction in revenue experienced due to the pandemic;
- **Provide premium pay for essential workers**, offering additional support to those who have borne and will bear the greatest health risks because of their service in critical infrastructure sectors; and,
- **Invest in water, sewer, and broadband infrastructure**, making necessary investments to improve access to clean drinking water, support vital wastewater and stormwater infrastructure, and to expand access to broadband internet.

Within these overall categories, Treasury’s Interim Final Rule provides guidelines and principles for determining the types of programs and services that this funding can support, together with examples of allowable uses that recipients may consider. As described below, Treasury has also designed these provisions to take into consideration the disproportionate impacts of the COVID-19 public health emergency on those hardest-hit by the pandemic.

1. Supporting the public health response

Mitigating the impact of COVID-19 continues to require an unprecedented public health response from state, local, territorial, and Tribal governments. Coronavirus State and Local Fiscal Recovery Funds provide resources to meet these needs through the provision of care for those impacted by the virus and through services that address disparities in public health that have been exacerbated by the pandemic. Recipients may use this funding to address a broad range of public health needs across COVID-19 mitigation, medical expenses, behavioral healthcare, and public health resources. Among other services, these funds can help support:

- **Services and programs to contain and mitigate the spread of COVID-19, including:**
 - ✓ Vaccination programs
 - ✓ Medical expenses
 - ✓ Testing
 - ✓ Contact tracing
 - ✓ Isolation or quarantine
 - ✓ PPE purchases
 - ✓ Support for vulnerable populations to access medical or public health services
 - ✓ Public health surveillance (e.g., monitoring for variants)
 - ✓ Enforcement of public health orders
 - ✓ Public communication efforts
 - ✓ Enhancement of healthcare capacity, including alternative care facilities
 - ✓ Support for prevention, mitigation, or other services in congregate living facilities and schools
 - ✓ Enhancement of public health data systems
 - ✓ Capital investments in public facilities to meet pandemic operational needs
 - ✓ Ventilation improvements in key settings like healthcare facilities

- **Services to address behavioral healthcare needs exacerbated by the pandemic, including:**
 - ✓ Mental health treatment
 - ✓ Substance misuse treatment
 - ✓ Other behavioral health services
 - ✓ Hotlines or warmlines
 - ✓ Crisis intervention
 - ✓ Services or outreach to promote access to health and social services
- **Payroll and covered benefits expenses** for public health, healthcare, human services, public safety and similar employees, to the extent that they work on the COVID-19 response. For public health and safety workers, recipients can use these funds to cover the full payroll and covered benefits costs for employees or operating units or divisions primarily dedicated to the COVID-19 response.

2. Addressing the negative economic impacts caused by the public health emergency

The COVID-19 public health emergency resulted in significant economic hardship for many Americans. As businesses closed, consumers stayed home, schools shifted to remote education, and travel declined precipitously, over 20 million jobs were lost between February and April 2020. Although many have since returned to work, as of April 2021, the economy remains more than 8 million jobs below its pre-pandemic peak, and more than 3 million workers have dropped out of the labor market altogether since February 2020.

To help alleviate the economic hardships caused by the pandemic, Coronavirus State and Local Fiscal Recovery Funds enable eligible state, local, territorial, and Tribal governments to provide a wide range of assistance to individuals and households, small businesses, and impacted industries, in addition to enabling governments to rehire public sector staff and rebuild capacity. Among these uses include:

- **Delivering assistance to workers and families**, including aid to unemployed workers and job training, as well as aid to households facing food, housing, or other financial insecurity. In addition, these funds can support survivor's benefits for family members of COVID-19 victims.
- **Supporting small businesses**, helping them to address financial challenges caused by the pandemic and to make investments in COVID-19 prevention and mitigation tactics, as well as to provide technical assistance. To achieve these goals, recipients may employ this funding to execute a broad array of loan, grant, in-kind assistance, and counseling programs to enable small businesses to rebound from the downturn.
- **Speeding the recovery of the tourism, travel, and hospitality sectors**, supporting industries that were particularly hard-hit by the COVID-19 emergency and are just now beginning to mend. Similarly impacted sectors within a local area are also eligible for support.
- **Rebuilding public sector capacity**, by rehiring public sector staff and replenishing unemployment insurance (UI) trust funds, in each case up to pre-pandemic levels. Recipients may also use this funding to build their internal capacity to successfully implement economic relief programs, with investments in data analysis, targeted outreach, technology infrastructure, and impact evaluations.

