All members in attendance stood and recited the Pledge of Allegiance to the Flag of the United States of America.

3. Approval of Agenda

4. Public Comment

Vice President Vickery opened the floor for public comment. There was none.

5. Approval of Minutes

a. *Regular Meeting of June 20, 2019*

It was **MOVED** by Jones, **SUPPORTED** by Odgers, to approve the regular meeting minutes of July 18, 2019 as presented. Motion **CARRIED**.

6. Reports and Communications

a. *Director Report*

Juett confirmed her written report and added the following:

- Preliminary phone interviews for the Adult Services Coordinator position will take place on Friday. Juett hopes to fill the position soon.
- TADL's new critical thinking/philosophy collection "ConsiderThis" has drawn interest. Additions to the collection will be made and related programming will begin starting in October.
- The Traverse Area Historical Society, through a Petertyl grant, provided funding for two 40-hour interns to work with TADL's local history collection. At the conclusion of the internships, huge strides were made toward sorting and cataloging some of the special collections.
- Juett is still waiting on new health insurance renewal rates for the upcoming plan year.
- There were over 400 attendees at the Summer Reading Club finale party in Hull Park. Juett was pleased to be able to tie in the 2019's Summer Reading Club "Universe of Stories" theme with the International Space Station Radio Contact event this year. It was a record breaking year for participation.
- Juett has been working with Radjenovich and Howard to bring them up to speed with all their new duties after she retires.

Vice President Vickery noted that Administrative Reports were included in the board packet. There were no additions to those reports.

b. *Financial Report*

Radjenovich confirmed the July 2019 reports and added the following highlights:

- Revenues – The 2nd half of the State Aid has been received and will be reflected in the August financial report. State Aid overall is about \$6000 over budget. All penal fines have been received and are under budget by about \$10K, a 4% decrease. Fortunately the increased State Aid will offset some of this decrease. As penal fines have trended downward over the past several years, this will again be taken into account in next year's budget. Rents and royalties have been down, as are Contributions, but the latter will increase following receipt of a bequest in the amount of \$81,200.
- Expenses – Wages are on track. Workman's comp is currently over budget, but a portion will be adjusted for a 2020 pre-pay. Office and general supplies year-to-date were up from last year, but are still trending below budget for the year. Professional and contractual costs are higher due to extra needed legal counsel. Advertising and outreach are up due to the highly successful Summer Reading Club's record breaking enrollment. Participant t-shirts have been popular and have proven to be good advertising as they are worn throughout the Summer Reading Club year and on.

c. *Member Library Reports*

Julie Kintner, Director of Fife Lake Public Library (FLPL), noted that Summer Reading Club at FLPL was very successful. The t-shirts are a big hit which she believes are helping bring more awareness of the library within the community. Three members of the staff attended a MeL workshop offering at TADL's Main library. Kintner has had to deal with many building and grounds repairs lately. They have also installed LED lighting to help keep energy costs down. FLPL was able to update an AV cabinet through donations and a grant from Northland Library Cooperative. The Fife Lake community will be hosting its 1st annual Safety Day.

Vicki Shurly, Director of Peninsula Community Library (IPL), announced that the new PCL will open its doors on September 7, 2019. Since December of 2016 the community has raised over \$2.5mil, designed, built, and furnished their new library. Shurly thanked the TADL board for all of the invaluable resources received and for their support, with special thanks to TADL tech team members Scott Morey and Ed Barrett - PCL couldn't do without them!

Amy Barritt, Kingsley Branch Library Manager (KBL), commented on two questions she has gotten a lot since starting her position as branch manager. To the first, "How do you like Kingsley?", she responds that she was born and raised there and sees it as an honor to serve her hometown, the people she loves and knows well. She's excited to be able to change perceptions and make an impact in the community alongside her highly skilled co-workers. To the second question, "What's going on with kids in Kingsley?", she has dived into how the library can play a supportive role along with others in the community. This includes raising the mental health initiative in the area through materials in the library's collection, getting into the schools more, and through making connections and developing programming collaborations geared for teens and young people. KBL will be hosting its first Teen Lock-In and a good number of teens have already signed up. Barritt was proud to report that KBL staff received 65 wonderful thank you notes from kids participating in the Summer Reading Club.

A written report from Renee Kelchak, Director of Interlochen Public Library (IPL), was included in the board packet.

d. *Committee Reports*

Vice President Vickery noted that the Facilities and Services Committee and the Personnel Committee had not met.

- Finance Committee – Gillman reported that the committee had met just prior to the last board meeting and that the information had been covered at that meeting. He also noted that the next committee meeting will cover budgeting and other financial basics and suggested it would be beneficial for newer trustees who are not on the committee to attend the meeting for informational purposes.
- Policy Committee – Sullivan reported that the committee had met and discussed two policies later on the agenda for approval.

e. *Other Reports and Communications*

- Friends' Report – Doug Weaver, TADL Friends Board President
Doug Weaver, Friends of TADL President, reported that the TADL Friends board has approved the use of the web-based membership management software program called Wild Apricot. Following an inquiry from Odgers, Weaver will look into whether the program could be shared by other Friends of the Library groups within the district. The annual Fall book sale will be held September 27-29. To date, the Friends have raised \$17K of the \$22K budgeted, and expect to be able to hit that target by year-end. The Friends of TADL are sponsoring the October National Writers Series event, featuring author Susan Orlean. It is hoped that memberships will increase following the event.

7. **New Business**

a. *Marion Talbot Estate – Acceptance of Gift*

Juett provided a brief bio of long-time patron Dr. Marion L. Talbot, who has bequeathed a gift of \$81,200 to the Traverse Area District Library. Juett noted that, per policy, any gifts over \$10,000 must be accepted by the board. Gillman confirmed with Counsel that the bequest was unrestricted as to the use of the funds and that it could be used as best fit the needs of the library. Juett confirmed that the bequest will be recognized on the donor wall and any applicable plaque related to the usage of the gift. It was MOVED by Gillman, SUPPORTED by Sullivan, to accept the gift of \$81,200 from the Marion L. Talbot Living Trust as described in the executor's consent, release, indemnification and waiver as presented, and that upon receipt of the funds an amendment be made to the budget accordingly. A roll call vote was taken with the following results:

Odgers – aye	Mathewson – aye	Sullivan – aye
Vickery – aye	Jones – aye	Gillman – aye
Gersch – absent		

Motion CARRIED.

8. **Old Business**

a. *MERS Delegate Certification*

Radjenovich noted that MERS holds an annual conference every October. Delegates who attend have the right to vote for open candidacies to the MERS board. A nomination process and vote were taken among eligible employees, who selected Vicki Carpenter as the employee delegate, with Kristi Jackowski as alternate. The officer delegate, selected by Director Juett from eligible management staff was Deb Radjenovich, with Michele Howard as alternate. It was MOVED by Jones, SUPPORTED by Mathewson, to authorize the employee and officer delegates as presented and to submit the required 2019 Officer and Employee Delegate Certification Form. A roll call vote was taken with the following results:

Odgers – aye	Mathewson – aye	Sullivan – aye
Vickery – aye	Jones – aye	Gillman – aye
Gersch – absent		

Motion CARRIED and Vickery thanked the delegates for stepping up to those positions.

b. *Policy Revision – 3.2 Borrowing Parameters and Delinquent Charges*

Jones suggested amending the policy by removing the last part of the sentence in the fourth paragraph following the semi-colon, which reads “exceptions may occur where TADL policies

conflict with school district policy at Peninsula Community Library,” and to insert a period after the word ‘district’ because PCL is now a standalone building and no longer located within the school. It was MOVED by Gillman, SUPPORTED by Mathewson to accept the policy revisions presented along with the strike out language and punctuation correction noted by Jones. Motion CARRIED.

c. *Policy Revision – 3.21 Fines and Lending Periods*

Juett reviewed several changes to 3.21 Fines and Lending Periods policy which include: a reduction in loan period for current year magazines to provide more access opportunity; an expansion in loan period to accommodate local book clubs encouraged and supported by TADL; a reduction in puppet fines to align with other youth materials; STEM kits were added to the storytime kit category; and a notation that maximum fines shall not exceed the cost of an item. It was MOVED by Mathewson, SUPPORTED by Odgers, to support and accept the revision to policy 3.21 Fines and Lending Periods as presented. Motion CARRIED.

d. *Resolution – Roof Venting and Insulation Project Invoice Payment*

Juett confirmed that the roof venting and insulation work has been satisfactory to date and that the payment needing approval will be taken from the Public Improvement Fund budget as approved in a prior resolution by the board. This payment is consistent with that resolution. It was MOVED by Gillman, SUPPORTED by Jones, to accept the resolution to approve payment to Spence Brothers for the roof venting and insulation project in the amount of \$129, 018.96. A roll call vote was taken with the following results:

Odgers – aye	Mathewson – aye	Sullivan – aye
Vickery – aye	Jones – aye	Gillman – aye
Gersch – absent		

Motion CARRIED.

9. **Public Comment**

Vice President Vickery opened the floor for public comment. There was none.

Odgers inquired about TADL logo water bottle sales following the Facebook posting announcing the new water bottle filling water fountains at the Main Library. Having attended the National Writer Series event with author Karl Marlantes, where he related his experience with libraries and librarians, Odgers emphasized the idea libraries change lives. She also suggested using a portion of the Talbot bequest toward health and disability issues since those were topics she knew were dear to Talbot.

Vickery provided insight into his recent visit to the library with his grandchildren and expressed support and appreciation to the staff for the work, thoughtfulness, and quality of the programming offered to the community by the libraries in the district.

Gillman, on behalf of the board of trustees, offered condolences to TADL’s longest serving employee, Katheryn Carrier, on the death of her husband and asked for a moment of reflection.

Mathewson congratulated the staff on a successful Summer Reading Club program, recognizing the work and dedication involved in making it a success.

10. **Adjournment**

With a motion by Gillman and support from Mathewson, Vice President Vickery adjourned the meeting at 5:47pm.

Respectfully submitted,

MEMORANDUM

TO: Chris Cramer, County Administration; Board of County Commissioners
FROM: Christopher Tholen, Deputy Civil Counsel
DATE: September 23, 2019
RE: Sexual Harassment Training

Commissioners-

I was asked to provide advice on the legal implications of sexual harassment training for County employees and elected officials. Ms. Kinsey will be preparing a memorandum on the Human Resources benefits of such training so I will not be giving you any opinions in that regard. When a County is sued the defense of “governmental immunity” is generally available. This doctrine states that “a governmental agency is immune from tort liability if the governmental agency is engaged in the exercise or discharge of a governmental function” so long as the governmental agency’s behavior “does not amount to gross negligence”—among other components of the defense.

In such situations, counties are often able to avoid lengthy litigation as well as paying damages to people who sue those counties. Governmental immunity is not a defense to all allegations, however. One situation where “governmental immunity” does not provide protection for a governmental agency is when the allegation is regarding a violation of civil rights such as sexual harassment.

If it were alleged that a Grand Traverse County employee or official sexually harassed a

coworker or member of the public then there would still be defenses available to the County. One of these defenses could be that the employer—in a County's case someone with the ability to discipline the allegedly offending person or to protect the allegedly victimized person—was either not made aware of the alleged harassment or took appropriate action when made aware. If the employer was not made aware of the problem or if the employer took appropriate action when made aware, then the employer would be dismissed from the lawsuit before it is even determined whether the harassment occurred. The lawsuit could then continue against the alleged harasser; the County, however, would no longer have to defend itself.

