Lauri responded to the question regarding the request by the Milliman actuaries and MDHHS asking for extensive data from every CMHSP and PIHP to be used to develop a fee schedule. There was also a request about the Direct Care Worker increase and we decided to comply with the NMRE to offer .28 per unit if the provider will attest that they would give their employees the increase. Regarding Medicaid spending, the Medicaid capitation flows through the NMRE to the CMHs. We can only keep the local funding and 423 funds. Lauri identified that we submitted the annual submission and the community data set includes the number of individuals covered by Medicaid in our six counties. The number is the lowest it has been in eleven years.

We received a communication from Pine Rest Christian Mental Health Services terminating their Traverse City contract effective May 4 for outpatient, case management and psychiatric services. They have agreed to work with us to ensure there is a smooth transition for our consumers.

Last Board meeting Pam brought up about a radio ad and after discussion with our Human Resources staff it was noted they are using Michigan 4Hire. The company had IT issues in that there was variation of the information displayed based on the web browser that was used. Dave Simpson provided an update on the six Board operated residential homes that are licensed. We are using Michigan Works and Indeed to receive additional applications. We are bringing technology into the homes.

Karl shared that after 25 years of service Becky Vincent will be retiring on July 5. The Board congratulated her and on her next chapter.

8. NORTHERN MICHIGAN REGIONAL ENTITY REPORT:

Minutes for the February 27 meeting were included in the packet. Randy reported that MDHHS will be expanding the Health Home Pilot to the twenty-one counties in our region by January 1, 2020. They have been focusing on Substance Use Disorders and Eric Kurtz has been meeting with courts and providers to make sure we are all heading in the right direction and needs are being met. Mary noted that they are trying to have communities consider the individual's needs when they get out of jail. Sherise reported that she attended a meeting that included Grand Traverse, Leelanau, Missaukee, Wexford and Antrim Counties and were educated about the levels of care. They do not have the providers in the area for the levels of care that are appropriate for the people that get out of jail. Mary noted that this is her first meeting at the NMRE and she has learned a lot that will help the communities understand where the gaps are.

Dear Fellow Commissioner,

While there is no requirement to do so, I wish to avoid any appearance of conflict of interest with my duties as a Grand Traverse County Commissioner. As is public knowledge, I have an ownership interest in a family business located in Grand Traverse County called Roy's General Store. From time to time county departments may make purchases at our store for governmental purposes. I have no direct influence over those purchasing decisions, the amounts are nominal and unrelated to my compensation from the store and do not influence county commission decisions.

Sincerely,

Agenda Item Title:	Department of Environment, Great Lakes, and Energy (EGLE) Administrative Consent Agreement; Duck Lake Control Structure		
Estimated Time:	(in minutes)	Laptop Presentation:	<input type="radio"/> Yes <input checked="" type="radio"/> No

Summary of Request:

When I was Deputy Civil Counsel, I with Co-Counsel Scott Howard filed a petition in the Circuit Court to determine the normal lake level and establish a special assessment district for Duck Lake. On September 25, 2017 Judge Power entered an order setting the lake level and also permitting a special assessment district be established to assess benefitted properties the cost of planned improvements to the Duck Lake Control Structure. After the order was entered, representatives of Department of Environment Quality, now EGLE claimed that they did not receive notice of the Circuit Court proceedings prior to the order being entered on September 25th as required under Part 307 of the Natural Resources and Environmental Protection Act (NREPA), MCL 324.30307 et seq. As set forth in the attached letter from EGLE Representative David Pingel, EGLE does not object to Judge Power's order, but instead EGLE has concerns with the drawn down and refill procedures, which may harm aquatic resources at Duck Lake. Instead of reopening the case in Circuit Court, Mr. Pingel requested that the County execute a proposed Administrative Consent Agreement, which includes conditions that the Drain Commissioner must comply with to address EGLE's concerns. The proposed Agreement is attached, which I, the Drain Commissioner and Mr. Howard have reviewed and request that you authorize the Board Chair to sign on behalf of Grand Traverse County.

Suggested Motion:

Resolved, the Grand Traverse County Board of Commissioners approve the attached Administrative Consent Agreement and authorize the Chair of the Board of Commissioners to sign the Agreement on behalf of the Board of Commissioners.