3. Serving the hardest-hit communities and families

While the pandemic has affected communities across the country, it has disproportionately impacted low-income families and communities of color and has exacerbated systemic health and economic inequities. Low-income and socially vulnerable communities have experienced the most severe health impacts. For example, counties with high poverty rates also have the highest rates of infections and deaths, with 223 deaths per 100,000 compared to the U.S. average of 175 deaths per 100,000.

Coronavirus State and Local Fiscal Recovery Funds allow for a broad range of uses to address the disproportionate public health and economic impacts of the crisis on the hardest-hit communities, populations, and households. Eligible services include:

- **Addressing health disparities and the social determinants of health**, through funding for community health workers, public benefits navigators, remediation of lead hazards, and community violence intervention programs;
- **Investments in housing and neighborhoods**, such as services to address individuals experiencing homelessness, affordable housing development, housing vouchers, and residential counseling and housing navigation assistance to facilitate moves to neighborhoods with high economic opportunity;
- **Addressing educational disparities** through new or expanded early learning services, providing additional resources to high-poverty school districts, and offering educational services like tutoring or afterschool programs as well as services to address social, emotional, and mental health needs; and,
- **Promoting healthy childhood environments**, including new or expanded high quality childcare, home visiting programs for families with young children, and enhanced services for child welfare-involved families and foster youth.

Governments may use Coronavirus State and Local Fiscal Recovery Funds to support these additional services if they are provided:

- within a Qualified Census Tract (a low-income area as designated by the Department of Housing and Urban Development);
- to families living in Qualified Census Tracts;
- by a Tribal government; or,
- to other populations, households, or geographic areas disproportionately impacted by the pandemic.

4. Replacing lost public sector revenue

State, local, territorial, and Tribal governments that are facing budget shortfalls may use Coronavirus State and Local Fiscal Recovery Funds to avoid cuts to government services. With these additional resources, recipients can continue to provide valuable public services and ensure that fiscal austerity measures do not hamper the broader economic recovery.

Many state, local, territorial, and Tribal governments have experienced significant budget shortfalls, which can yield a devastating impact on their respective communities. Faced with budget shortfalls and pandemic-related uncertainty, state and local governments cut staff in all 50 states. These budget shortfalls and staff cuts are particularly problematic at present, as these entities are on the front lines of battling the COVID-19 pandemic and helping citizens weather the economic downturn.

Recipients may use these funds to replace lost revenue. Treasury's Interim Final Rule establishes a methodology that each recipient can use to calculate its reduction in revenue. Specifically, recipients will compute the extent of their reduction in revenue by comparing their actual revenue to an alternative representing what could have been expected to occur in the absence of the pandemic. Analysis of this expected trend begins with the last full fiscal year prior to the public health emergency and projects forward at either (a) the recipient's average annual revenue growth over the three full fiscal years prior to the public health emergency or (b) 4.1%, the national average state and local revenue growth rate from 2015-18 (the latest available data).

For administrative convenience, Treasury's Interim Final Rule allows recipients to presume that any diminution in actual revenue relative to the expected trend is due to the COVID-19 public health emergency. Upon receiving Coronavirus State and Local Fiscal Recovery Funds, recipients may immediately calculate the reduction in revenue that occurred in 2020 and deploy funds to address any shortfall. Recipients will have the opportunity to re-calculate revenue loss at several points through the program, supporting those entities that experience a lagged impact of the crisis on revenues.

Importantly, once a shortfall in revenue is identified, recipients will have broad latitude to use this funding to support government services, up to this amount of lost revenue.

5. Providing premium pay for essential workers

Coronavirus State and Local Fiscal Recovery Funds provide resources for eligible state, local, territorial, and Tribal governments to recognize the heroic contributions of essential workers. Since the start of the public health emergency, essential workers have put their physical well-being at risk to meet the daily needs of their communities and to provide care for others.