Given the unavailability of the defense of governmental immunity it is even more important that sexual harassment training be utilized. The current state of the law allows for the County to be liable if persons with authority do not take appropriate steps when aware of ongoing harassment. Consequently this training would be even more important for those in positions of authority such as department heads and County Commissioners. This training must include not only training on what sexual harassment looks like, but also the steps that are to be taken if sexual harassment is observed. This will help protect Grand Traverse County from a successful civil rights claim because, if the training is effective, then those wielding authority will be better equipped to (1) recognize problems and (2) take appropriate action. If that appropriate action is taken as soon as a person in authority is aware, then the County would be dismissed from a later-filed civil rights lawsuit.

Respectfully,

Christopher Tholen (P76948)

Re: Anti-Harassment Training

Standardized training ensures all employees, and elected officials are aware of what behaviors are expected at work. It's vital to clearly define acceptable behaviors as well as any consequences for stepping outside those boundaries.

Proper education not only helps to safeguard against inappropriate behavior by clearly defining violations, but also empowers those who may encounter forms of harassment to recognize and report these cases to the Human Resources Department.

When approached correctly, anti-harassment training should convey that the County truly cares about the work environment and ensure that all are aware of the proper steps to take in the event harassment occurs. Additionally, training builds community and allows employees to work together toward a common goal. Overall, this feeling of safety in the workplace, coupled with the reassurance that all other employees know what is considered unacceptable, can provide long-lasting confidence in a workplace, as employees remain confident that their fellow team members will stand behind them if an incident does occur.

It should be noted that the benefits of anti-harassment training can extend outside the workplace, as well. Often, people don't have the knowledge or resources to combat anti-harassment in their own lives. After completing Grand Traverse County training, individuals are better equipped to identify and respond to harassment – wherever it occurs.

This Fiscal Year (FY) 2019 Emergency Management Performance Grant (EMPG) grant agreement is hereby entered into between the Michigan Department of State Police, Emergency Management and Homeland Security Division (hereinafter called the Recipient), and the

COUNTY OF GRAND TRAVERSE (hereinafter called the Subrecipient)

I. Purpose

The purpose of this grant agreement is to provide federal pass-through funds to the Subrecipient for the development and maintenance of an emergency management program capable of protecting life, property, and vital infrastructure in times of disaster or emergency.

The FY 2019 EMPG program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal of a secure and resilient Nation. The objective of the NPS is to facilitate an integrated, all-of-nation/whole community, risk driven, capabilities-based approach to preparedness.

In support of the National Preparedness Goal, the FY 2019 EMPG supports a comprehensive, all-hazard emergency preparedness system to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

For more information on the NPS, federally designated priorities, and the FY 2019 EMPG objectives, as well as guidance on allowable costs and program activities, please refer to the FY 2019 EMPG Notice of Funding Opportunity (NOFO) and the FEMA Preparedness Grants Manual located at <https://www.fema.gov>.

Appropriation authority is provided by the *Department of Homeland Security Appropriations Act, 2019*, (Pub. L. No. 116-6).

No. 93-288) (42 U.S.C. §§ 5121 et seq.) located at <http://www.fema.gov/robert-t-stafford-disaster-relief-and-emergency-assistance-act-public-law-93-288-amended>, and the *FY 2019 EMPG Agreement Articles Applicable to Subrecipients*. III. Award Amount and Restrictions

- A. The **County of Grand Traverse** is awarded **\$38,767.00** under the **FY 2019 EMPG**. The Recipient determined the Subrecipient's EMPG allocation as **35.69%** of the Subrecipient's local emergency manager's salary and fringe benefits. The Subrecipient may receive less than the allocated amount if the Subrecipient's cost share (match) of wages and fringe benefits paid to the local emergency manager are less than the total allocation. The Subrecipient's EMPG program budget must be documented on the Local Budget for Emergency Management Performance Grant form (EMD-17).
- B. The FY 2019 EMPG covers eligible costs from October 1, 2018 to September 30, 2019. The funds awarded in the grant agreement shall only be used to cover allowable costs that are incurred during the agreement period. Grant funds shall not be used for other purposes. For guidance on allowable costs, please refer to the EMPG Appendix in the FEMA Preparedness Grants Manual.
- C. This grant agreement designates EMPG funds for the administration and oversight of an approved emergency management program. **The Subrecipient may utilize grant funds for the reimbursement of salary, overtime, compensatory time off, and associated fringe benefits for the local emergency manager, and up to 5% of the total allocation may be utilized for organization costs.** No other expenditures are allowed. If organization costs are claimed, a narrative must be submitted detailing the expenses that are included in these costs.
- D. The FY 2019 EMPG program has a 50% cost share (cash or in-kind) requirement, as authorized by the *Robert T. Stafford Disaster Relief and Emergency Assistance Act*, as amended, (Pub. L. No. 93-288) (42 U.S.C. §§ 5121 et seq.), specifically, Title VI, sections 611(j) and 613. Federal funds cannot exceed 50% of eligible costs. Unless otherwise authorized by law, federal funds cannot be matched with other federal funds.

The Federal Emergency Management Agency (FEMA) administers cost sharing requirements in accordance with 2 CFR § 200.306. To meet matching requirements, the Subrecipient contributions must be reasonable, allowable, allocable, and necessary under the grant program and must comply with all federal requirements and regulations.

See the FY 2019 EMPG NOFO and FEMA Preparedness Grants Manual for additional cost share guidance, definitions, basic guidelines, and governing provisions.

In the event that the U.S. Department of Homeland Security (DHS) determines that changes are necessary to the award document after an award has been made, including but not limited to, changes to period of performance or terms and conditions, Subrecipients will be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate Subrecipient acceptance of the changes to the award.

Subrecipients may be required to supply documentation certifying that a reduction in non-federal resources occurred for reasons other than the receipt or expected receipt of federal funds.

XII. Entire Grant Agreement

This grant agreement is governed by the laws of the State of Michigan and supersedes all prior agreements, documents, and representations between the Recipient and the Subrecipient, whether expressed, implied, or oral. The Recipient may immediately cancel the grant without further liability to the Recipient or its employees if the Subrecipient, an officer of the Subrecipient, or an owner of a 25% or greater share of the Subrecipient is convicted of a criminal offense incident to the application for or performance of a state, public, or private grant or subcontract; or convicted of a criminal offense, including, but not limited to any of the following: embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, attempting to influence a public employee to breach the ethical conduct standards for State of Michigan employees; convicted under state or federal antitrust statutes; or convicted of any other criminal offense which, in the sole discretion of the Recipient, reflects on the Subrecipient's business integrity.

XIV. Freedom of Information Act (FOIA)

Much of the information submitted in the course of applying for funding under this program, or provided in the course of grant management activities, may be considered law enforcement-sensitive or otherwise critical to national security interests. This may include threat, risk, and needs assessment information; and discussions of demographics, transportation, public works, and industrial and public health infrastructures. Therefore, each Subrecipient agency Freedom of Information Officer will need to determine what information is to be withheld on a case-by-case basis. The Subrecipient should be familiar with the regulations governing Protected Critical Infrastructure Information (6 CFR, Part 29) and Sensitive Security Information (49 CFR, Part 1520), as these designations may provide additional protection to certain classes of homeland security information.

Attachment 2: Focus Areas

Each year, health centers and SWPs should review their needs assessment data to determine priority health issues that are of such significance to their target population to warrant an enhanced “focus” for the upcoming year. FOCUS AREAS

- ALCOHOL/TOBACCO/OTHER DRUG PREVENTION
- CHRONIC DISEASE MANAGEMENT
- HIV/AIDS/STI PREVENTION

Focus areas are meant to provide services above and beyond what would typically be provided in comprehensive primary care. It is expected that each of these focus areas will be a part of comprehensive primary care already, but interventions selected for the focus area requirement should be significantly beyond typical care. Strategies should be intensive, evidence-based, and include appropriate evaluation methods to assess impact and progress on meeting focus areas.

2. That any executed subcontract shall require the subcontractor to comply with all applicable terms and conditions of this agreement. In the event of a conflict between this agreement and the provisions of the subcontract, the provisions of this agreement shall prevail. A conflict between this agreement and a subcontract, however, shall not be deemed to exist where the subcontract:
 - a. Contains additional non-conflicting provisions not set forth in this agreement; or
 - b. Restates provisions of this agreement to afford the Grantee the same or substantially the same rights and privileges as the Department; or
 - c. Requires the subcontractor to perform duties and services in less time than that afforded the Grantee in this agreement.
3. That the subcontract does not affect the Grantee's accountability to the Department for the subcontracted activity.
4. That any billing or request for reimbursement for subcontract costs is supported by a valid subcontract and adequate source documentation on costs and services.
5. That the Grantee will submit a copy of the executed subcontract if requested by the Department.

appropriate under this agreement.

2. The Grantee will ensure that any subcontractor will have the same obligations as the Grantee not to share any protected health data and information from the Department that falls under HIPAA requirements in the terms and conditions of the subcontract.
3. The Grantee must only use the protected health data and information for the purposes of this agreement.
4. The Grantee must have written policies and procedures addressing the use of protected health data and information that falls under the HIPAA requirements. The policies and procedures must meet all applicable federal and state requirements including the HIPAA regulations. These policies and procedures must include restricting access to the protected health data and information by the Grantee's employees.
5. The Grantee must have a policy and procedure to immediately report to the Department any suspected or confirmed unauthorized use or disclosure of protected health data and information that falls under the HIPAA requirements of which the Grantee becomes aware. The Grantee will work with the Department to mitigate the breach, and will provide assurances to the Department of corrective actions to prevent further unauthorized uses or disclosures.
6. Failure to comply with any of these contractual requirements may result in the termination of this agreement in accordance with Part II, Section V. Agreement Termination.
7. In accordance with HIPAA requirements, the Grantee is liable for any claim, loss or damage relating to unauthorized use or disclosure of protected health data and information by the Grantee received from the Department or any other source.
8. The Grantee will enter into a business associate agreement should the Department determine such an agreement is required under HIPAA.

M. Home Health Services

If the Grantee provides Home Health Services (as defined in Medicare Part B), the following requirements apply:

1. The Grantee shall not use State ELPHS or categorical grant funds provided under this agreement to unfairly compete for home health services available from private providers of the same type of services in the Grantee's service area.
2. For purposes of this agreement, the term "unfair competition" shall be defined as offering of home health services at fees substantially less than those generally charged by private providers of the same type of services in the Grantee's area, except as allowed under Medicare customary charge regulations involving sliding fee scale discounts for

low-income clients based upon their ability to pay.

3. If the Department finds that the Grantee is not in compliance with its assurance not to use state ELPHS and categorical grant funds to unfairly compete, the Department shall follow the procedure required for failure by local health departments to adequately provide required services set forth in Sections 2497 and 2498 of 1978 PA 368 as amended (Public Health Code), MCL 333.2497 and 2498, MSA 14.15 (2497) and (2498).

N. Website Incorporation

The Department is not bound by any content on Grantee's website unless expressly incorporated directly into this Agreement.

O. Survival

The provisions of this Agreement that impose continuing obligations will survive the expiration or termination of this Agreement.

P. Non-Disclosure of Confidential Information

1. The Grantee agrees that it will use Confidential Information solely for the purpose of this agreement. The Grantee agrees to hold all Confidential information in strict confidence and not to copy, reproduce, sell, transfer or otherwise dispose of, give or disclose such Confidential Information to third parties other than employees, agents, or subcontracts of a party who have a need to know in connection with this Agreement or to use such Confidential Information for any purpose whatsoever other than the performance of this Agreement. The Grantee must take all reasonable precautions to safeguard the Confidential Information. These precautions must be at least as great as the precautions the Grantee takes to protect its own confidential or proprietary information.