Dear Mr. Hentschel:

SUBJECT: Compliance Communication
Dam-1952 Duck Lake Control Structure
Green Lake Township T26N, R12W, Section 22, Grand Traverse County

The Department of Environment, Great Lakes, and Energy (EGLE); formerly the Department of Environmental Quality (DEQ); Water Resources Division (WRD), was recently made aware of Circuit Court proceedings undertaken by the Grand Traverse County Board of Commissioners in the Grand Traverse County Circuit Court (15-31213-CE) regarding the inland lake level of Duck Lake located in Section 22 of Green Lake Township, Grand Traverse County. Under the provisions of Part 307, Inland Lake Levels, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL324.30307 *et seq.* (Part 307), the County shall notify EGLE prior to the Circuit Court Hearing to allow EGLE to comment on the petition to set or modify a legal lake level. In this instance, EGLE was not notified in advance of the Circuit Court hearing and subsequently did not have opportunity to comment on the lake level, drawdown, and refill operations. The Circuit Court hearing was held and an Order was issued by the Court dated August 4, 2017.

EGLE has no objections to the lake level or seasonal variations allowed in the order; however, EGLE requires certain conditions on the drawdown and refill procedures to address potential impacts to aquatic resources which would have been brought forward at the Circuit Court hearing. In consideration of the requirements of Part 307, the WRD is willing to address this oversight through an Administrative Consent Agreement (Agreement) which would include the conditions EGLE would have brought forward at the Circuit Court hearing.

Enclosed with this letter, please find three original copies of the proposed Agreement between EGLE, WRD; the Grand Traverse County Board of Commissioners; and the Grand Traverse County Drain Commissioner, to resolve the pending issue involving Part 307. This Agreement has been prepared pursuant to previous discussions between your counsel and Mr. Daniel Bock, Assistant Attorney General, Michigan Department of Attorney General. The enclosed Agreement has also been reviewed by Mr. Bock.

Mr. Robert Hentschel

If the Agreement is acceptable, please sign all three original documents and return them to me at the address below on or before June 14, 2019. Upon receipt of the signed Agreements, I will secure the signatures of the director of the WRD and the Department of Attorney General and return two fully-executed original documents to you for your records. The Agreement becomes effective on the date the Agreement is signed by the director of the WRD.

If you have any questions you may contact Mr. Bock at 517-373-7540 or bockd@michigan.gov; or you may contact me at 517-243-8854; pingeld@michigan.gov; or EGLE, P.O. Box 30458, Lansing, Michigan 48909-7958.

ADMINISTRATIVE CONSENT AGREEMENT

This Administrative Consent Agreement (Agreement) is entered into by and between the Michigan Department of Environment, Great Lakes, and Energy (EGLE), Water Resources Division (WRD), the Grand Traverse County Board of Commissioners, and Grand Traverse County Drain Commissioner (Grand Traverse County) and shall become effective on the date this Agreement is signed by both Grand Traverse County and the WRD (Effective Date). All times for performance of activities under this Agreement shall be calculated from the Effective Date.

RECITALS

Executive Order 2019-06, signed by Governor Gretchen Whitmer on February 20, 2019, renamed the Department of Environmental Quality (DEQ) as EGLE. Effective April 22, 2019, a reference to the DEQ will be deemed to be a reference to EGLE. After April 22, 2019, a reference to the director of the DEQ will be deemed to be a reference to the director of EGLE.

By correspondence dated April 9, 2019, the WRD issued a Compliance Communication (Communication) to Grand Traverse County pursuant to Part 307, Inland Lake Levels, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA), MCL324.30307 *et seq.* (Part 307). The WRD alleged in the Communication that Grand Traverse County failed to notify the WRD of the Circuit Court hearing set to establish the legal lake level of Duck Lake (Failure of Notice) on property located within Green Lake Township T26N, R12W, Section 22 Grand Traverse County, Michigan (Property).

The WRD requested in the Communication that the comments that would have been presented at the Circuit Court hearing be included in the standard operation procedures for drawdown and refilling of the impoundment. EGLE does not object to other aspects of the Circuit Court's Order regarding the established legal lake level of Duck Lake.

Grand Traverse County owned or had control of the Property and was the proper petitioner under Part 307 but failed to notify WRD of the date of the Circuit Court hearing as required under Part 307.

Grand Traverse County and the WRD acknowledge that prior to the Failure of Notice, a dam and impoundment regulated under Part 307 existed on the Property.

The WRD and Grand Traverse County desire to resolve this dispute without the necessity of additional administrative and/or judicial proceedings.

This Agreement identifies the necessary actions to be taken by Grand Traverse County and the WRD and imposes certain conditions upon performance of these actions. Successful completion of the terms of this Agreement will, in the opinion of the WRD, meet the statutory provisions of Part 307 and thereby resolve the allegations set forth in the Communication.