Many of these essential workers have not received compensation for the heightened risks they have faced and continue to face. Recipients may use this funding to provide premium pay directly, or through grants to private employers, to a broad range of essential workers who must be physically present at their jobs including, among others:

- | | |
|---|---|
| ✓ Staff at nursing homes, hospitals, and home-care settings | ✓ Truck drivers, transit staff, and warehouse workers |
| ✓ Workers at farms, food production facilities, grocery stores, and restaurants | ✓ Childcare workers, educators, and school staff |
| ✓ Janitors and sanitation workers | ✓ Social service and human services staff |
| ✓ Public health and safety staff | |

Treasury's Interim Final Rule emphasizes the need for recipients to prioritize premium pay for lower income workers. Premium pay that would increase a worker's total pay above 150% of the greater of the state or county average annual wage requires specific justification for how it responds to the needs of these workers.

In addition, employers are both permitted and encouraged to use Coronavirus State and Local Fiscal Recovery Funds to offer retrospective premium pay, recognizing that many essential workers have not yet received additional compensation for work performed. Staff working for third-party contractors in eligible sectors are also eligible for premium pay.

6. Investing in water and sewer infrastructure

Recipients may use Coronavirus State and Local Fiscal Recovery Funds to invest in necessary improvements to their water and sewer infrastructures, including projects that address the impacts of climate change.

Recipients may use this funding to invest in an array of drinking water infrastructure projects, such as building or upgrading facilities and transmission, distribution, and storage systems, including the replacement of lead service lines.

Recipients may also use this funding to invest in wastewater infrastructure projects, including constructing publicly-owned treatment infrastructure, managing and treating stormwater or subsurface drainage water, facilitating water reuse, and securing publicly-owned treatment works.

To help jurisdictions expedite their execution of these essential investments, Treasury's Interim Final Rule aligns types of eligible projects with the wide range of projects that can be supported by the Environmental Protection Agency's Clean Water State Revolving Fund and Drinking Water State Revolving Fund. Recipients retain substantial flexibility to identify those water and sewer infrastructure investments that are of the highest priority for their own communities.

Treasury's Interim Final Rule also encourages recipients to ensure that water, sewer, and broadband projects use strong labor standards, including project labor agreements and community benefits agreements that offer wages at or above the prevailing rate and include local hire provisions.

7. Investing in broadband infrastructure

The pandemic has underscored the importance of access to universal, high-speed, reliable, and affordable broadband coverage. Over the past year, millions of Americans relied on the internet to participate in remote school, healthcare, and work.

Yet, by at least one measure, 30 million Americans live in areas where there is no broadband service or where existing services do not deliver minimally acceptable speeds. For millions of other Americans, the high cost of broadband access may place it out of reach. The American Rescue Plan aims to help remedy these shortfalls, providing recipients with flexibility to use Coronavirus State and Local Fiscal Recovery Funds to invest in broadband infrastructure.

Recognizing the acute need in certain communities, Treasury's Interim Final Rule provides that investments in broadband be made in areas that are currently unserved or underserved—in other words, lacking a wireline connection that reliably delivers minimum speeds of 25 Mbps download and 3 Mbps upload. Recipients are also encouraged to prioritize projects that achieve last-mile connections to households and businesses.

Using these funds, recipients generally should build broadband infrastructure with modern technologies in mind, specifically those projects that deliver services offering reliable 100 Mbps download and 100

Mbps upload speeds, unless impracticable due to topography, geography, or financial cost. In addition, recipients are encouraged to pursue fiber optic investments.

In view of the wide disparities in broadband access, assistance to households to support internet access or digital literacy is an eligible use to respond to the public health and negative economic impacts of the pandemic, as detailed above.

8. Ineligible Uses

Coronavirus State and Local Fiscal Recovery Funds provide substantial resources to help eligible state, local, territorial, and Tribal governments manage the public health and economic consequences of COVID-19. Recipients have considerable flexibility to use these funds to address the diverse needs of their communities.