2. Meaning of Confidential Information

For the purpose of this Agreement the term "Confidential Information" means all information and documentation that:

- a. Has been marked "confidential" or with words or similar meaning, at the time of disclosure by such part;
- b. If disclosed orally or not marked "confidential" or with words of similar meaning, was subsequently summarized in writing by the disclosing party and marked "confidential" or with words of similar meaning;
- c. Should reasonably be recognized as confidential information of the disclosing party;
- d. Is unpublished or not available to the general public; or
- e. Is designated by law as confidential.

3. The term "Confidential Information" does not include any information or

documentation that was:

- a. Subject to disclosure under the Michigan Freedom of Information Act (FOIA);
 - b. Already in the possession of the receiving party without an obligation of confidentiality;
 - c. Developed independently by the receiving party, as demonstrated by the receiving party, without violating the disclosing party's proprietary rights;
 - d. Obtained from a source other than the disclosing party without an obligation of confidentiality; or
 - e. Publicly available when received or thereafter became publicly available (other than through an unauthorized disclosure by, through or on behalf of, the receiving part).
4. The Grantee must notify the Department within one business day after discovering any unauthorized use or disclosure of Confidential Information. The Grantee will cooperate with the Department in every way possible to regain possession of the Confidential Information and prevent further unauthorized use or disclosure.

Q. Cap on Salaries

None of the funds awarded to the Grantee through this Agreement shall be used to pay, either through a grant or other external mechanism, the salary of an individual at a rate in excess of Executive Level II. The current rates of pay for the Executive Schedule are located on the United States Office of Personnel Management web site, <http://www.opm.gov>, by navigating to Policy - Pay & Leave - Salaries & Wages. The salary rate limitation does not restrict the salary that a Grantee may pay an individual under its employment; rather, it merely limits the portion of that salary that may be paid with funds from this Agreement.

IV. Financial Requirements

A. Operating Advance

Under the pre-payment reimbursement method, no additional operating advances will be issued.

B. Payment Method

1. Prepayments

- a. The Department will make monthly prepayments equal to 1/12th of the agreement amount for each non-fee-for-service program contained in Attachment IV of this agreement. One single payment covering all non-fee-for-service programs will be made within the first week of each month. The Grantee can view their monthly prepayment within the MI E-Grants system.

- b. Prepayments for the months of October thru January will be based upon the initial agreement amounts in Attachment IV. Subsequent monthly prepayments may be adjusted based upon agreement amendments or Grantee adjustment requests.
- c. If the sum of the prepayments does not equal at least 90% of the Grantee's expenditures for a quarter of the contract period, the Grantee may submit documentation for an adjustment to the monthly prepayment amount via the following process:
 - i. Submit a written request for the adjustment to the Department's Accounting Division, Expenditure Operations Section.
 - ii. The adjustment request must be itemized by program and must list the amount received from the Department, the expenditure amount reported per the quarterly Financial Status Report (FSR), and the difference. The amount received from the Department and the expenditures must be for the same reporting quarterly FSR period.
 - iii. The Department will review the requests and if an adjustment is approved, it will be included in the next scheduled monthly prepayment.
 - iv. Adjustment requests will not be accepted prior to submission of the FSR for the quarter ending December 31. No adjustments will be made prior to the February monthly prepayment.
 - v. The ability of the Department to approve adjustments may be limited by the quarterly allotments of spending authority in the Department's appropriation account mandated by the Office of the State Budget Director. The quarterly allotment limits the amount of each account (program) that the Department may expend during each fiscal quarter.
- 2. Fixed Fee Reimbursement
 - a. Quarterly reimbursement for fixed fee projects is based on Attachment IV and approved quarterly Financial Status Reports.

C. Financial Status Report Submission

- 1. A Financial Status Report (FSR) must be submitted on a quarterly basis no later than 30 days after the close of the calendar quarter for all programs listed on Attachment IV and fee for services project budgeted. Failure to meet financial reporting responsibilities as identified in this agreement may result in withholding future payments.
- 2. FSR's must report total actual program expenditures regardless of the source of funds. The Department will reimburse the Grantee for expenditures in accordance with the terms and conditions of this

agreement. Failure to comply with the reporting due dates will result in the deferral of the Grantee's monthly prepayment.

3. By submitting the FSR the individual is certifying to the best of their knowledge and belief that the report is true, complete and accurate and the expenditures, disbursements, and cash receipts are for the purposes and objectives set forth in the terms and conditions of this agreement. The individual submitting the FSR should be aware that any false, fictitious, or fraudulent information, or the omission of any material facts, may subject them to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise.
4. The instructions for completing the FSR form are available on the website <http://egrams-mi.com/dch>. Send FSR questions to FSRMDHHS@michigan.gov.

D. Reimbursement Method

The Grantee will be reimbursed in accordance with the reimbursement methods for applicable program elements described as follows:

1. Performance Reimbursement - A reimbursement method by which Grantees are reimbursed based upon the understanding that a certain level of performance (measured by outputs) must be met in order to receive full reimbursement of costs (net of program income and other earmarked sources) up to the contracted amount of state funds. Any local funds used to support program elements operated under such provisions of this agreement may be transferred by the Grantee within, among, to or from the affected elements without Department approval, subject to applicable provisions of Sections 3.B. and 3.C.3 of Part I and Section XIV of Part II. If Grantee's performance falls short of the expectation by a factor greater than the allowed minimum performance percentage, the state maximum allocation will be reduced equivalent to actual performance in relation to the minimum performance.
2. Actual Cost Reimbursement - A reimbursement method by which Grantees are reimbursed based upon the understanding that state dollars will be paid up to total costs in relation to the state's share of the total costs and up to the total state allocation as agreed to in the approved budget. This reimbursement approach is not directly dependent upon whether a specified level of performance is met by the local health department. Department funding under this reimbursement method is allocable as a source before any local funding requirement unless a specific local match condition exists.
3. Fixed Unit Rate Reimbursement - A reimbursement method by which Grantee are reimbursed a specific amount for each output actually delivered and reported.

4. Essential Local Public Health Services (ELPHS) - A reimbursement method by which Grantees are reimbursed a share of reasonable and allowable costs incurred for required services, as noted in the current Appropriations Act.

E. Reimbursement Mechanism

All Grantees must sign up through the on-line vendor registration process to receive all State of Michigan payments as Electronic Funds Transfers (EFT)/Direct Deposits. Vendor registration information is available through the Department of Technology, Management and Budget's web site: <http://www.michigan.gov/sigmavss>

F. Unobligated Funds

Any unobligated balance of funds held by the Grantee at the end of the agreement period will be returned to the Department or treated in accordance with instructions provided by the Department.

G. Final Obligation Reporting Requirements

An Obligation Report, based on annual guidelines, just be submitted by the due date using the format provided by the Department through MI E-Grants. The Grantee must provide, by program, an estimate of total expenditures for the entire agreement period (October 1 through September 30). This report must represent the Grantee's best estimate of total program expenditures for the agreement period. The information on the report will be used to record the Department's year-end accounts payables and receivables by program for this Agreement. The report assists the Department in reserving sufficient funding to reimburse the final expenditures that will be reported on the Final FSR without materially overstating or understating the year-end obligations for this agreement. The Department compares the total estimated expenditures from this report to the total amount reimbursed to the Grantee in the monthly prepayments and quarterly fee-for-service payments to establish accounts payable and accounts receivable entries at fiscal year-end. The Department recognizes that based upon payment adjustments and timing of agreement amendments, the Grantee may owe the Department funding for overpayment of a program and may be due funds from the Department for underpayment of a program at fiscal year-end.

Within 75 days after the agreement fiscal year-end, the Grantee must liquidate any unpaid year-end commitments and obligations. Any obligation remaining unliquidated after 75 days from the end of the agreement period shall revert to the Department for disposition in accordance with applicable state and/or federal requirements, except as specifically authorized in writing by the Department.

H. Final Financial Status Reporting Requirements

Final FSRs are due on the following dates following the agreement period

end date: <u>Project</u>	<u>Final FSR Due Date</u>
Public Health Emergency Preparedness	11/15/2020
All Remaining Projects	11/30/2020

Upon receipt of the final FSR electronically through MI E-Grants, the Department will determine by program, if funds are owed to the Grantee or if the Grantee owes funds to the Department. If funds are owed to the Grantee, payment will be processed. However, if the Grantee underestimated their year-end obligations in the Obligation Report as compared to the final FSR and the total reimbursement requested does not exceed the agreement amount that is due to the Grantee, the Department will make every effort to process full reimbursement to the Grantee per the final FSR. Final payment may be delayed pending final disposition of the Department's year-end obligations.

If funds are owed to the Department, it will generally not be necessary for Grantee to send in a payment. Instead the Department will make the necessary entries to offset other payments and as a result the Grantee will receive a net monthly prepayment. When this does occur, clarifying documentation will be provided to the Grantee by the Department's Accounting Division.

I. Penalties for Reporting Noncompliance

For failure to submit the final total Grantee FSR report by December 15, through MI E-Grants after the agreement period end date, the Grantee may be penalized with a one-time reduction in their current ELPHS allocation for noncompliance with the fiscal year-end reporting deadlines. Any penalty funds will be reallocated to other Local Health Department Grantees. Reductions will be one-time only and will not carryforward to the next fiscal year as an ongoing reduction to a Grantee's ELPHS allocation. Penalties will be assessed based upon the submitted date in MI E-Grants:

ELPHS Penalties for Noncompliance with Reporting Requirements:

1. 1% - 1 day to 30 days late;
2. 2% - 31 days to 60 days late;
3. 3% - over 60 days late with a maximum of 3% reduction in the Grantee's ELPHS allocation.

J. Indirect Costs and Cost Allocations/Distribution Plans

The Grantee is allowed to use approved federal indirect rate, 10% de minimis indirect rate or cost allocation/distribution plans in their budget calculations.

1. Costs must be consistently charged as indirect, direct or cost allocated, but may not be double charged or inconsistently charged.
2. If the Grantee does not have an existing approved federal indirect rate, they may use a 10% de minimis rate in accordance with Title 2 Code of Federal Regulations (CFR) Part 200 to recover their indirect costs.

3. Grantees using the cost allocation/distribution method must develop certified plan in accordance with the requirements described in Title 2 CFR, Part 200 which includes detailed budget narratives and is retained by the Grantee and subject to Department review.
4. There must be a documented, well-defined rationale and audit trail for any cost distribution or allocation based upon Title 2 CFR, Part 200 Cost Principles and subject to Department review.

V. Agreement Termination

The Department may terminate this agreement without further liability or penalty to the Department for any of the following reasons:

- A. This agreement may be terminated by either party by giving 30 days written notice to the other party stating the reasons for termination and the effective date.
- B. This agreement may also be terminated by either party with 30 days prior written notice upon the failure of either party to carry out the terms and conditions of this agreement, provided the alleged defaulting party is given notice of the alleged breach and fails to cure the default within the 30 day period.

Agenda Item Title:	Michigan Indigent Defense Commission (MIDC) Amendment to Allow for Expenditure of Fiscal Year (FY) 2019 Unexpended Funds		
Estimated Time:	5 minutes (in minutes)	Laptop Presentation:	☐ Yes ☒ No

Summary of Request:

On September 15, 2019, we received a letter from MIDC Director Loren Khogali addressed to all local funding units that if a funding unit wanted to use FY 2019 grant funds for expenditures occurring in FY 2020, then that unit had to complete an amendment to the grant agreement permitting such allowance. Ms. Khogali requested that the funding units execute a form amendment included with her letter, and return it to MIDC by September 25, 2019. On September 24th, the County Administrator executed the amendment on behalf of Grand Traverse County and transmitted it to MIDC. Because we did not have sufficient time to review the amendment and add it on the Board of Commissioners' September 18th agenda, we are requesting that the Board of Commissioners ratify the Administrator's execution on behalf of the County. A copy of the executed amendment is included with this action request.