NOW, THEREFORE, in considerations of the mutual covenants contained herein, the parties agree as follows:

COMPLIANCE AND IMPLEMENTATION SCHEDULE

1. Grand Traverse County shall perform drawdown operations and procedures which incorporate the following conditions, when refilling the impoundment, the dam operator shall maintain a minimum discharge to the downstream channel at least equal the monthly 95 percent exceedance flow. Monthly 95 percent exceedance flows for the Betsie River at the Duck Lake Level Control Structure are as follows:

Month:	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Flow (cfs):	22	23	25	29	25	24	24	21	22	22	24	24

2. The dam operator shall not begin refilling the impoundment prior to April 15 each year and shall not begin drawdown of the impoundment until October 15 each year. The dam operator shall perform temperature monitoring immediately downstream of the dam each year from April 15 to October 15. The Michigan Department of Natural Resources (DNR),

Fisheries Division, shall provide a temperature monitor to the County Drain Commissioner. The County Drain Commissioner shall be responsible for installation of the monitor, data transfer, and removal of the monitor and return to the DNR, Fisheries Division. The County Drain Commissioner shall check the monitor quarterly for as long as monitoring is required and shall download the monitor's data as part of each quarterly check. The County Drain Commissioner shall compile this data once per year for as long as monitoring is required and report it to the DNR, Fisheries Division, Traverse City fisheries biologist. This monitoring shall continue for a minimum of three years. EGLE shall have the option to extend the monitoring requirement by two years if it determines additional monitoring is necessary based on the data derived from the monitoring. If EGLE exercises this option, it shall notify the County Drain Commissioner of that decision prior to the expiration of the initial three-year monitoring period.

3. The dam operator shall obtain any permits required under Michigan law.
4. All reporting required under this agreement shall be provided to EGLE and the DNR at the address provided in Paragraph 5 of this Agreement.
5. All notices, applications, reports, and any other submittals, required to be provided by Grand Traverse County to EGLE and the DNR pursuant to this Agreement shall be addressed, unless otherwise indicated, to:

Ms. Heather Hettinger

Fisheries Division

GENERAL PROVISIONS

6. **PROPERTY ACCESS:** WRD and Fisheries Division staff shall have access to the Property to inspect and determine compliance with this Agreement. The WRD shall

provide a minimum of 24-hour advance notice to Grand Traverse County prior to inspection of the Property.

7. **RESOLUTION OF WRD VIOLATION NOTICE:** As part of the successful completion of the terms of this Agreement, the WRD shall deem resolved the April 9, 2019, Notice and close WRD complaint file.
8. **OTHER PERMIT REQUIREMENTS:** With respect to the Property, Grand Traverse County shall not conduct any activity within wetlands, watercourses or structures regulated under Part 303, Part 301, and Part 307 except as provided by this Agreement, or as authorized by separate permit issued by the WRD. This Agreement does not obviate the need to acquire additional state, local, or federal permits as may be required by law.
9. **FORCE MAJEURE:** Grand Traverse County shall perform the requirements of this Agreement within the time limits established herein, unless performance is prevented or delayed by events, which constitute a "Force Majeure" event. For the purpose of this Agreement, "Force Majeure" means an occurrence or nonoccurrence arising from causes not foreseeable, beyond the control of, and without the fault of, Grand Traverse County, such as an "Act of God," untimely review of permit applications or submissions by the WRD or other applicable authority; and acts or omissions of third parties that could not have been avoided or overcome by Grand Traverse County's due diligence, and that delay the performance of an obligation under this Agreement. FY00 General Fund

*Not adjusted for inflation

Reforming Michigan's System of Financing Local Government

- In 2017, 66 of 83 counties relied on property taxes for at least 55 percent of GF revenue
- Proposal A prevents revenue recovery
- **MAC supports:**
 - policies that create stable and sufficiently funded revenue streams for counties by requiring state to reimburse counties for revenues lost to exemptions
 - the creation of a secure and dedicated county revenue sharing trust fund, mandated reimbursements for increases in services, flexibility in local revenue options and cost-sharing models
 - elimination of millage reduction requirement when revenues exceed inflation

Ensuring State Funding for Changes to Juvenile Justice

- Michigan remains one of the last states to prosecute 17-year-olds as adults
- While MAC supports the concept of further accessibility to rehabilitation and community-based programs for 17-year-olds, moving them to the juvenile system will add significant costs
- **MAC supports full state funding for any mandate incorporating 17-year-olds in the juvenile justice system**

Reforming Tax Capture Districts

- Counties are at whim of tax-increment financing plans authored by ~ 1,000 tax capture districts
- Capture of special millages, approved by voters to ensure funding of specific priorities, should be prevented
- **MAC supports legislation**
 - that ensures county tax dollars are not captured without a county's approval
 - to reset baseline property values after a certain number of years of tax capture, thereby allowing counties to receive tax revenue increases they have been denied for decades
 - to require county approval of any extension of a capture or change in scope of a district capturing county revenue