To ensure that these funds are used for their intended purposes, the American Rescue Plan Act also specifies two ineligible uses of funds:

- **States and territories may not use this funding to directly or indirectly offset a reduction in net tax revenue due to a change in law from March 3, 2021 through the last day of the fiscal year in which the funds provided have been spent.** The American Rescue Plan ensures that funds needed to provide vital services and support public employees, small businesses, and families struggling to make it through the pandemic are not used to fund reductions in net tax revenue. Treasury's Interim Final Rule implements this requirement. If a state or territory cuts taxes, they must demonstrate how they paid for the tax cuts from sources other than Coronavirus State Fiscal Recovery Funds—by enacting policies to raise other sources of revenue, by cutting spending, or through higher revenue due to economic growth. If the funds provided have been used to offset tax cuts, the amount used for this purpose must be paid back to the Treasury.
- **No recipient may use this funding to make a deposit to a pension fund.** Treasury's Interim Final Rule defines a "deposit" as an extraordinary contribution to a pension fund for the purpose of reducing an accrued, unfunded liability. While pension deposits are prohibited, recipients may use funds for routine payroll contributions for employees whose wages and salaries are an eligible use of funds.

Treasury's Interim Final Rule identifies several other ineligible uses, including funding debt service, legal settlements or judgments, and deposits to rainy day funds or financial reserves. Further, general infrastructure spending is not covered as an eligible use outside of water, sewer, and broadband investments or above the amount allocated under the revenue loss provision. While the program offers broad flexibility to recipients to address local conditions, these restrictions will help ensure that funds are used to augment existing activities and address pressing needs.

AMERICAN RESCUE PLAN

The American Rescue Plan

The COVID-19 pandemic and the corresponding economic crisis have undermined the health and economic wellbeing of American workers. Millions of Americans, many of whom are people of color, immigrants, and low-wage workers, continue to put their lives on the line every day to keep the country functioning through the pandemic. And more than 9.5 million workers have lost their jobs in the wake of COVID-19, with 4 million out of work for half a year or longer. Without additional government assistance, the economic and public health crises could drag on and our national vaccination program will be hobbled at a critical moment.

The American Rescue Plan will change the course of the pandemic and deliver immediate relief for American workers. The plan will build a bridge to an equitable economic recovery and immediately [reduce child poverty](#). In fact, a Columbia University study found that passing the plan will lift more than 5 million children out of poverty this year, cutting the poverty rate by 50%. The bill is one of the most progressive pieces of legislation in history, with more than two thirds of its tax cuts and direct payments going to families making less than \$90,000 per year. It will:

Mount a national vaccination program, contain COVID-19, and safely reopen schools. American workers should not have to lie awake at night wondering if they'll make it home from work safely the next day, or if they'll bring home the virus to their loved ones and communities. President Biden has a comprehensive plan to address the pandemic that will:

- Invest about \$160 billion to provide the supplies, emergency response, testing, and public health workforce to stop the spread of COVID-19, while distributing vaccines as quickly as possible and addressing racial disparities in COVID-19 outcomes. These emergency measures will help combat the heavy toll this virus is exacting, and will deliver community-based and culturally competent care.
- Provide \$130 billion to help schools serve all students, no matter where they are learning, and help achieve President Biden's goal to safely open the majority of K-8 schools within the first 100 days of his Administration. These investments include set asides at the local and state level to ensure states and districts address the learning loss and social and emotional needs of students disproportionately impacted by COVID-19, including students of color, English learners, and students with disabilities.

Deliver immediate relief to American families bearing the brunt of this crisis. The American Rescue Plan devotes about \$1 trillion towards building a bridge to economic recovery for working families. All told, a single parent with one young child making the minimum wage could see her income increase from the equivalent of \$7.25 to around \$11 per hour. The plan will:

- **Give working families a \$1,400 per-person check**, bringing their total relief payment from this and the December down payment to \$2,000. More than 85% of households will receive a check and checks in this bill are bigger than the checks in the CARES Act or in the December bill. And, for the first time, adult dependents are entitled to a check as well. This means a lower or middle-income family of four will see an additional \$5,600 in their pockets.
- **Extend current unemployment insurance benefits and eligibility to September 6 (saving 11 million Americans from losing benefits starting in about a week)**, provide a \$300 per week supplement, and help protect Americans from surprise tax bills on unemployment insurance they received last year.