Suggested Motion:

Resolved, the Grand Traverse County Board of Commissioners ratify the County Administrator's execution of an Amendment to the MIDC FY 2019 Grant Agreement to Allow for Expenditure of FY 2019 Unexpended Funds.

RESOLUTION

XX-2019

**Michigan Indigent Defense Commission (MIDC) Amendment to Allow for Expenditure of
FY 2019 Unexpended Funds**

WHEREAS, The Grand Traverse County Board of Commissioners met in regular session on October 2, 2019, and reviewed recommendation to ratify the County Administrator's execution of an Amendment to the MIDC FY2019 Grant Agreement to Allow for Expenditure of FY 2019 Unexpended Funds, and,

WHEREAS, a letter was received from MIDC that if a funding unit wanted to use FY 2019 grant funds for expenditures occurring in FY 2020, an amendment allowing same must be completed; and,

WHEREAS, the executed amendment was due by September 25, 2019, which did not allow sufficient time to present to the board so the County Administrator executed the amendment on behalf of the County; and,

NOW, THEREFORE, BE IT RESOLVED BY THIS BOARD OF COMMISSIONERS THAT Grand Traverse County ratifies the County Administrator's execution of an Amendment to the MIDC FY2019 Grant Agreement to Allow for Expenditure of FY 2019 unexpended fund to be spent for expenditures in FY 2020.

APPROVED: October 2, 2019

AMENDMENT TO ALLOW FOR EXPENDITURE OF FISCAL YEAR 2019 UNEXPENDED FUNDS

Subject to the terms and conditions below, the State of Michigan, the Michigan Indigent Defense Commission (MIDC), and the Department of Licensing and Regulatory Affairs (LARA) (collectively "Grantor") and Grand Traverse County ("Grantee") enter into this Agreement to allow Grantee to use funds remaining from Grant No. 2019-54 after September 30, 2019.

BACKGROUND

In June 2018, the Michigan Legislature appropriated funds to cover the cost of indigent defense services under the Michigan Indigent Defense Commission Act. Funding for fiscal year 2019 was distributed to funding units pursuant to a grant contract executed between each funding unit and Grantor. The funds distributed under these grant contracts included the state grant amount and the local share. The amount of the grants included funding for a full fiscal year--October 1, 2018, through September 30, 2019.

Pursuant to the MIDC Act, all indigent defense grant funds are required to be held in a restricted fund. MCL 780.993(14)(b). The MIDC Act also provides that unexpended funds in a system's restricted fund (not subject to MCL 780.993(11)) will be included in the system's subsequent fiscal year's expenditures through the subsequent year's compliance plan and cost analysis.

The Parties are unable to execute a new grant contract for fiscal year 2020 on or before October 1, 2019. The Parties agree, however, that Grantee should make indigent defense-related expenditures with unexpended funds from fiscal year 2019 in order to ensure the uninterrupted provision of indigent defense services.

TERMS

1. *Scope of Authority:* This agreement incorporates by reference the fiscal year 2019 grant contract and associated fiscal year 2019 compliance plan and cost analysis. If Grantee received a budget adjustment during fiscal year 2019, it should continue spending funds in accordance with the budget adjustment. Any funds used pursuant to this agreement shall be used consistent with the FY 19 approved compliance plan and cost analysis and shall not be used for any other purpose.
2. *Variation from Fiscal Year 2019 Spending:* Any variation in Grantee's spending requires prior written approval from the MIDC. Grantee must follow MIDC policy and procedure when applying for approval. The MIDC's approval of Grantee's fiscal year 2020 plan and/or cost analysis does not qualify as approval to deviate from Grantee's fiscal year 19 spending.
3. *Offset:* The state grant for fiscal year 2020 will be offset by the amount of unexpended funds (not subject to MCL 780.993(11)) remaining on September 30, 2019.
4. *Fund Balance Reporting:* Michigan Compiled Laws 780.993(15) requires Grantee to report all unexpended funds as of September 30th by October 31, 2019, to the MIDC.

5. *Incorporation:* All terms and conditions of the Parties' fiscal year 2019 grant agreement (including attachments) are incorporated into this Agreement. But if there is a conflict between the terms and conditions of the fiscal year 19 grant agreement and this Agreement, this Agreement prevails.

MISCELLANEOUS PROVISIONS

6. *Local Share:* Nothing in this agreement affects the calculation of the local share pursuant to the MIDC Act. That share is adjusted on an annual basis.

7. *Modification:* This Agreement, and all documents incorporated hereto, constitute the Parties' entire Agreement. This Agreement can only be modified by the Parties' written agreement.

8. *Waiver:* Failure to enforce any provision of this Agreement shall not constitute a waiver.

9. *Severability:* If any court of competent jurisdiction finds any part of this Agreement to be invalid or unenforceable, that part will be deemed deleted from this Agreement. The severed part will be replaced with a mutually agreeable provision that achieves the same or similar objectives. The remaining Agreement will continue in full force and effect.

10. *Headings:* The use of headings in this Agreement is for convenience only. Headings shall not affect the interpretation of any provision of this Agreement or any of the rights or obligations of the Parties.

11. *Termination:* This agreement shall terminate on December 31, 2019, or the date that the parties sign their FY 20 grant contract—whichever date is earlier. Expenditures made under this Agreement, however, shall be included and supported with documentation in the first report required under the FY20 grant contract.

12. *Signatories:* The signatories warrant that they are empowered to enter into this Agreement and agree to be bound by it.

Executive Summary

Observations

- Grand Traverse County (GTC) enforces the State Construction Code for all jurisdictions in the County, except Garfield Township which issues their own building permits. GTC issues permits and performs inspections for all trades in Garfield Township.
- The County Construction Code Department is extremely busy and has issued an average of 17,200 permits a year over the past three years.
- The County Board of Commissioners approved the hiring of Tyler Technologies to provide construction code and permitting EnerGov software and Carlisle | Wortman Code Enforcement Division (CES) to evaluate the Construction Code Department and the permitting process.
- CES conducted extensive stakeholder interviews with representatives of business, the construction building industry, local officials, architects and County staff.
- Stakeholder reviews of the Construction Code Department were favorable. Improvements were recommended to the phone system, website, plan review turnaround time, level of staffing, and communication and customer service.
- Major stakeholder complaint focused on the delays experienced receiving a land use permit for local jurisdictions and duplicative requirements prior to applying for a building permit.

Recommendations

- Full implementation of a Coordinated Permit Processing Program (CP3) will be a tremendous advancement. CP3 will require more than new permitting software.
- CP3 will offer a “one-stop shop right from your desktop” approach. However, the County needs to complement the roll out of the new permitting software with a strong public education program.
- To assist an enhanced coordination effort with local jurisdictions, the County should consider creating a Community Development Coordinator position. An individual with a strong planning and zoning background would be best suited to assist local units with CP3.
- Additional Construction Code Department staffing is needed. A Deputy Building Official would free the Building Official from many of the routine duties he currently performs. A deputy could also assist with plan review.
- An office manager is also needed, particularly on who will understand the new software and be able to assist others.

Executive Summary

- Inspection turnaround and average daily inspections can improve with new software, especially by field equipping inspectors with smart phones and tablets, or laptops.
- Transferring addressing from Equalization to the Construction Code Department may also increase permitting efficiency.
- The new software and CP3 offers the opportunity for concurrent processing of all permits, including land use permits. Coordination with local jurisdictions will allow the new permitting software to be used to the maximum benefit.

Introduction

Grand Traverse County (GTC) is described in the County's Master Plan as northern Michigan's most popular resort destination. As a result, it is also one of the fastest growing counties in Michigan.

Effective building, planning, and zoning administration activities form the foundation for a sustainable community. The built environment of Grand Traverse County requires strong building code compliance activities for the provision of safe, sanitary and decent structures both for housing and non-residential sites. Enforcement of construction codes and zoning regulations is an investment in the future of the County protecting the value of the County's tax base. Codes and regulation protect existing and new structures, alleviate blighting influences, improve structure quality and extend useful life and value. Effective building, planning and zoning programs are essential in attracting economic development and redevelopment.

Safety of residents and visitors is a major concern. Strict code compliance leads to long-term reinvestment and the future vitality of the community. The impact is cumulative and does not occur overnight. The community is enhanced one structure at a time and one site at a time.

The County Construction Code Department is extremely active, providing full-time services to all Grand Traverse County municipalities, except Garfield Township. Even with the large volume of activity, the County Construction Code Department is operating on a paper-permitting system and is not making use of technology in the application, permit review and inspection process.

Thus, the County Board of Commissioners authorized the hiring of Tyler Technologies to develop EnerGov construction code and permitting software and asked Carlisle Wortman Associates (CWA) to evaluate the existing construction code department.

CES Scope of Work

Observations

- *CWA assisted the County in developing a better understanding of the County permitting system in conjunction with other agencies and local units of government.*
- *The Construction Code Department was evaluated to determine its efficiency, timeliness, level of service and generation of revenue.*

The County retained CWA to evaluate the Construction Code Department and identify options to improve the delivery of Construction Code Department Services. In the course of this evaluation, CWA assisted the County in creating a greater understanding of how the county level construction permitting system needed to be coordinated with permitting by other County agencies and local units of government.

The Construction Code Department was evaluated to determine if it is delivering service efficiently and within an acceptable time frame. A major focus of this study has been the process of interaction with client communities and how service delivery may be improved. A major component of improved service delivery is the use of technology. The work of CWA has involved close coordination with the County Administration, County staff and the software vendor, Tyler Technologies.

A final component of the study was to evaluate sources of revenue. CWA reviewed fees to determine whether they are on par with other jurisdictions and properly reflect the costs of operating the Department.

When asked to evaluate the performance of a Construction Code Department, CWA starts by asking these basic questions:

1. **How long does it take to approve a permit from the day it was submitted?**
2. **Are there delays in the process while a permit waits in someone's inbox or waits to be delivered?**
3. **How many days is the application idle?**
4. **Are some parts of the process repeated? Are some parts of the application reviewed multiple times?**
5. **What percent of applicants have to request assistance to complete the forms?**

CES Scope of Work

6. What percent of submitted applications have missing or inaccurate information?
7. Do reviewers need multiple data systems to find the information they need to review applications?
8. How many times do customers have to come to the permitting office?
9. What can customers tell us about the process?
10. What would make the process easier?

Project Goals

Overall Goal

- *Create a new electronic permitting system that will allow for a one-stop shop.*

Observations

1. *Build Mutual Understanding*
2. *Analyze Process, Performance and Costs*
3. *Use Information Technology*

The ultimate goal of the County's effort and CWA's evaluation is to assist the County in improving the delivery of service during the development and launching of the new EnerGov software with the focus of creating a one-stop shop permitting system. Given the geography and number of jurisdictions involved, the new permitting system will allow for a virtual "one stop shop" process.

To implement this over-arching goal, the following objectives have been identified that will be in place on an ongoing basis and need periodic evaluation and fine-tuning. These objectives include:

1. Build Mutual Understanding

Bring agencies, industry, elected officials, and the public together to build mutual understanding of the "how" and "why" of the permit process. Work together and educate all participants about how to be more effective during permit review.

2. Analyze Process, Performance, and Costs

Analyze and continually monitor the process, its performance, and costs of service. Mapping the full permit process can reveal opportunities for improvement and assist applicants and reviewers to know how to execute the steps. Establish performance standards to build expected results into the process.

3. Use Information Technology

Assist in identifying technology such as electronic permit tracking systems, geographic information systems (GIS), and the interconnection of these systems online to improve communication, create efficiencies, reduce paperwork and build easily accessible project records.