Establishing Stable & Comprehensive Funding for Trial Courts

- Operation of Michigan's local courts = single largest unfunded mandate on counties
- 2014 Cunningham decision highlighted uncertain funding foundation for courts
- Stopgap measures since 2014 have restored fee authority to judges and established commission to identify comprehensive solution
- **MAC supports continuance of the fee system until the commission can identify a long-term funding solution that is verified by data and creates efficiencies at the local and state levels**

Enhancing Programs to Divert Offenders from County Jails

- Data needed to verify and understand anecdotal evidence from counties where jail populations and costs continue to rise
- MAC encouraged by PEW Charitable Trusts' decision to evaluate Michigan's efforts
- **MAC supports coordinated effort with PEW and the state to fully understand Michigan's jail system; and supports cost-saving efforts, such as successful jail diversion programs, without creating onerous, one-size-fits-all state mandates**

Breaking Lansing Habit of Funding Its Tax Cuts with Local Dollars

- In last decade, legislators have produced a torrent of bills to exempt specific groups or activities from the property taxes local governments use to fund local services
- State legislators should fund their tax-cutting preferences with state, not local, resources
- **MAC supports a conversion of the existing property tax exemption for veterans and surviving spouses to a credit from the state income tax**
- **MAC supports a moratorium on exemptions to real and personal property taxes**

Reforming the Michigan Tax Tribunal

- Since 2013, the Tax Tribunal has pursued policies that have reduced local revenues by more than \$100 million by incorrectly lowering values of “Big Box” retail locations
- A 2016 decision by the Michigan Court of Appeals detailed why these “Dark Stores” appeals do not conform to Michigan law
- **MAC continues to support legislation that**
 - ensures all three methods of property valuation (cost, sales, income) are considered by the tribunal
 - prevents the consideration of deed-restricted properties as fair “comparables”
 - enhances the training and qualifications of tribunal members

Investing in & Properly Managing Michigan's Infrastructure

- Counties play a central role in our states most critical infrastructure needs, from building and maintaining roads and bridges, to the preservation of drainage and ensuring safety at county beaches
- **MAC supports increased funding and efforts to address the PFAS contamination crisis of our waters**
- **MAC continues to support legislation to adequately fund infrastructure upgrades, strikes a balance between efficient use of existing revenue and new revenue to meet county infrastructure needs and develops better statewide asset management tools**

MAC POLICY COMMITTEES

Meeting Date:	6/5/2019		
Department:	Facilities, Finance, and Human Resources	Submitted By:	Dean Bott

Agenda Item Title:	Grounds Maintenance FTE for Facilities Management		
Estimated Time:	5 minutes (in minutes)	Laptop Presentation:	<input checked="" type="radio"/> Yes <input type="radio"/> No

Summary of Request:

Parks and Recreation and Facilities have determined there is a significant need to increase the .5 FTE grounds maintenance worker in Facilities to a full (1.0) FTE. This position is currently a .5 FTE in the approved Staffing Plan. This position is used primarily to support year round activities including Civic Center ballfield maintenance and preparation, general groundskeeping at various county facilities and buildings, Spring and Fall clean up activities, snow removal and shoveling at county facilities as well as other duties and tasks as needed and assigned by the facilities manager. The Parks and Recreation Fund has personnel funds budgeted in their 2019 budget that will be better utilized by the facilities grounds maintenance worker skill set. Parks and Recreation would like to move some of their personnel funds to Facilities to help with the up keep of the ball fields and the parks. The departments have determined the budgeted personnel funds would be more effectively used by increasing the facilities grounds maintenance worker from a .5 to 1.0 FTE. The cost to increase this position to a full FTE would be \$18,200 based on the funds currently budgeted in 2019 for this FTE.

Suggested Motion:

Approve Staffing Plan Increase of .5 FTE for Facilities Grounds Maintenance Worker with funding covered by personnel funds in the Parks Fund Budget. This would be a reduction in the Parks and Recreation Fund appropriation that would cover the increase in FTE costs for 2019 and subsequent years.

THOMAS J. BENSLEY, SHERIFF

Grand Traverse County Sheriff's Office Memorandum

851 Woodmere Avenue
Traverse City, Michigan, 49686

To: Grand Traverse County Board of Commissioners
From: Lieutenant Ed Lassa
RE: Resident Banking Software/Commissary Services Contract
Date: May 13, 2019

INFORMATION:

The Grand Traverse County Sheriff's Office has recently received proposals from three (3) vendors to supply the Grand Traverse County jail with **Resident Banking Software and Commissary Services** for a period of four (4) years. The current contract with Keefe Commissary Network, LLC expired October 19, 2018. Keefe has provided these services to Grand Traverse County for the past three and one half years. Prior to Keefe, Swanson Services Corporation provided these services for six (6) years.

