Members discussed more units available to more clients. Green stated that staff has discussed an up-to a certain number change for the next PERS (Personal Emergency Response System) Contract. Suggestion to start with 50 units and then increase as needed. Rokos asked about the cost, Jill relayed the cost would be approximately \$25,000, per year, for 50 units, and staff would change the Recommendation for presentation to the BOC.

MEMORANDUM

TO: Tom Menzel, Administrator
Jennifer DeHaan, Deputy Administrator

FROM: Laura Green, Deputy Director

RE: Commission on Aging Update

CC: Rodetta Harrand, COA Chairwoman
Wendy Trute, Health Officer
Jodi Kelly, Deputy Health Officer
Paula Sagala, Human Resources Consultant
Aimee Carroll, Human Resources
Jody Lundquist, Finance Director

The Memorandum dated August 24, 2016, asked the following questions:

What are the requirements and best-practices for the oversight and supervision of the CNA staff? How is this currently being achieved?

The In-Home Services CNA Team has an On-Call Nurse available during business hours for any issues or questions that need to be addressed.

The COA has a signed Nursing Administration Agreement contract with the Pavilions for an RN who trains their CNAs to conduct Supervisory visits in our client's home

The Licensed Practical Nurse on Staff (LPN) who does our Client's Footcare is working with our one client who has a medication management program utilizing the MedMinder.

The one legal mandatory certification requirement a CNA has to meet - occurs when a CNA is due for re-certification. Under the requirements of the Michigan Nurse Aide Registry, a CNA must have worked for pay under the supervision of a licensed registered nurse for at least eight consecutive hours within the immediate 24-month period prior to the current registry document date. Prometric information is attached.

What are the requirements and best practices for the oversight and supervision of the MedMinder program? How are these currently being achieved? What policies and procedures have been established to ensure compliance and reduce the county's liability?

The policies and procedures pertaining to the MedMinder program are attached as a separate document for your review. We are not putting the medications in the machine. We are only providing the machine at a discounted rate to our clients based on the sliding fee scale.

A certified technician from Guardian installs the machine and sets everything up with the client and their family in the client's home. This includes programming on the company website for the unit to function properly.

This is the same specialist who has installed the PERS units from Guardians through our program for years. The MedMinder program has not started yet. Other than the single Pilot unit, no other units are in the field through the COA.

The PERS unit through Guardian has been offered since 1991 without incident. The contract was approved by County legal counsel prior to being signed.

The County insurance policies cover the Commission on Aging in regards to any liability issues for all of our programs.

- 1) We checked the inventory August 16, 2016 and the list is attached.
This is the current inventory as of August 26, 2016.
- 2) The inventory was confirmed in July on the 19th, 2016.
The list is also attached.
- 3) How was the status of the equipment loaned out from the COA Loan Closet verified?

New equipment comes straight out of the boxes and we assemble ourselves.

In checking our records, since January of 2016, not one individual who donated a piece of medical equipment requested a donation receipt for tax purposes.

We have not received one client complaint regarding the changes with the loan closet. In fact quite the opposite, the callers have been very pleased when we have referred them to other locations where they can receive the equipment for free.

What accounts were prior revenues deposited into during 2016 from the scrapping of equipment in 2016. Please provide documentation

Attached is one deposit from Rifkin for scrap 1/8/16 for \$16.20

There is one Fixed Asset Disposal Request for the 2003 GMC ¾ Truck with Plow signed by Tom Menzel

The following policies are attached none of which the COA staff violated in donating the used medical items to the Church. Each item's value is below the monetary threshold stated in each policy. This verification was provided by the independent Vendor Airway Oxygen.

- a. County Fixed Asset Disposal Policy
- b. Fixed Asset Capitalization Policy
- c. COA Asset Disposal Policy
- d. COA Inventory Policy
- e. COA Donations Policy
- f. COA Information & Assistance Resources Policy

County Administration

TO: Commission on Aging Board Members
Laura Green, Deputy Director

FROM: Tom Menzel, Administrator *Tom Menzel*
Jennifer DeHaan, Deputy Administrator

DATE: August 24, 2016

SUBJECT: Commission on Aging Update

Last week, County Administration met with the Deputy Director to discuss the formation of the Quality Assessment Panel (QAP) and a memo was distributed to COA Board Members explaining the rationale for its formation. During that week, County Administrator, Tom Menzel, also discussed the formation of the QAP during the August COA Board Meeting.

As a result of these communications and subsequent questions and concerns communicated by the Deputy Director, County Administration wanted to ensure that the COA Board understood the rationale for the formation of this panel.