Constituent Input

Observations

- *The overall impression of the County Construction Code Department is favorable.*
- *Phone correspondence is preferred by applicant, however, the phone system is inadequate.*
- *Clarity as to what is required for applications is necessary.*
- *The timeliness of the department's plan review could be improved as it is a lengthy process that easily is extended.*
- *It is difficult to determine where in the process applications or plans are, making it difficult to gauge the timeline of projects.*

In the course of its investigation, CWA has involved leadership, staff, community and business organizations throughout the evaluation. Both one-on-one and group interviews were conducted with business and building and construction organizations, design professionals, local government officials and their staff, and County staff.

The overall impression of the County Construction Code Department is favorable. Comments heard from interviews are summarized as follows:

- Regarding the website, mixed responses were received. Applicants with experience don't use the website. Most indicated they call the office because they don't know if the website is up to date. However, even with relying on calling the office, the phone system is inadequate.
- There were a number of comments on the applications. Several comments were received that there is a disconnect between permitting entities as to what is required for a completed application resulting in frustration for architects and builders.
- There is a general consensus that the timeliness of the department's plan review could be improved. The land use and building permit process make it a lengthy process, and it's easy to get further behind as the department gets busier. It's also hard to tell where in the process applications or plans are, and it's difficult to gauge the timeline of the project because of that.
- There were a number of positive comments regarding Building Official Bruce Remai who is described as good to work with and a problem solver. But, he is spread too thin. A deputy Building Official is needed.
- The County permitting process is fine but can't start until address and Township land use permits are issued. The time to get an address takes too long. That is when delays occur.

Constituent Input

Observations

- *Additional staffing is needed.*
- *Time to obtain an address creates delays.*
- *Inspection processes can be improved by providing transparency as to what inspectors are looking for, as well as scheduling.*
- *Communication between entities could be improved.*
- *Correspondence with design professionals regarding updates in project timelines, reviews and code updates would be beneficial.*
- *Improving customer service of staff could foster positive relationships between the Department and design professionals.*
- The Department is understaffed. Staffing levels are considerably less than pre-recession.
- The process of calling for inspections is cumbersome and slow. Staff turnover makes inspections difficult, and communication as to what inspectors are looking for would be helpful because repeat inspections are necessary. Inspection times are posted the morning of the inspection often after an inspection was supposed to happen. Inspectors also won't complete an inspection if the project doesn't match drawings in entirety. This elongates timelines. Also, often failed inspections occur based upon comments that are not relevant to the Code.
- Overall, communication could be improved, including communication between entities as to what is required, corresponding with design professionals as to updates in project timelines, reviews and code updates.
- Some comments were received about customer service and the politeness of staff. Effort should be directed toward improving the relationship between the Department and design professionals.

Constituent Input

Observations

- *The process should be clarified through the creation of a checklist.*
- *A sense of urgency should be established in issuing permits and performing inspections.*
- *There should be the creation of a culture of customer service.*
- *IT upgrades are necessary.*
- *Staffing levels should be improved.*
- *Improved communication should be prioritized.*

In a meeting with the Chamber of Commerce, a collaborative effort between the Chamber, Builders Exchange and Home Builders Association was discussed. In that collaborative effort, recommendations were made that would improve the overall permitting process. The key points identified through these joint discussions were the following:

- There needs to be a online checklist of the process. It is not often clear.
- Time accountability, transparency and creation of a sense of urgency in issuing permits and performing inspections is necessary.
- Build on a culture of customer service.
- IT upgrades to the permitting process are essential.
- It should be ensured that the office is adequately staffed.
- It should be ensured that permit fees are staying in the Department.
- Improved communication should be prioritized.

Finally, a meeting was held on August 28, 2019 with the local jurisdictions that are served by the Construction Code Department where the new Tyler software and streamlined permitting process was discussed. The County's efforts were generally well received and there was a thorough and straightforward discussion about potential issues with implementation.

Evaluation of Construction Code Department and Permitting Process

Observations

- *The Grand Traverse County Construction Code Department is responsible for the administration and enforcement of the Stille-DeRosset-Hale Single State Construction Code Act, Act 230 of 1972, as amended.*
- *The State has established certification standards and continuing education requirements for building officials, inspectors, examiners and trade inspectors.*
- *All applicable laws and ordinances to be administered and enforced must be coordinated with both internal County departments as well as City, Village and Township jurisdictions.*
- *The Act provides guidelines regarding permit fees and restricts use of revenues generated.*
- *Current staff consists of 11 full time staff and 4 contractual inspectors.*
- *Staffing levels have decreased significantly following the collapse of the residential construction market in 2008.*

GTC construction code enforcement activities are handled at the county level of government for all jurisdictions except Garfield Township. This includes the City of Traverse City, Village of Kingsley, Village of Fife Lake and twelve townships. While Garfield Township has its own Construction Code Department, the County provides plumbing, electrical and mechanical trade inspections.

Statutory Authority

The Construction Code Department of Grand Traverse County operates under and is subject to the Stille-DeRossett-Hale Single State Construction Code Act, Act 230 of 1972, as amended. Act 230 allows a County to establish a Construction Code Department which, in turn, becomes responsible for the administration and enforcement of the act and building code for each jurisdiction. In Grand Traverse County, the County administers the construction code for all jurisdictions except Garfield Township.

Under Act 230, local units are permitted to administer and enforce the adopted State Construction Code, which includes regulations developed by national (and international) code authorities for standards on building construction, electrical, mechanical, and plumbing installations. In Michigan, these codes are adopted and modified from time to time by the State Construction Code Commission. The issuance of all building permits and inspections in the State are conducted under the authority of Public Act 230 of 1972, as amended. The State has established certification standards and continuing education requirements for all building officials, building inspectors, plans examiners and trade inspectors.

The Act also provides strict guidelines regarding permit fees and restricts the use of such revenues to construction code department functions only.

The Construction Code Act, section 11 (1) authorizes the Construction Code Department to issue a permit when an application conforms to the building code and the requirements of applicable laws and ordinances. In the case of Grand Traverse County, the applicable laws and ordinances

Evaluation of Construction Code Department and Permitting Process

Observations

- *The current phone menu is too long, and has deficiencies.*
- *Inspectors make themselves available from 7am to 9am daily to provide technical questions and feedback to citizens.*
- *The current turnaround for residential permits is 5 to 6 days.*
- *The current turnaround for commercial project permits are 7 to 14 days.*
- *Staff supports the implementation of new permitting software.*

that are administered and enforced must be coordinated with both internal County departments as well as City, Village and Township jurisdictions.

Permit Activity

With the population growth and development experienced within the County, the Department is extremely active, issuing an average of 6,000 permits over the past three years and conducting an average of 17,200 building, electrical and mechanical inspections per year. The large majority of building activity is occurring within Traverse City and adjacent townships. Table 1 illustrates the amount of permit activity over the past three years.

Staff Interviews

Detailed interviews were conducted with members of the construction code department regarding their duties and perceptions of the department. We found a dedicated staff of individuals performing their duties in an efficient and effective manner. The Building Official advised us that the department underwent a tremendous change since the collapse of the residential construction market in 2008. Prior to this event staffing levels were at 21 full time team members and it has since been reduced to just 11 full time staff and 4 contractual inspectors.

Current staffing is as follows:

- Building Official
- Plans Examiner
- Building Inspector (2)
- Plumbing Inspector (1)
- Mechanical Inspector (1)
- Electrical Inspector (2)
- Administrative Staff (3)

The table above shows the total permit activity between 2016 and 2018 for the Grand Traverse County Construction Code Department.

Evaluation of Construction Code Department and Permitting Process

Observations

- *New positions are needed including a Deputy Building Official, Plans Examiner and Office Manager.*
- *A Deputy may be able to fill the Plans Examiner role.*
- *The Department makes appropriate use of contract inspectors.*
- *Contracts should be amended to require registration and license be kept current.*
- *A wage study of inspectors needs to be conducted to ensure qualified staff can be hired and maintained.*
- *The office floor plan is inefficient and needs to be evaluated.*

A general consensus during interviews was that the staffing levels were generally adequate but perhaps to achieve a quicker permit turnaround time an additional plans examiner would be needed to achieve this. The Building Official indicated that he would like to fill the vacant Deputy position and perhaps add an office manager position. The Deputy could also assist with plan review and the office manager could oversee the entire administrative operations, and assist with permit coordination.

Another observation was the phone answering menu is too long and causes the building inspectors to receive most of the calls because they are the first on the menu and citizens just want to speak with someone. We were also advised of a glitch in the system, whereas; if someone is listening to a phone message and a call comes in the call takes precedence and interrupts the message requiring the person to start the message over.

The administrative staff has correctly observed that the current office layout is inefficient. Circulation paths for staff workflow are not well laid out and could be improved to promote greater office efficiency. The current floor plan needs to be evaluated and redesigned.

The inspectors make themselves available every morning from 7am to 9am to meet with citizens at the counter to answer technical questions and review their projects. This is a recommended practice as it does allow for a quicker turnaround of permits. The current turnaround time for residential permits is 5 to 6 days. Commercial projects are 7 to 14 days depending on the completeness of the plans. The staff seem to support the implementation of the permit software.

In regards to staffing, there is a significant challenge throughout the State to hire and retain qualified inspectors. Compensation is a key factor. Although it is beyond the scope of this study, a follow-up evaluation of wages for all inspectors, including building inspectors, is recommended.

The department makes use of contractor inspectors, primarily in the trades. Each contractor is required to sign a contract which establishes the rate of pay, performance, insurance coverage and miscellaneous requirements. The only recommendation regarding these contracts is to add language to require contractors to maintain their registration and license while working under contracted agreement with the County.

Evaluation of Construction Code Department and Permitting Process

Observations

- *In late 2018, the department was evaluated for its overall effectiveness.*
- *On a scale of 1 (best) to 10 (worst), the department received exemplary scores.*
- *Additional training could assist in maintaining this high ISO rating.*

Insurance Service Office (ISO) Evaluation

In November of 2018, the department was evaluated by the ISO for the purpose of examining the overall effectiveness of its operations which include:

- Background information
- Code Adoption
- Education, training and certification
- Staffing levels
- Floodplain management

The ISO has evaluated over 14,000 code enforcement departments across the United States. In each of these communities, three elements of building code adoption and enforcement are reviewed. These three elements are the administration of codes (54% of the score), plan review (23%) and field inspection (23%). The overall rating received is a number from 1 (best) to 10 (worst). The department received a score of 3 for residential construction and 2 for all other. These scores are the best that CWA has observed as both consultants and as a company that provides building operation services and operates building departments.

Continuing education for code officials is mandated by the State to maintain valid state registrations. In the ISO report it compared four categories of training (administrative, legal, mentoring and technical) to a county, state and national average. Grand Traverse County Building was above the average for administration and legal but the lowest for mentoring and technical. Although not mandated, additional training would help maintain the high ISO rating.

Evaluation of Construction Code Department and Permitting Process

Observations

- *Contract inspectors are employed as necessary.*
- *Although the ISO rating for the plan review process was satisfactory, assistance would reduce wait times.*
- *Inspectors average 8.6 inspections per day. With electronic permit processing and improved scheduling, this average can increase.*
- *Inspectors need to be equipped with smartphones and tablets or laptops.*

With regard to staffing levels the ISO sets the following benchmarks to compare the department with other jurisdictions:

- 10 inspections per day per full time inspector
- 1 commercial plan review per day per full time plan reviewer
- 2 residential plan reviews per day per full time plan reviewer

Based on the last three years of data from the department, the following are the inspection statistics:

17,202	Average number of inspections per year
250	Number of inspection days
8	Inspectors
8.6	Inspections per day per inspector

While the average number of inspections per day is slightly lower than the recommended average, it may not have taken into account the extensive geography that must be covered by each inspector on a daily basis. To improve on the average daily number of inspections, several things need to occur:

- Inspector scheduling can be improved.
- Inspectors can be equipped with smart phones and tablets or laptops and be notified of inspection requests without visiting the office.
- To the extent possible, daily inspection requests can be geographically organized. This will also necessitate improved GIS services to the Construction Code Department.