The **Resident Banking Software** provides the jail the ability to accurately track the deposits, expenditures and applications of all inmate monies while incarcerated. Twenty-five percent of any deposits to an inmate's account are automatically withdrawn and applied to any outstanding debt the inmate has with our department (Booking Fees, Housing Fees, Medical Reimbursements, etc.). Upon release from jail, any remaining funds in the inmate's account are applied to any outstanding debt. If all debts are paid, the software program clears any remaining fund balance for the inmate and issues a debit card to the inmate in the amount of the remaining funds.

The **Commissary Services** portion of the service offers commissary order availability to the inmates once a week for additional personal items such as specialized hygiene items, snack foods, stationery items, etc. Family members and friends are also able to go online and order additional items for the inmates.

There is **no charge** to Grand Traverse County for these services and the profit which is realized from the commission on the sales of commissary items to the inmates are tracked in a special account and can only be used for the direct benefit of the inmates (purchase of indigent supplies, wrist I.D. bands, cable television fees, replacement televisions, etc.).

VENDOR SOLICITATION:

We mailed RFP's (Request for Proposals) to several vendors as well as advertised the request in the Traverse City Record-Eagle newspaper on two (2) days (Saturday, March 9th and Sunday, March 10th), as per county policy.

Vendors who received RFP invites were:

Stellar Services, LLC
301 Business Park Circle
Stoughton, WI 53589

Canteen Services (TIGGS)
905 N. Church St.
Tekonsha, MI 49092

Keefe Commissary Network, LLC
21848 Commerce Parkway
Strongsville, OH 44149-5559

Aramark Correctional Services
2300 Warrenville Road
Downers Grove, Illinois 60515

These vendors represent the leading Commissary and Resident Banking Software vendors in the industry. Only these three vendors responded to the RFP with written proposals. No additional vendors responded as a result of the advertisement in the newspaper.

MANDATORY PRE-PROPOSAL CONFERENCE:

On Thursday, March 21, 2019, a mandatory "Pre-Proposal Conference" was held at the jail for any interested vendors. The conference offered prospective vendors the opportunity to review the Request for Proposal and ask any clarifying questions. They were also given the opportunity to demonstrate their banking software

Vendors who attended the mandatory pre-proposal conference were:

1. **Stellar Services**
2. **Canteen Services (TIGGS)**
3. **Keefe Commissary Network, LLC**

EVALUATION OF PROPOSALS:

An evaluation team, consisting of personnel from the jail who regularly use the banking software, jail administration, and the County Finance Department, who are familiar with and regularly use the Resident Banking Software Program to maintain inmate financial records, performed an in-depth analysis of each proposal.

The team separated the proposals into two categories; the Commissary operation (including the items being sold to the inmates, the cost, the quality, and procedures to reconcile incorrect orders) and the Resident Banking Software (to include financial records, reconciliation procedures, reclamation ability, security, reporting, and ease of operation).

The team also looked at the history of each vendor and their ability to perform the services we are seeking. The team contacted several references to determine actual performance abilities of each vendor.

The team also looked at the vendors' response to the technological requirements of the proposal. The vendors are required to provide a lobby kiosk to assist the public with the ability to deposit money in the inmates' accounts 24 hours a day. The vendors are also required to provide the jail with a Booking kiosk which will accept money from newly admitted inmates. This will negate the need for officers to handle any money; the inmates will put their money directly into the kiosk.

Commissary Services:

In comparing the Commissary Services of each vendor, it was determined by the evaluation team that the items being sold to the inmates were comparably pretty much the same in terms of diversity, cost, packaging and quality.

There was a slight difference in how the vendors handled discrepancies in the individual orders, but any of the resolutions were acceptable.

In all cases, the commissary product would be shipped to the jail already pre-packaged for each inmate.

Resident Banking Software:

All three (3) vendors offer software packages which would work in the Grand Traverse County Jail.

All three (3) vendors offered lobby kiosks and internet options for family/friends to make deposits to the inmates' accounts. This greatly enhances the possibility of collection on debts owed by the inmates for housing, booking fees, medical reimbursements, etc. by allowing family/friends the ability to use credit cards and debit cards.