- **Help Americans stay in their homes** by providing emergency aid to cover back rent. In addition, the bill provides assistance to help struggling homeowners catch up with their mortgage payments and utility costs through the Homeowners Assistance Fund. And, it provides additional funding for families and individuals who are recovering from or at risk of homelessness.
- **Increase the value of Supplemental Nutrition Assistance Program (SNAP) benefits**. The American Rescue Plan will increase SNAP benefits by 15 percent through September 2021. The bill also funds partnerships with restaurants to feed American families and keep workers in the restaurant industry on the job. And, it provides U.S. territories like Puerto Rico additional nutrition assistance funding, in addition to funding to make sure women, infants and children get the food they need to help address food insecurity.
- **Increase the Child Tax Credit** from \$2,000 per child to \$3,000 per child (\$3,600 for a child under age 6) and make 17-year-olds qualifying children for the year. This means a typical family of four with two young children will receive an additional \$3,200 in assistance to help cover costs associated with raising children. The families of more than 66 million kids will benefit.
- **Increase the Earned Income Tax Credit** for 17 million workers by as much as \$1,000. The top occupations that will benefit are cashiers, food preparers and servers, and home health aides – frontline workers who have helped their communities get through the crisis.
- **Expand child care assistance**, help hard-hit child care providers cover their costs, and increase tax credits to help cover the cost of childcare. This is the single biggest investment in child care since World War II.
- **Give families an additional tax credit to help cut child care costs**. Families will get back as a refundable tax credit as much as half of their spending on child care for children under age 13, so that they can receive a total of up to \$4,000 for one child or \$8,000 for two or more children.
- Provide an additional \$1 billion for states to cover the additional cash assistance that **Temporary Assistance to Needy Families** (TANF) recipients needed as a result of the crisis.
- **Lower or eliminate health insurance premiums for millions of lower- and middle-income families enrolled in health insurance marketplaces**. A family of four making \$90,000 could see their monthly premium come down by \$200 per month. This will help well over a million uninsured Americans gain coverage. The plan also subsidizes premiums for continuation health coverage (COBRA).

Support communities that are struggling in the wake of COVID-19. Millions of American workers reside in communities that suffered disproportionately in recent months. The Plan provides critical support to these communities. It will:

- Provide emergency grants, lending, and investment to hard-hit small businesses so they can rehire and retain workers and purchase the health and sanitation equipment they need to keep workers safe. This includes a Small Business Opportunity Fund to provide growth capital to main street small businesses in economically disadvantaged areas, including minority-owned businesses.
- Distribute more than \$360 billion in emergency funding for state, local, territorial, and Tribal governments to ensure that they are in a position to keep front line public workers on the job and paid, while also effectively distributing the vaccine, scaling testing, reopening schools, and maintaining other vital services. State and local employment has fallen by around 1.4 million jobs since the pandemic began including layoffs of 1 million educators, compared to around 750,000 job losses during the Great Recession.
- Help hard-hit public transit agencies avoid layoffs and service reductions, which disproportionately harm workers who are more likely to be dependent on public transportation.

FOR IMMEDIATE RELEASE

April 12, 2022

Subject: The American Rescue Plan Act Survey is now available to the public

Grand Traverse County Administration is encouraging the community to fill out the American Rescue Plan Act Survey that is now available on [Grand Traverse County's website](#) under Administration. The United States Department of Treasury is providing Grand Traverse County with over \$18 million in funding to address the impacts from the COVID-19 pandemic. The County Administrator has formed an American Rescue Plan advisory committee (ARPAC) to make spending recommendations to the Grand Traverse County Board of Commissioners. The purpose of this survey is to involve the community and obtain feedback on the ARPAC's identified priority spending areas. Paper versions of the survey will be made available to all county residents at the County Administrators located on the third floor of the Governmental Center, 400 Boardman Ave, Traverse City, MI 49684. Anyone can pick up a paper survey starting Thursday, April 14th during regular office hours of 8 a.m. to 5 p.m. Monday through Friday.

ARPAC has a tentative timeline they will be working off as the committee continues to meet once a month. The tentative timeline for the American Rescue Plan Advisory Committee (ARPA) is attached below.