Even though the ISO rated the plan reviews as satisfactory we recommend assistance to cut down on wait times. Stakeholder interviews indicated a level of frustration with wait time for plan review.

Evaluation of Construction Code Department and Permitting Process

Observations

- *In order to apply for a Building Permit within any of the 15 jurisdictions of Grand Traverse County, a Land Use Permit is required.*
- *Table 2 located on page 19 provides a summarization of each local jurisdiction's requirements for a land use permit.*
- *Duplicate information is required for land use permits and building permits.*

Permit Coordination with Local Jurisdictions

Currently, the Construction Code Department will not accept a Building Permit application until a Land Use Permit has been issued by the local jurisdiction. All fifteen (15) jurisdictions for whom the Construction Code Department administers the code require a land use permit to be issued. The permit verifies that local zoning requirements are met. This approval is consistent with Section 11 of the Construction Code Act.

The Zoning Ordinances for each local jurisdiction were reviewed to determine the requirements for a land use permit. The results of this review are provided in Table 2 and summarized below:

- All jurisdictions require some form of site plan or sketch plan be submitted with the application
- All but two (2) jurisdictions require an address be issued prior to land use permit approval
- All jurisdictions require health department or in the case where sewer and water available, Department of Public Works approval.
- All but one (1) jurisdiction requires a soil erosion permit
- Eleven (11) of the fifteen (15) jurisdictions require a driveway permit be issued by the Road Commission
- Five (5) of fifteen (15) jurisdictions require an applicable fire department review

After reviewing a representative sample of land use permit applications from jurisdictions served by the County, CES determined that it is possible to have a single application. A copy of a sample application is provided as Attachment I.

Evaluation of Construction Code Department and Permitting Process

Observations

- *Before a building application can commence, an address and land use permit must be obtained as requirement of County Street Address Ordinance.*
- *The County Street and Road Naming and Numbering Ordinance needs to be amended to allow a concurrent permit process.*
- *Consider transferring addressing to the Construction Code Department.*

In the constituent interviews, which were conducted, there were some opinions expressed that the County Construction Code Department does not have to wait for local land use approval before issuing a building permit. However, such an approach would be contrary to Section 11 of the Construction Code Act. In a survey of a sample of five (5) other County Building Departments (Marquette, Sanilac, Antrim, Cheboygan, and Manistee), it is clear that at least 4 out of 5 clearly require a land use permit. A stakeholder interview indicated that Manistee County does not require a land use permit prior to issuing a building permit. However, reviewing the process for at least the City of Manistee and Manistee, Onekama and Arcadia Townships, CES found that they do require a land use permit prior to a building permit.

The conclusion of this review is that most jurisdictions are requiring duplicate information for both land use and building permits. Under the current paper system of permit processing, the Construction Code Department is constrained from starting the building permit process until land use permits have been issued and physically provided.

Another significant issue is that County Street and Road Naming and Numbering Ordinance states:

“No land use permit will be issued by a local municipality until an address has been assigned by the GTC Equalization Department.”

As the online permitting system continues to progress, the County should consider transferring addressing to the Construction Code Department. It is quite common for Building Departments to be responsible for addressing.

Evaluation of Construction Code Department and Permitting Process

Observations

- *All departments require separate permit applications.*
- *With the exception of the Construction Code Department all other applications are available online using fillable forms.*

Permit Coordination with Other Departments

The primary function of the Construction Code Department is to administer PA 230 to ensure that all construction projects are code compliant. Upon receiving construction documents and a permit application, the plans are reviewed for code compliance and the permit is issued. Throughout the project inspections are performed at various stages and corrections made when identified. Upon completion and final inspections, a Certificate of Occupancy is issued (when applicable) and the permit is closed. The department also works closely with various other county departments depending upon their requirements. Working in cooperation with these departments ensures that all state laws, other than the building codes, are complied with.

Depending on the type of project (residential or commercial), the Construction Code Department is requiring permits be obtained from the County Departments summarized in Table 3. Currently, each Department requires separate permit applications. All Departments except the Construction Code Department are using fillable forms online.

Evaluation of Construction Code Department and Permitting Process

Observations

- Applicants must engage each separate permit issuing entity prior to submitting to the construction code department (shown in Figure 1).
- Upon adoption of Tyler software, the overall process will be quicker and applications can occur concurrently (Shown in Figure 2).

Permit Process

Applications are received with the required documentation:

- Equalization address assignment
- Land use permit from jurisdiction
- Site plan
- Well and septic permits/County Health or DPW
- Driveway permit from /County Road Commission
- Soil erosion permit/County Health Dept.
- DEQ (when applicable)
- 2 sets of construction documents (plans, specification and energy code compliance)

Upon receiving the application, the department assigns a permit number and a corresponding file number as finalized permits are not filed by permit number. The plans are then assigned to the plans examiner to be reviewed. Upon completion of the review the applicant is notified that the permit is ready to be issued. Miscellaneous permits, such as minor trade work, re-roofing, siding and window replacements are issued over the counter. The current process is shown in Figure 1.

Currently the applicant must engage each of the permit issuing authorities before submitting to the Construction Code Department. Once the County transitions over to Tyler software, and each jurisdiction and department are linked with the system, the process can begin with the applicant submitting the application online through a portal. The project can then be reviewed concurrently which should effectively speed up the overall process. This is shown in Figure 2.

Evaluation of Construction Code Department and Permitting Process

Observations

- *The permit numbering system in Grand Traverse County is unique.*
- *Expired permits are a challenge, although administrative staff has enacted procedures to alert applicants about permits that are nearing expiration.*
- *Electronic permit processing will improve on the handling of expired permits.*

The current permit numbering system is not typically seen in other building departments. For example, a building permit number (B45550) only identifies the type of permit and then followed by a seemingly never ending succession of numbers without resetting.

Expired permits are an issue with every building department. Permits are valid for 180 days from the date of issuance, and if no inspection activity occurs within that time the permit expires. The applicant has an opportunity to ask the Building Official, in writing, for an extension. For various reasons, applicants fail to follow procedures and let the permit expire. Administrative staff has put in place a procedure to track these permits that have expired or are about to expire by sending out notices and perform subsequent follow up if needed.

There is tremendous opportunity to automate much of this process to help inspectors perform more timely follow-up. This will have the ultimate benefit of making the county safe.

Evaluation of Construction Code Department and Permitting Process

Figure 1: Current Process Flowchart

The flowchart above provides a visual representation of the current permitting process. As one can see, reviews build on each other as the timeline moves horizontally. In order to be able to apply for a building permit, the land use permit must first be obtained.

Evaluation of Construction Code Department and Permitting Process

Figure 2: Proposed Process Flowchart

PROPOSED PROCESS • *Reviews occur simultaneously*

- *Process is aligned in time*
- *Information can be shared as necessary*

The flowchart above provides a visual representation of the proposed permitting process. As one can see, permits are simultaneously pulled, and the information can be cross populated as necessary to create a more efficient timeline, and allow for easy viewing of what items are still outstanding.

Evaluation of Construction Code Department and Permitting Process

Observations

- *The International Code Council (ICC) building permit fee method has been adopted.*
- *County fees are in line with similar Departments.*

Permit Fees

The County adopted the International Code Council's (ICC) building permit fee method. The ICC developed this system so that enforcement jurisdictions do not need to revisit their fee schedules from time to time. The Construction Code Departments' fees were compared with 7 other like jurisdictions throughout the State for the purpose of determining whether the fees were in line with other departments. The study uses 3 scenarios; a new residential home, a residential addition, and a commercial building. In general, the County is in line with their current fees and that they could defend them to the State upon any complaints. Tables can be found in Attachment II.

Observations/Recommendations

In scenario one, the plumbing fees are lower than the other trades and the average. The County may consider a review and possible adjustment at some point.

Once the County has implemented EnerGov permitting software process, CES recommends that a target surplus number be identified at a rate of 1.5 times higher than the department's annual budget, and if needed, adjust the fees to maintain the target amount. After that, CES would recommend at least a bi-annual review of the Construction Code fund surplus and fee review for possible adjustments.

A proven method for establishing the appropriate permit fee is to take the current department annual budget and divide it into a three year average of the construction valuation (total cost of construction). This will give you a permit fee multiplier.

Evaluation of Construction Code Department and Permitting Process

Example:

Grand Traverse' last three year average of construction value was: \$137,776,756.00

The 2018 operating budget was: \$865,106.00

$865,106 / 137,776,756 = .006$ multiplier

So in scenario one, the building permit fee would be \$1,380 plus the basement and garage.

\$230,000

x .006

\$1,380

Recommendations

Observations

1. *The Coordinated Processing Program (CP3) will be a tremendous advancement.*
2. *A CP3 Task Force is recommended to assist implementation.*
3. *With rollout of EnerGov, a strong public education program is needed.*
4. *A new position of Community Development Coordinator would provide staff level coordination with local jurisdictions and County departments.*

Coordinated Permit Processing Program (CP3) Recommendations

In the case of Grand Traverse County, instituting new EnerGov permitting software will be a tremendous step forward, but constitutes only one component on having and maintaining an effective and efficient permitting process. Given the number of local government and county agency partners there are in the permitting process, an ongoing commitment to improvement is essential.

Adopting a comprehensive Coordinated Permit Processing Program or CP3 is recommended. While the core of CP3 is to make best use of the new permitting software a great deal of more work is required to institute a “one-stop shop from your desktop” permitting system.

CP3 should be led by a Task Force whose role will be to assist in the implementation of a coordinated and improved permit processing system. The CP3 Task Force should be composed of representatives of:

- County Construction Code Department
- County Departments involved in permitting
- Building and construction industry
- Business community
- Local government

For CP3 to be fully effective, users will need assistance and education. Therefore, a strong public education program along with website redesign is recommended. Public education should include press releases, brochures and information on the County’s website. The website will be the initial point of entry into the permit portal. Redesign should include:

- Intuitive navigation
- Clear instructions
- Understandable forms
- Sample applications

Recommendations

Observations

1. *Alter the permit numbering method.*
2. *Review functions of the phone system and revise menu as necessary.*
3. *Increase staffing.*
4. *Review construction code department revenue.*
5. *Provide additional training funds as necessary.*
6. *Create fillable applications.*
7. *Publish fee schedules online in their entirety.*

CP3 will require a great deal of cooperation and coordination between the County and local jurisdictions to fully implement the program. It also offers an unprecedented opportunity for intergovernmental cooperations.

However, the County Board and Administration will need to consider whether the Construction Code Department is in the best position to fully implement all aspects of CP3. The County may consider adding a Community Development Coordinator position to assist with the type of outreach and coordination that will be needed. An individual with a strong background in local government would best be suited to assist local units with CP3. In conjunction with other assigned responsibilities, it is possible that most of this position could be funded from fees.

Department Recommendations

1. Once the new EnerGov software system is active we recommend that the permit numbering method be changed so the permit number itself can easily identify the project by year, type and project. For example; PBC19-0000 identifies it as a permit/building/commercial/year-number. The number sequence restarts each new year. This system allows any program to search and sort data easily for reporting purposes. It will also make ISO reporting faster as the data needs to be sorted by commercial/residential and by permit type.
2. We recommend that your IT department review the functions of the phone system regarding the interruptions while listening to messages. The menu should also be reviewed and shortened if possible.
3. Fill the vacant Deputy Building Official position to assist with excess plan reviews and support the Building Official with administrative functions. Create an office manager position to manage the administrative operations.