The Evaluation Team cited significant issues with our current Resident Banking Software provider:

- When we initiated our contract we were promised more of a user friendly version of their software to read debt transactions and that software has yet to be installed after many attempts/contacts with Keefe to update the software.
- Their customer service system is very cumbersome and time consuming. We were promised our own team of support technicians, however, we have not seen consistency in this so each time a support request is made it seems the technician isn't as familiar with our facility.
- The Intake Kiosk had to be replaced within the first year of getting it, however the replacement is giving us more problems than the original kiosk and is continually out of service. On-site service technicians are third-party vendors who are not familiar with the equipment which results in staff members making many of the repairs themselves.

These issues listed above reflect just a few of our local concerns. The evaluation team contacted many of the references supplied by the vendors in their proposals for an outside look at the successes/failures and reliability of the Resident Banking systems proposed by each vendor.

Summary of Request:

As you know, the Board of Commissioners identified streamlining permitting at the County's Construction Codes Office as a key goal to be accomplished in 2019/2020. Part of achieving this goal is the development of an online permitting process that the County's I.T. Department is creating with Tyler Technologies. In order to not only meet the Board's identified goal and properly develop the right online permitting process, Administration would like to audit this department. We have met with Richard Carlisle with Carlisle/Wortman Associates ("C.W.A.") who is highly qualified to conduct such an audit. I have worked with Mr. Carlisle and the staff at C.W.A. when I served as a City Attorney for the Cities of Troy and Allen Park and so I know of his skills and his expertise. He and his firm focuses on a unique service of providing innovative recommendations for improving all aspects of the community development permitting process including zoning, planning and construction codes. His proposal dated April 18, 2019, is attached for your review and consideration. Please note that his proposal is for an amount not to exceed \$15,000, which would be paid from the Construction Codes Enterprise Fund, not the General Fund. Administration is recommending that the Board of Commissioners authorize the County Administrator to engage Richard Carlisle and Carlisle Wortman Associates for the services in the amount as stated in the April 18th proposal.

Suggested Motion:

Authorize entering into an agreement with Richard Carlisle and Carlisle Wortman Associates to provide an audit of the building codes department as identified in the attached proposal for the Construction Code Office in an amount not to exceed \$15,000, with funding coming from the Construction Code Enterprise Fund.

Gentlemen:

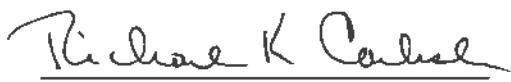

It was great speaking with you this week. I would be very interested in helping you evaluate the full range of community development services and offer recommendations for improvement.

I know that Chris is most familiar with our involvement in the reorganization of community development functions in the City of Troy. However, our work has also included assisting communities such as Ann Arbor, Plymouth, Northville, Riverview, Allen Park, Woodhaven, Howell and numerous Townships improve the efficiency and professionalism in various aspects of their building and community development department functions.

I have prepared a Building Department Audit Work Plan. This is a typical process we have followed which has proven to be very successful. We emphasize interviewing existing staff and find they have very useful suggestions. I would also suggest involving key stakeholders (i.e. home builders, Traverse City, Townships, etc.)

Thank you for the opportunity. We can begin this work upon your authorization.

Yours Truly,

Grand Traverse County Building Department Services Audit Work Plan

Purpose: The purpose of the building services audit is to assist Code Enforcement Services (CES) in the preparation of options available to the County in providing and improving upon Building Department services.

Methodology: CWA/CES believes it is essential to involve leadership, staff and stakeholders in the evaluation. We will need the assistance of County Administration to identify the appropriate sources to interview. Both one-on-one and group interviews will be conducted.

A second major component is to evaluate sources of revenue. CWA/CES will review fees being charged to determine whether they are on par with other jurisdictions. We will also evaluate revenue trends based on activity.

Finally, service delivery will be evaluated. In the course of this evaluation we will determine if the County is delivering the service efficiently and within an acceptable time frame. We will also evaluate whether technology is being used to the maximum advantage to improve service delivery.

Deliverables: A comprehensive management plan which addresses the following:

- Description and evaluation of services currently performed, identifying services in need of improvement, services that need to be done in partnership with others and services that should be eliminated
- Department organizational chart
- Staffing plan including training needs
- Technology plan
- Implementation plan and schedule

A full audit will help us provide a report that will better address the actual needs of the County. The following tasks will be completed as part of the audit:

Task 1.0 Audit of Building Department

Craig Strong, a Certified Building Official, Larry Pickel, Lead Plan Reviewer, and Richard K. Carlisle, AICP, will visit and interview Building Department Staff for the same purpose as noted above.