The creation of the Quality Assessment Panel is to ensure that the COA is operating utilizing best-practices that will ensure the highest-quality services to the clients of COA.

This effort is similar to the other efforts being undertaken at the County to review operations and draws upon the expertise and knowledge that is available within the County's resources. Specifically, the formation of this group is intended to address a number of issues that have been brought up over the past several months which include:

- Reorganization plan was not completed as requested in November 2015
- Staff lobbying COA Board members for salary increases
- Recommendation to spin-off COA to an independent Authority
- Recommendation to relocate the COA to the Public Services building
- Review the licensure and supervision process of CNA staff to ensure compliance with all laws, regulations, and best-practices.
- Concerns over supervision of the MedMinder program and a request from County Administration for the COA Policies and Procedures for the program, which have not been received.

In light of the above stated issues, and the additional issue of the closure of the Loan Closet and the potential disposal of County Property, which was identified during the COA August Board meeting, County Administration continues to affirm that the creation of the Quality Assessment Panel is necessary and essential. This panel will provide an evaluation of the department that will ensure the highest quality services to the COA Clients.

As stated in the August 15th memo, the QAP is intended to:

- Complete the COA reorganization plan as directed by the County Administrator in 2015.
- Review the licensure and supervision process for existing Certified Nursing Aides and ensure compliance with all laws, regulations, and other standards.
- Evaluate the feasibility of "spinning-off" the COA as its own entity and/or relocating the COA to the Department of Public Works building; both efforts were suggested by the Deputy Director earlier this year.
- Review opportunities to partner with existing public health services provided by the Health Department to provide a continuum of care for individuals being served by the COA.
- Review issues of high-turnover at the COA.
- Review ways in which the COA can enhance services by reducing any back-log that exists.
- Review the existing/proposed job description for the Nursing Supervisor to ensure that it is comparable to other similar positions within the organization.

In addition, County Administration is requesting the following information regarding management and supervision of the CNA staff and the MedMinder program as well as the closure of the COA Loan Closet and the disposal of County property. While County Administration received a memo from the Deputy Director on August 23rd in regards to the COA Loan Closet, the response did not affirm that County policies were followed or provide any proof that the County assets were not destroyed.

As a result, the following information is being requested from the Deputy Director in order to assess compliance with the requirements and best practices for oversight and supervision of the CNA's, oversight and supervision of the MedMinder Program, and management and disposal of county assets?

- What are the requirements and best-practices for the oversight and supervision of the CNA staff? How is this currently being achieved?
- What are the requirements and best-practices for the oversight and supervision of the MedMinder program? How are these currently being achieved? What policies and procedures have been established to ensure compliance and reduce the County's potential liability?
- When was the last inventory completed of the COA Loan Closet? Please provide documentation.
- What is the current inventory of the COA Loan Closet? Please provide documentation.
- What equipment was loaned out of the COA Loan Closet? Please provide documentation.
- How was the status of the equipment loaned out from the COA Loan Closet verified? Please provide documentation.

- What accounts were prior revenues deposited into during 2016 from the "scrapping" of equipment from the COA Loan Closet in 2016? Please provide documentation.

A response to the above stated questions is requested to be provided by the Deputy Director no later than 8/26/2016.

The purpose of this communication is to ensure that the COA Board members understand the intent of the creation of the Quality Assessment Panel and that it is necessary and essential to ensuring that the clients of the COA are receiving the best care available under the proper supervision and management.

Should you have any questions or wish to discuss further, please contact us.

County Fixed Asset Disposal Policy

WHEREAS, The County Financial Task Force has received recommendations from the Director of Finance, and has reviewed these recommendations; and,

PROCEDURE NAME: **MedMinder New Service Requests**

STAFF: Program Supervisor

DATE: August 1, 2016

REVISED DATE:

PROCEDURE DESCRIPTION:

Currently the GTCOA will do the MedMinder program through Guardian Medical Monitoring. Arrangements need to be made for clients on our waiting list for MedMinder to receive a MedMinder unit. There are spreadsheets created to aid with this process located in k:\commage\waitlist file and the k:\commage\MedMinder – spreadsheets. Client information can be cut and pasted from one to the other.