Recommendations

4. Review the Construction Code Departments revenue surplus and adjust the fee multiplier if needed to maintain no more than 1.5 times of the annual budget.
5. Provide additional training funds for inspectors with extra construction related credentials.
6. Equip inspectors with tablets or laptops to improve upon scheduling.
7. Create fillable application forms in preparation of the launch of the Tyler system.
8. Publish the entire permit fee schedule online rather than just the miscellaneous fees.
9. Conduct wage study to ensure Department can hire and maintain qualified inspectors.
10. Evaluate office floor plan.

Summary of Request:

For the 2020 benefit plan year, Grand Traverse County Human Resources went out to bid for the medical plan through our broker, Advantage Benefits Group. During the process, we also received bids on the ancillary benefits; group life, voluntary life, short term, and long term disability. The dental and vision plans are in rate guarantees for the 2020 year.

As a public employer it is required to take our benefit plans to bid every three years per PA 106. Through this process there was a cost savings of over \$90,000.00 in our ancillary benefits and the health insurance benefits were almost flat compared to 2019 rates.

For the 2020 year, it is recommended to remain with Priority Health in the HMO High Deductible Health Plan. Deductibles for 2020 will increase to \$1,400 for an individual and \$2,800 for a double/family due to the requirements of the IRS.

Overall, we believe this is an incredibly strong and competitive offering that represents tremendous cost savings to the County. We anticipate a more streamlined approach to our ancillary offerings and plan to have online benefits enrollment for the first time for the 2020 benefit plan year.

Summary of Recommendations

Line of Coverage	Recommendation	Estimated Annual Cost
Medical	Maintain current Priority Health plan <i>Priority Health provided a flat renewal to the current medical plan, with a small increase to the deductible as mandated by the ACA, and the elimination of the well vision exam per Priority Health requirements</i>	\$3,612,729
Dental	Maintain current Delta Dental plan <i>Delta Dental provided a flat renewal to the current dental plan with <u>no benefit changes</u></i>	\$470,226
Vision	Maintain current EyeMed plan <i>Currently in a rate guarantee until January 2023</i>	Employees Pay Single - \$7.42 Two Person - \$14.10 Family - \$20.70
Life & Disability	Move to Mutual of Omaha <i>Mutual of Omaha is offering approximately \$93,000, annually, in savings by moving the Group and Voluntary Life & AD&D coverage from Lincoln Financial Group and maintaining the Short and Long Term Disability, with <u>no benefit changes</u>.</i>	\$187,949

Total Annual Cost to GTC (Recommendation): Estimated Change in Cost from Current Year:		\$4,271,492 -\$92,971

Medical Plan Recommendation

Current Plan Financial Details:

# of Contracts	Current Monthly Rate	Renewal Monthly Rate
Single: 115	\$375.94	\$375.95
Two Person: 102	\$902.25	\$902.28
Family: 147	\$1,127.82	\$1,127.85
Monthly Total	\$301,052	\$301,061
Annual Total	\$3,612,626	\$3,612,729

Alternative Proposals Reviewed:

- Alternative plan design options from Priority Health were reviewed, including increased deductible and increased prescription copay options. It was determined the value in changing the benefits by increasing member out of pocket was not equal to the value in premium reduction.
- Other carriers reviewed included:
 - United Healthcare – declined to quote due to location and inability to match current union negotiated plans
 - Blue Care Network– provided a competitive option (estimated \$154,000 in annual savings / -4.3%), however there were several reasons the GTC HR team did not believe BCN would be a good fit for 2020, including benefit changes that would not be in the employee's favor. A few examples include:
 - Telemedicine – Priority Health offers 24/7 telemedicine coverage for \$45 before the deductible, then at no cost to the member after the deductible has been met. BCN offers 24/7 telemedicine coverage for \$49 before the deductible, then subject to 20% cost sharing once the deductible is met.
 - Rehabilitation – the rehabilitation limit would have been reduced from 30 visits per year, to one 60 day period per year.
 - Skilled Nursing – the skilled nursing limitation would be reduced from the current benefit of 120 days per year to 45 days per year.
 - Prescription Drugs – the BCN plan would provide multiple increased copays in addition to an entirely new formulary of drugs. While the full impact to members cannot be estimated due to HIPAA privacy laws, we know impact would include prescriptions changing from one copay tier to another, some prescriptions covered today being excluded under BCN, and members having to coordinate with their physicians for prior authorization and step therapy restriction satisfaction.

Dental & Vision Plan Recommendation

Current Dental Plan Financial Details:

# of Contracts	Current Monthly Rate	Renewal Monthly Rate
Single: 118	\$37.54	\$37.54
Two Person: 132	\$90.09	\$90.09

Monthly Total	\$39,186	\$39,186
Annual Total	\$470,226	\$470,226

Alternative Proposals Reviewed:

- A self funded option with Delta Dental was reviewed. With minimal savings (-3.95%) to the County, it was determined remaining fully insured under the current fully funded arrangement was the best course for renewal.

Current Vision Plan Financial Details:

- The vision is in a rate guarantee with EyeMed to January 2023
- One item to note is that Priority Health will no longer be offering the well vision exam as part of the medical plan. They have eliminated the administration of this benefit effective January 2020.

# of Contracts	Current Monthly Rate	Renewal Monthly Rate
Single:	\$7.42	Renewing January 2023
Two Person:	\$14.10	
Family:	\$20.70	
Monthly Total	\$1,982

Life and Disability Recommendation

Current Life and Disability Financial Details:

Plan (Carrier)	Current Rate (Monthly / Annual Total)	Renewal Rate (Monthly / Annual Total)
Group Life and AD&D (Lincoln Financial Group)	\$0.293 per \$1,000 (\$6,533 / \$78,393)	\$0.270 per \$1,000 (\$6,020 / \$72,239)
Voluntary Life (Mutual of Omaha)	Varies by Age	Varies by Age No change
Short Term Disability (Mutual of Omaha)	\$0.468 per \$10 (\$12,832 / \$153,985)	\$0.240 per \$10 (\$6,580 / \$78,966)
Long Term Disability (Mutual of Omaha)	\$0.250 per \$100 (\$4,043 / \$48,5200)	\$0.210 per \$100 (\$3,396 / \$40,757)
Total Monthly Paid by GTC	\$23,408	\$15,997
Total Annual Paid by GTC	\$280,896	\$191,962

Alternative Proposals Reviewed:

- A full request for proposal was executed with 4 carriers showing significant savings:
 - MetLife: -37.2% (-\$104,515)
 - Lincoln Financial Group: -32% (-\$89,889)
 - Mutual of Omaha: -33.09% (-\$92,948)
 - Aflac: -27.97% (-\$78,558)
- Due to a cumulative positive experience in overall plan management and administration among the GTC HR team with Mutual of Omaha, it is the recommendation that GTC maintains the current plans with Mutual of Omaha, and transition the Group Life and AD&D to them as well, for a total annual savings of **\$92,948**.
- The savings are presented with a guarantee the Group Life and AD&D policy under Mutual of Omaha will match the current Lincoln Financial Group policy with no changes to the benefits.
- The estimated cost for each are as follows:
 - Accident Coverage (Employee Only Coverage): \$39,223 annually
 - Critical Illness (\$10,000 in Employee Only Coverage): \$72,384 annually
 - Total Cost for Both Plans (Employee Only Coverage): \$111,607 annually
- Both plans, specifically the Accident plan, are very popular among employers who offer Qualified Deductible Plans (such as the medical plan offered by GTC) to offset the out of pocket cost associated with unforeseen accidents and illnesses.

Agenda Item Title:	Request to submit final application for annual Office of Highway Safety Planning Grant (2020-0058) to fund Operating While Intoxicated and Seat Belt Traffic +		
Estimated Time:	10 (in minutes)	Laptop Presentation:	☐ Yes ☒ No

Summary of Request:

In 2018, the Office of Highway Safety Planning (OHSP) offered the Grand Traverse Sheriff's Office (GTSO) a \$30K grant for their 2019 fiscal year to address an observed statistical increase in drunk and drugged driving crashes resulting in serious injuries in Blair Twp. The OHSP Grant (PT-19-32) for drunk and drugged driving (Blair Twp) and seat belt (Garfield Twp) traffic enforcement concluded this past Labor Day. OHSP offered GTSO another \$30K grant for the 2020 fiscal year for the same purpose- drunk and drugged driving and seat belt traffic enforcement.

Enforcement campaign is made up of five enforcement periods. They are seat belt traffic enforcement in October and May. These will take place in Garfield Twp and East Bay Twp in October 2019 and May 2020. The OWI enforcement periods will take place in Garfield Twp and Blair Twp in December 2019, July 2020, and August 2020.

This grant allows for extra traffic enforcement patrols during peak holiday times to keep motorist safe and increase awareness of the danger of drunk and drugged driving and encourage compliance with seat belt use and other traffic laws. This funding from the Office of Highway Safety Planning will provide for hundreds of hours of dedicated traffic enforcement for drugged and drunk driving and seat belt traffic enforcement during the times of the year it is most needed.

Suggested Motion:

For Board of Commissioners Chair, Rob Hentschel to submit the final application of OHSP Grant (2020-0058).

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION(applies to sub-recipients as well as States)

Instructions for Primary Certification (States)

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR Parts 180 and 1200.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into

this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

Otherwise backup information may be submitted via US mail, by fax, or by email. A financial report submitted to the OHSP by the grantee shall contain the following to be considered complete :

- a. Electronic signatures for the agency's Financial Officer or Project Director.
- b. A copy of a report for the current period generated by the grantee's official accounting system which shows a description of the item and the actual amount spent. Some examples of acceptable reports include a detailed general ledger, a transaction ledger, a payroll journal, or a detailed budget/expenditure report. The report must match the amount being requested for reimbursement.
- c. For enforcement grants: Officer names, dates, and amounts paid for each agency participating in grant funded patrols.
- d. For non-enforcement grants with personnel costs: Activity logs as described in "Personnel Costs" under "Budget Cost Category Requirements."
- e. Copies of invoices must be included.
- f. Additional documentation as requested by the OHSP.

3. Financial reports are due, at a minimum, on a **quarterly** basis. Financial report due dates are specified in the grant approval letter. Financial reports must be submitted even when the project experiences no costs. In this case, a "zero" Financial report shall be submitted. The submission of financial reports is mandatory and non-compliance can result in termination of the grant. Financial reports will be considered delinquent unless prior approval is received from the OHSP Program Coordinator .

4. The Project Director shall ensure that financial reports are submitted in compliance with reporting deadlines. If the financial report is submitted electronically without backup documentation, the financial report is not considered submitted and the grantee will receive a delinquent letter stating the same.

5. A delay in submitting support documentation may result in the suspension of all grant activity .

6. Failure to submit cost statements with adequate supporting documentation prior to the fiscal year close out deadline will result in non-reimbursement of those costs. Costs from one fiscal year cannot be paid in a subsequent fiscal year.

BUDGET COST CATEGORY REQUIREMENTS

(PLEASE REFER TO THE FOLLOWING FOR SPECIFIC REQUIREMENTS OF BUDGET COST CATEGORIES. ONLY REQUIREMENTS FOR COST CATEGORIES CONTAINED WITHIN YOUR APPROVED GRANT BUDGET APPLY.)

PERSONNEL COSTS

1. Includes itemized monthly or hourly salary rate. Fringe benefits are included under personnel costs.
2. Payments for salaries and wages shall be supported by a time and attendance report, based on an after-the-fact distribution of time, which shows details of the activities performed.
3. Federal guidelines prohibit using federal grant funds to pay for routine and/or existing state or local expenditures.
4. If the grant contains personnel services as part of the award, a job description for each position listed in the budget must be available to the OHSP upon request.

For enforcement grants (and all sub-recipients and contractors) - See program requirements Section 5.