Tasks will include:

- A. Meet with members of County Staff
- B. Review procedures and policies of the Building Department
- C. Review staffing and time allocation
- D. Perform field study of the County
- E. Interview key stakeholders (Builders Association, Traverse City, Townships, et.al.)
- F. Review integration of new permit software with current operations and improved service delivery

Task 2.0 Findings of Audit

CES will present an audit summary to the County administration. The summary will include information on the operation of the Building Department, an overview of State Construction Code requirements, use of technology and appropriate fees.

Task 3.0 Draft Report

CES will prepare a draft report of the findings and provide initial recommendations on improving service, if needed, and how CES can assist the county with implementation. The report will include:

- A. A summary of the observations of the audit
- B. A full review of the current protocol and procedures in the County
- C. A prioritization of critical areas needing attention
- D. Recommendations for improvement in management, field operations and use of technology.
- E. Implementation plan

Task 4.0 Presentation of Final Report

Based on comments received from the County administration and key decision makers on the draft document, CES will prepare a final report. If requested, CES will also attend a County Board of Commissioners meeting to formally present the Final Report and recommendations found therein.

Task 5.0 Implementation

CWA/CES will assist the County Administration with implementing recommendations. Implementation assistance may include, but not be limited to:

- A. Staff training
- B. Establish a monthly reporting format
- C. Assist with fee schedule revisions, if required
- D. Provide procedural checklists
- E. Provide and monitor process for closing open permits

Cost: While the full scope may be subject to further discussion with County Administration, we recommend a budget not to exceed \$15,000. The detail is as follows:

Personnel	Hours	Rate/hr	Budget
Principal-in-Charge (RKC)	25	\$125	\$3,125
Lead Investigator (CS)	45	\$120	\$5,400
Support Investigator (LP)	45	\$110	\$4,950
Support Staff	10	\$60	\$600
Expense (travel, meals, etc.)			\$1,000
Amount Not to Exceed			\$15,000

A summary of the written statement of the evaluations is attached and both the Administrator and Commissioners will have an opportunity to discuss the responses at today's meeting.

Grand Traverse County

General Responsibility: The County Administrator is the County's Chief Executive Officer and reports to the County's elected governing board. This position is responsible for the overall management and administration of all County services and functions. This position has direct overall responsibility for all County employees under non-elect officials and indirect responsibility for County employees under elected officials. Additionally, the County Administrator is the primary administrator of all County policies and programs approved by the County Board of Commissioners.

SECTION A: RELATIONS WITH BOARD OF COMMISSIONERS

	Needs Improvement	Meets Expectations	Exceeds Expectations
Communicates necessary information openly and honestly in a timely and organized fashion.	1	5	
Establishes and maintains positive and effective working relationships with each member of the Board.	1	5	
Conforms to Board policies and directives.	2	4	
Demonstrates an understanding of differences between the administrative role of Administrator and the policy-making role of the Board.	2	4	
Synthesizes information and frames issues and questions in a manner for the Board to make appropriate decisions.	1	5	

Comments, Section A: Having worked with and observed several administrators in Grand Traverse County and elsewhere, Mr. Alger has demonstrated an unsurpassed ability to empathize with a commissioners perspective while remaining neutral on controversial policy decisions. Nate has helped me to work better with other commissioners by reminding me of their different positions on issues.

Comments, Section A: I personally find Nate to be very approachable and ready to discuss any topic and is very accepting of my input. After working with Nate for the past 4 mounts, through some rocky issues, I remain confident that the decision to appoint Nate as the county administrator will serve the county well now and well into the future. I truly enjoy working with Nate and his staff.

Comments, Section A:

Being a new commissioner, I have not experienced working with other Administrators. I feel from my short time on the BOC that Administrator Alger is doing a great job as Administrator. Administrator Alger seems to be able to answer all my questions. He has helped me look at things from different perspectives. Administrator Alger demonstrates his wanting to move the county forward. Administrator Alger truly cares about the county, the county employees and the future of the county. I look forward to working with Administrator Alger and the rest of administration in the future.

Comments, Section A: _Nate maintains a very accessible office. I have been able to have very open conversations on a variety of topics.

Comments, Section A:

The orientation in Gaylord and the 2-day facilities/departments tour were excellent ideas. Time well spent. I appreciate the Administrator's effort in making those happen and in making the experience so productive.

Comments, Section A:

I appreciate Mr. Alger's open-door policy for commissioners like myself who stop in without an appointment and he (most often) makes time to **listen**.

SECTION B: STRATEGIC PLANNING

	Needs Improvement	Meets Expectations	Exceeds Expectations
Provides leadership, guidance and support to the Board and organization by assessing current and future strengths and weaknesses to develop, communicate and implement a shared strategy which is in alignment with the Boards goals.		2	4

Comments, Section B:

None.

Comments, Section B: Having years of experience within our organization gives Nate a solid understanding of where we have been & where we are headed.