ARPAC TIMELINE

6 Final Design Plan

The Civic Center Park final design plan was completed based on feedback received from the community, County representatives and stakeholders during the input opportunities described previously. Additionally, County representatives were consulted separately regarding function and maintenance of the proposed improvements shown in the preliminary plans. Some of the features of the final design plan include:

- » Replacement of the walking path at a true, 1-mile length, 10' wide width, with 3' wide cinder running path and 7 exercise stations
- » Consolidation of bicycle facilities to the southeast corner of the park, to develop a bicycle education center
- » Ice Rink / Multi-Purpose Indoor Facility Addition
- » Playground consolidation, renovation and improvement that focuses on improved accessibility and safety, increased opportunities for very young children and less intensive play, and challenging play elements for older children
- » Skatepark expansion
- » Garfield Street entrance enhancement to a 2-way road with 10' wide accessible non-motorized pedestrian path
- » Improvement of an addition to internal accessible pedestrian circulation system
- » Commitment of the northeast corner of the park for commemoration of the Native American Marker Tree
- » Aesthetic improvements with additional focus on Front Street frontage

BRI presented the final design plan for approval to the County during a regularly scheduled Parks and Recreation Commission meeting. After approval, BRI prepared a preliminary opinion of construction cost, with a set of phasing options that can be used to implement the improvements over a period of time.

Southeast corner of the Civic Center.

The site plan for the 'Front Street' area is a comprehensive layout of recreational and community facilities. At the top, the 'Front Street' label is centered. The plan is bounded by 'Northwest Entrance' on the left, 'Northeast Entrance' on the right, and 'Fair Street' on the bottom. The central area is dominated by two large baseball fields (280' x 120') and four softball fields (180' x 120'). To the left of the baseball fields is a 'Multi-Use Open Space' and a 'Sledding Hill'. To the right is a 'Cycling Education Center' and a 'New Storage and Maintenance Bldg and Shelter'. The plan also includes a 'Consolidated & Enhanced Play Area' with various equipment, a 'Cycling Education Center', a 'New Storage and Maintenance Bldg and Shelter', a 'Bike Skills Course', and a 'Bicycle Education Center'. Other facilities include a 'Pool', 'Future Multi-Purpose Facility', 'Locker Rooms', 'Existing Multi-Purpose Facility', 'Convert Use to Community Center', 'Exercise Station (7 total)', 'Expanded Parking', 'Storm-water Retention', 'Sledding Hill', 'Shelter w/ Restrooms', 'Central Picnic Shelter with Cooking Facility, w/ smaller individual Picnic Shelters', 'Renovate Restrooms', 'Pickleball - 2 Courts', 'Basketball Courts', 'Enhanced Entrance Taking Advantage of Street Signage at Intersection', 'Enhanced Softball Entrance', 'Plaza', 'Public Plaza with Benches and Perennial Garden', 'Native Perennial Garden', 'Perennial Garden with Plants of Native American Cultural Significance', 'Cricket Tree Trail Marker', '6-Unit Bunting Cage', 'Plaza', 'Concessions Restrooms', 'Small Shelter', 'Street Plaza-Style Skatepark', '1 Mile, 10' Wide Accessible Non-Motorized Loop w/ 3' Wide Curb Path & 7 Exercise Stations', 'Wheeled, 7.5 Mile Accessible Surface Walking and Running Trail (1.7 mile wide, 3' Curb Path Along Side)', 'Plaza with Benches and Overhead Tiki Lighting', 'Bench, Typ', 'Seat Wall', '13' Wide Concrete Path', '20' Wide Promenade Enhanced Pedestrian Lighting', 'Exercise Station', 'Trail', 'County', 'On-Street Parking', and 'TITUS STREET' at the bottom.

Grand Traverse County Civic Center

POTENTIAL PROJECT PHASES AND PRELIMINARY OPINION OF CONSTRUCTION COST

Using the approved final design plan, and current cost information to the degree possible, BRI prepared the following set of project phases and accompanying costs. While it may be most efficient for the phases to be completed in the sequence identified, the proposed phasing is not sequence dependent. Additionally, phasing may be further expended to realize smaller projects to fit development budgets and potential funding opportunities.

A word about cost estimates: BRI prepares opinions of preliminary construction cost (OPCC)

based on current construction cost information to the degree possible. Also included in OPCCs are additional project costs including contingencies for final design and engineering, construction contingencies, and contractor general conditions, in an effort to present cost information inclusive of construction budgets at the time of the OPCC. Once a phase or proposed project becomes closer to implementation, we recommend the OPCC be revisited and construction costs updated using present-time cost information as necessary.

Following are short summaries of project phasing and associated costs. A phasing key and detailed cost information by phase is included in the appendix of this report.

Exercise equipment.

Sidewalk between ball fields.