For non-enforcement grants – The grantee (and all sub-recipients and contractors) must maintain activity logs which document the actual amount of time spent on the grant project and describe the nature of the activities performed. If the grant is funded from multiple sources, the logs must show the activity by fund source. This documentation must be submitted with the financial reimbursement request.

5. Reimbursement for wages and fringe benefits shall be based on actual costs NOT budgeted rates. Only those fringe benefit costs that increase because of hours worked on this project can be claimed for reimbursement. For overtime wages, those costs typically include FICA, workers comp, and retirement, but if any of these costs are structured so that they don't increase with overtime, they cannot be reimbursed. For straight-time grant-funded positions, all fringe benefits associated with the position may be claimed to the extent that the position has been approved for reimbursement (e.g., if 50% of the position is grant funded, 50% of the fringes benefits can be claimed.) Fringe benefit rates must be reasonable and in accordance with federal cost principles.

6. The rate of pay for grant-funded enforcement shall be determined according to the grantee's (and all sub-recipients and contractors) policy, contract, or employment agreement. Overtime rates must be applied consistently to all activities of an agency – higher rates may not be established just for federal grants.

7. Agencies shall comply with all state labor laws.

CONTRACTUAL SERVICES

Contractual services are services of individual consultants or consulting firms engaged in performing special services pertinent to highway safety. Contracts are allowable when necessary to achieve the goals of the grant agreement. Costs are allowable for products, highway safety consultants, personal services, and/or individuals for support services, provided applicable state and local procurement procedures are followed and documentation is available that describes the official contract and procurement practices. Contracts and procurements must include "special provisions" as provided by the OHSP. The grantee is responsible for verifying contractor eligibility by checking the national List of Parties Excluded from Federal Procurement and Non-Procurement Programs list available at or adding a self-certification clause or condition to the contract. (www.govinfo.gov).

All grantees (and all sub-recipients and contractors) awarding contracts or sub-contracts shall comply with the terms and conditions of Title 49 Code of Federal Regulations, Part 18-Uniform Administrative Requirements for Grant and Cooperative Agreements to State and Local Governments, §18.36 Procurement. A signed copy of the contract, including federal certifications and assurances, shall be submitted to the OHSP upon completion and is required for processing and approval of financial reimbursement requests.

The grantee is responsible for managing all contracts issued using the OHSP grant funds including:

- Ensuring the contractor complies with all contract provisions.
- Ensuring services are performed according to the quality, quantity, objectives, timeframes, and manner specified in the contract.
- Ensuring that all work is completed and accepted before the contract expires.
- Assessing and requesting amendments, renewals or new contracts as required allowing sufficient time to process and execute these changes before the contract expires to prevent lapse in service.
- Ensuring that contracts are amended after any grant agreement revision that affects the contract terms.
- Reviewing and approving invoices for payment, ensuring payments are made in accordance with contract terms, all costs are budgeted and allowable, and work has been performed.
- Monitoring contract expenditures to ensure there are sufficient funds to pay for all services rendered as required by the contract.
- Verifying all requirements of the contract are fulfilled before submitting the final invoice.
- Ensuring that all Personnel Activity log requirements are met.

OPERATING COSTS

1. Only eligible operating costs specifically listed in the approved grant budget will be reimbursed. These are costs not covered under other budget categories, including services not requiring contractual agreements and minor equipment such as office supplies, printing, and educational materials.

2. Automotive expenses submitted shall be based on actual costs incurred. In most cases, this will be calculated by multiplying actual miles driven times a mileage rate. The rate will be determined when the grant is approved, but will generally be the IRS business mileage rate. With prior approval, reimbursement may be allowed based on the actual costs incurred for gasoline, maintenance, insurance, and other vehicle expenses.

Out-of-state travel funded by federal grant funds requires prior written approval by the OHSP Division Director. A written request shall be submitted on the form provided. **Requests shall be submitted at least 30 days in advance of anticipated travel.** Financial commitment (i.e. travel arrangements, conference fees, hotel reservations, etc.) shall not be made prior to OHSP approval.

3. Reimbursements for travel (meals, lodging, mileage, etc.) cannot exceed the lesser of the grantee's published travel rates or the allowable State of Michigan travel rates. Exceptions to this for unusual situations require approval by OHSP prior to incurring the expense.

4. Postage, telephone, and grant-related travel costs shall be documented by log or meter and submitted with the reimbursement request.

EQUIPMENT (includes software)

1. Only eligible equipment specifically listed in the equipment section of the approved grant budget will be reimbursed. Equipment costs shall be reimbursed according to the match requirements as specified in the approved grant budget.

2. Equipment purchases shall be initiated within the time period specified in the approved grant. "Initiated" means bids were solicited, accepted, and items have been ordered. If there is a reason a grantee is unable to meet this requirement, the OHSP program coordinator shall be contacted immediately.

3. Equipment purchased through this grant shall be used only for highway safety activities throughout its useful life, whether the project or program continues to be supported by the Federal award.

4. If the equipment is disposed of, or ceases to be used for highway safety activities, and the equipment is determined to have a Current Fair Market Value of \$5,000 or more, the OHSP reserves the right to retain or transfer title to all items. The OHSP may allow the holder of the equipment to retain title of the equipment and reimburse the federal or State share of the fair market value of such equipment. The Current Fair Market Value shall be determined as follows:

a. Appraisal by an independent source with expertise in valuation of similar items is the preferred method of valuation for equipment.

b. For vehicles, Kelly Blue Book values may be used when taking into consideration the physical condition of the vehicle.

c. If a fair market value based on appraisal or Kelly Blue Book values cannot be determined, the value may be based on IRS depreciation schedules. Only straight line depreciation may be used.

5. Equipment with a cost of \$5,000 or more shall be tagged by the grantee for inventory control purposes. In addition, the OHSP Equipment Record System Form with all applicable information completed shall be submitted with the prospective participant's or sub-recipient's reimbursement request. The grantee (and all sub-recipients and contractors) shall complete an equipment inventory form sent to them by the OHSP each year that the value remains \$5,000 or more, and shall make the item available for physical review by the OHSP staff when requested.

6. All equipment purchases with NHTSA funds shall comply with the Buy America Act requirements before costs will be reimbursed. Please refer to section eleven under the heading Grant Management Requirements for specific terms of the Buy America Act.

7. Direct cost allocation principles. If a cost benefits two or more projects or activities in proportions that can be determined without undue effort or cost, the cost must be allocated to the projects based on the proportional benefit. If a cost benefits two or more projects or activities in proportions that cannot be determined because of the interrelationship of the work involved, then, notwithstanding paragraph (c) of this section, the costs may be allocated or transferred to benefitted projects on any reasonable

documented basis. Where the purchase of equipment or other capital asset is specifically authorized under a Federal award, the costs are assignable to the Federal award regardless of the use that may be made of the equipment or other capital asset involved when no longer needed for the purpose for which it was originally required.

COLLECTION OF UNALLOWABLE COSTS

Payments made for costs determined to be unallowable by either the Federal awarding agency, cognizant agency for indirect costs, or pass-through entity, either as direct or indirect costs, must be refunded (including interest) to the Federal Government in accordance with instructions from the Federal agency that determined the costs are unallowable unless Federal statute or regulation directs otherwise. See also Subpart D—Post Federal Award Requirements of this part, and Part 200.300 Statutory and national policy requirements through 200.309 Period of performance.

INDIRECT COSTS

Indirect costs cannot be specified in all situations because of the diverse characteristics and accounting practices of governmental units. Typical examples of indirect costs may include certain state/local central service costs, general administration of the grantee department or agency, accounting and personnel services performed within the grantee department or agency, depreciation or use allowances on buildings and equipment, the costs of operating and maintaining facilities, etc. Indirect costs shall be provided at a negotiated rate mutually acceptable to the grantee and the OHSP.

The indirect cost rate shall be developed in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (also known as the Super Circular) and shall be supported by the grantee's central service cost allocation plan or its equivalent. The indirect cost rate must be approved by the grantee's federal cognizant agency, with written documentation maintained by the grantee. If the grantee or sub-recipients does not have a federal cognizant agency, the OHSP will serve in this capacity.

Examples/Comparison of Direct and Indirect Costs:

Direct Costs	Indirect Costs

Computer software directly related to project; the task cannot be completed without it.	Computer software and supplies (general purpose, such as word processing, spreadsheet programs, diskettes, toner cartridges, printer paper).
Specific supplies purchased to use solely for the grant project.	General office supplies, such as paper, pencils, pens, tablets, staples, files, folders, binders, etc.

Rental of facility for grant activity such as a conference or training.	Rent, utilities, office equipment leases and other administrative overhead.

TERMINATION

The OHSP retains the right to terminate a grant for failure to meet the grant management requirements . When a grant is terminated by the OHSP, the grantee or sub-recipient shall not be eligible to seek grant funding for a period of two years. To obtain a grant after the two-year period, the grantee or sub-recipients will be required to submit written assurance that the identified deficiencies have been corrected. Additionally, the agency may be required to submit monthly financial reports to allow for increased financial monitoring.

HIGHWAY SAFETY GRANT APPLICATION
Statement of the Problem and Background Information
FY 2020

Project Title: Grand Traverse County DUI/Seat Belt Overtime Traffic Enforcement

Applicant: Grand Traverse County Sheriff's Department

The actions drivers take can have devastating consequences. The National Highway Traffic Safety Administration (NHTSA) data indicates driver related factors contribute to 94 percent of crashes.

A review of Michigan traffic crash data from 2013-2017 shows the number of people seriously injured or killed where the crash was coded as alcohol-involved and/or drug-involved was 7,518. The number of people seriously injured or killed in passenger vehicles where the occupant was coded as no belts used, or child restraint not used/used improperly was 3,820. Observed seat belt use is 94.4 percent.

In Grand Traverse County the number of people seriously injured or killed where the crash was coded as alcohol-involved and/or drug-involved was 93. The number of people seriously injured or killed in passenger vehicles where the occupant was coded as no belts used, or child restraint not used/used improperly was 52.

Law enforcement officers will implement an evidence-based, highly visible enforcement program to educate community members about potentially dangerous driving behaviors and enforce traffic laws designed to protect them.

Traffic safety campaigns are most successful when accompanied by public information. The Grand Traverse County Sheriff's Office requests that OHSP develop and assist with distribution of public information materials on our behalf to enhance the enforcement campaigns.

Grand Traverse County Board of Commissioners Position on the Extension of Tax Increment Finance Development Plan 97

WHEREAS, on October 27, 1997, the City of Traverse City Commission adopted a tax increment finance development plan (referred to as “TIF 97”), which provides for a proposed tax capture from certain local units of government to finance various projects in the northern section of downtown Traverse City within the Downtown Development District (“DDA”); and

WHEREAS, the TIF 97 plan stipulates that the last date of capture is December 31, 2027, and thereafter Grand Traverse County and other local units of government that had relinquished significant tax revenue for a 30-year period, would as a result experience a significant increase in revenue to be used to provide improved services within the County; and

WHEREAS, an ad hoc committee composed of DDA board representatives and City Commission members have adopted a resolution recommending that the City Commission extend TIF 97 for an additional eight to thirteen years, beyond the 30 year term agreed to by Grand Traverse County, to finance the construction of a proposed public parking deck on the west end of downtown; and

WHEREAS, if the City Commission accepts the recommendation of the ad hoc committee to extend TIF 97 beyond the initial 30-year term Grand Traverse County will lose unforeseen millions of dollars in tax revenue due to the extension. BE IT FINALLY RESOLVED that the County Clerk shall submit a copy of this resolution to the Traverse City DDA, City Commission and all other local units of governments that would also be negatively impacted by the proposed extension of TIF 97.