Comments, Section B:

While we've not yet had a goal setting session, Administrative Alger is goal oriented. He is aware and mindful of strategic strengths, weaknesses, opportunities, and threats facing Grand Traverse County.

Comments, Section B: Although Nate has only been in the position of Administrator for a relatively short period of time, he has demonstrated a broad knowledge of the overall working of the organization. I am looking forward to the strategic planning session.

Comments, Section B:

Administrator Alger seems to be very goal oriented. I believe once we have our strategic planning / goal setting session we all will have a clearer vision of Administrator Alger and of the BOC's

Comments, Section B:

It's really rather early to evaluate this, but I am confident the upcoming planning process will go well. Up to now, he has been helpful in navigating several thorny issues including library board appointments and shoring up the pension.

SECTION C: LEADERSHIP and RELATIONS WITH STAFF

	Needs Improvement	Meets Expectations	Exceeds Expectations
Models behaviors and attitudes which promote individual responsibility and professional excellence and creative initiative.	2	4

Delivers on commitments.	2	4	
Shares knowledge with others.	2	4	
Demonstrates an ability to foresee problems and utilize preventive problem solving strategies.	2	4	

Comments, Section C:

I have little direct knowledge of his relations with staff outside of how I see him relate to employees at the County meetings, but from what I've seen there, and staff's response to him on our county tour, he appears to command the respect of his staff.

Comments, Section C: Nate always conveys a demeanor of a true professional.

Comments, Section C: Based on the interactions I have observed between Nate and staff it is my sense that he inspires teamwork and is willing to delegate the necessary authority to staff in order for them to accomplish the task at hand. Nate appears to interact with staff by providing them direction, soliciting input and allowing them do their job and giving credit where credit is due. I had high expectations in Nate's managerial and interpersonal skills and he has met those expectations so it would be difficult to exceed my expectations.

Comments, Section C:

Department heads seem to enjoy working with Administrator Alger. Nate uses a shared leadership style that involves his subordinates in the decision making process and increases their personal buy-in to projects.

Comments, Section C:

Department heads / county employees seem to enjoy working with Administrator Alger. Administrator Alger uses a leadership style that county heads / county employees seem to like. I've talked with several dept heads and employees and all have had nothing but praises in Administrator Alger and his leadership.

Comments, Section C:.

Nate somehow finds time to interact with department heads and employees. I have received no negative feedback from any department head or employee regarding Nate.

SECTION D: FINANCIAL MANAGEMENT

	Needs Improvement	Meets Expectations	Exceeds Expectations
Oversees with Finance the development of and works with the Board to finalize the annual organizational budget.	2 (3-NA)	2	
Oversees the preparation of regular reports to the Board regarding the financial condition and fiscal operation of the organization.	4	3	
Oversees the development and implementation of the organization's financial strategies.	2	4	
Ensures that the organization is operated in accordance with Generally Accepted Accounting Principles and procedures; takes actions to improve the organization's business practices based on recommendations from an independent auditor.	1 (3-NA)	2	

Comments, Section D:

Administrator's financial management in concert with the Finance Director – excellent as evidenced by the fact that the County approved a balanced budget and came in with a 7 figure surplus at the end of the year. Managed the County within our means and only surprised to the positive.

Comments, Section D:

Nate keeps the board informed of the county's financial status.

Comments, Section D: The current board has not been in place through a budget cycle with Nate so it is difficult to respond to these questions but I am confident, based on conversations I have had with Nate, that he will do an outstanding job.

Comments, Section D:

Administrator Alger seems to have a very good understanding of government accounting practices. He is aware of the county's finances. Administrator Alger seems to work well with the finance dept (and all depts).

Comments, Section D:

Nate has a solid understanding of government accounting practices. He is consistently aware of the counties financial status and appropriately delegates to qualified staff.

Comments, Section D: ____Open dialog with Departments & Commissioners is crucial to our budget process. However we have to realize that we cannot do everything & must prioritize the best use of our resources.

Additional Comments:

Being part of the Administrator interview and hiring process I cast my yes vote with "high expectations" for Mr. Alger so for me to give a mark of exceeds expectations Nate wood be short of walking on water. The county administration gained a high level of ethics and integrity with the hiring of Nate Alger.

Additional Comments: Nate is fully engaged in supporting the boards number one priority of addressing the counties unfunded pension liability and attaining 100% funding by the 2034 target date. There is a fine line that an administrator has to walk between motivating and supporting the county employees and those that pay the bills, the tax payers, whom the county employees service.

Additional Comments: I'm glad to know Mr. Alger and the atmosphere in the building has been much improved in his tenure.