PHASE 1 PROGRAM

Walking path replacement to 1-mile length with cinder running path and exercise stations, NE, NW and SE entrance improvements, and associated connector walks and site furnishings.

OPCC: \$869,500

PHASE 2 PROGRAM

Marker Tree Garden development and landscape restoration.

OPCC: \$869,500

PHASE 3 PROGRAM

Southeast corner improvements including consolidated and improved playground, bicycle education center development, pickleball courts, picnic area, and associated interior parking area and walks.

OPCC: \$1,818,500

PHASE 4 PROGRAM

Southwest corner improvements including removal and replacement of pavilion, amphitheater improvements, associated parking, drives and walks.

OPCC: \$723,000

PHASE 5 PROGRAM

Street-plaza style skatepark addition, Fair Street entry improvements, and associated walks.

OPCC: \$352,000

PHASE 6 PROGRAM

New Rink / Multi-purpose Building*, ballfield renovation, fields 1-3; ballfield reconstruction, fields 3-6, new 5-place automatic batting cage, north, east and west ballfield walks, and landscaping between walking path and Civic Center buildings.

OPCC: \$2,548,00*

*Cost for New Rink / Multi-purpose Building not included in this cost.

PHASE 7 PROGRAM

South roads, drives and walks as indicated.

OPCC: \$871,000

PHASE 8 PROGRAM

North roads, drives and walks as indicated.

OPCC: \$979,500

PHASE 9 PROGRAM

Front Street promenade: Front Street frontage improvements as indicated.

OPCC: \$500,500

PHASE 10 PROGRAM

Titus Street parking and walks as indicated.

OPCC: \$181,500

PHASE 11 PROGRAM

Garfield Street entry drives and walks as indicated.

OPCC: \$220,500

7 Funding Sources

There are variety of possible funding sources to develop or renovate parks and recreation facilities and amenities. The Michigan Department of Natural Resources (MDNR) has a variety of grants that are made available through state and federal funding. Table 1: MDNR Grant Opportunities highlights the grants that would apply to the Civic Center Park.

Funding created through a millage would increase the opportunities for capital improvement projects, maintenance, and a sustainable future. The Table 2: Example of Potential Millage Rates details the rate of funding a millage could create for Grand Traverse County Parks and Recreation. A millage would need to be placed on a ballot and voted on by the people.

The National Recreation and Park Association research has come up with key findings that people show strong support for Park and Recreation funding. Two-thirds of U.S. adults want their local government to dedicate funds through revenues, taxes and levies that directly support parks and

recreation. Dedicated park and recreation funding is essential to the parks, programs, and services that help build healthy, strong and vibrant communities nationwide.¹

A current trend in funding parks and recreation systems has included Agency-Foundation relationships.² Agencies across the United States have partnered with foundations to advocate and raise funds to sustain parks and operations. Some communities have developed “friends groups” to provide services to the park and recreation agency in the way of labor, fundraising, and in-kind services. Now more than ever, parks and recreation agencies need assistance in developing sustainable funding to maintain parks and operations. During this time of the COVID-19 pandemic, foundations can be key to help offset costs for maintenance and operations of park systems.

- 2 National Recreation and Park Association, Park and Recreation Agency-Foundation Relationships 2020

Table 1: MDNR Grant Opportunities

Grant	Eligible Projects	Match Requirements	Grant Request Amount
Trust Fund	Development for public outdoor recreation such as: trails, campgrounds, ball fields, tennis courts and restrooms	Minimum 25%	\$15,000 - \$300,000
Land and Water Conservation Fund	Development for public outdoor recreation such as: trails, picnic areas, beaches, campgrounds, boating access and fishing areas.	Minimum 50%	\$30,000 - \$300,000
Recreation Passport	Development for public outdoor and indoor recreation such as: trails, picnic areas, beaches, campgrounds, boating access and fishing areas. Renovation of existing facilities is emphasized.	Minimum 25%	\$7,500 - \$150,000

Table 2: Example of Potential Millage Rates

Grand Traverse County	
Taxable Valuation 2020	\$5,375,341,574.00
Millage Rates	Funding
1/8 (.1250)	\$671,918
1/4 (.2500)	\$1,343,835
1/2 (.5000)	\$2,687,671
3/4 (.7500)	\$4,031,506
1 (1.000)	\$5,375,342