1. Open the Wait List Master spreadsheet located in Commage\Waiting Lists\Master – choose the worksheet MedMinder.
2. Clients are removed from the wait list based on the length that they have stayed on. Longest to shortest.
3. Determine which client/clients will be next to receive a MedMinder unit. Call them to confirm they are still interested in receiving a MedMiner unit.
4. Cut and paste their information from the wait list to the MedMiner spreadsheet page “Request Form” – remove any extra information in which the contractor will not need.
5. Copy the information from the MedMinder spreadsheet into an email to the contacts at Guardian requesting new service for them.
6. After the email requesting new service is sent to Guardian, move this information to the “Requests Sent to Guardian” page
7. Guardian will send the Program Supervisor a daily activation sheet that tells which clients have had the MedMinder unit installed.
8. Once installed, transfer their information to the MedMinder spreadsheet page “MASTER INSTALLTION LIST” and note the date the unit was installed.
9. Update the client database with the install date. If he/she is a new client, see new client procedure (K:\COMMAGE\PROCEDURES\OFFICE\NEW CLIENT).

COMMISSION ON AGING
BOARD ORIENTATION**

POLICY: PROGRAM ELIGIBILITY CRITERIA

DATE: November 1, 1993

REVISED: January 4, 2013, June 26, 2013

POLICY DESCRIPTION:

1. To be eligible for Commission on Aging services, a person must meet the following criteria:
 - A. 60 years of age or older
 - B. A resident of Grand Traverse County
 - C. Clients must be willing to pay for services (charges based on a sliding fee scale).
2. Home health care and foot care clients must be homebound as defined by Medicare.
3. Respite clients must have a diagnosis that prevents them from being left home alone (e.g. Alzheimer's Disease).
4. To qualify for homemaker aide or home chore services, there cannot be anyone living in the household under the age of 60 unless they have a physical or mental disability for which they receive SSI or SSD. In the absence of that proof, a letter from a doctor stating the existence of a physical or mental disability may be accepted, at the discretion of the deputy director.
5. Services are restricted to the primary home or apartment. Chore services are restricted to the client's main home or apartment, and to one acre of property. Rental properties, vacation homes, and vacant homes owned by the client will not be serviced.
6. If a client has renters living with them in the same house, the renter's age is not considered a factor in eligibility. COA staff will not provide housecleaning services to shared areas of the home, but will clean the client's individual space. The income from the rent shall be included in the total household income.
7. If clients are placed in long term care, a physician's letter will be required to continue Commission on Aging services or hold a spot in the program. The letter must indicate the date the client will be returning home. If the client will not be returning home, after 30 days, all Commission on Aging services will be discontinued.

Appeals process

Our goal is to provide a quality test and a pleasant testing experience for every candidate. If you are dissatisfied with either and believe we can correct the problem, we would like to hear from you. We provide an opportunity for general comments at the end of your test. Our personnel will review your comments, but you will not receive a direct response.

If you are requesting a response about test content, registration, scheduling or test administration (testing site procedures, equipment, personnel, etc.), please submit an appeal in writing within 60 days of your test date. Your appeal letter must provide your name and Prometric ID number, the test title, the date you tested and the details of your concern, including all relevant facts. Be sure to include your signature and return address. Mail your appeal letter to:

Prometric
ATTN: Appeals Committee
7941 Corporate Dr.
Nottingham, MD 21236

The Appeals Committee will review your concern and send you a written response with acknowledgement of receipt within 10 business days.

 **Important** Faxed or emailed appeals will not be accepted because an original signature is required.

Certified Nurse Aide Registry

After you successfully pass the Competency Evaluation Program — both the Clinical Skills Test and the Knowledge Test — you will receive a Registry document and be placed on the Michigan Nurse Aide Registry. Your Nurse Aide Registry document is valid for two years from the time of issue. An expiration date will appear on the document.

To request a duplicate Michigan Registry Certificate Document, complete the Request for Materials form located online at www.prometric.com/NurseAide/MI. Mail the form with a \$20 money order made payable to Prometric to the address listed on the form. Checks will not be accepted.

Registry verification

Before an individual can be hired as a nurse aide, the employer must contact the Registry and verify that the person has met the competency evaluation requirements and that the individual is in good standing on the Registry. Verification can be done online at www.prometric.com/NurseAide/MI or by calling 800.748.0252.

Nurse aides with findings of resident abuse, neglect, and/or misappropriation of resident property will remain on the Registry with the findings placed in their record. This information will be disclosed to the health facilities that call to verify a person's standing. Findings placed on the Registry are permanent and will be removed only when:

- The findings have been made in error;
- An individual has been found not guilty in a court of law; or
- The state is informed of a registrant's death.

A nurse aide under investigation for resident abuse, neglect and/or misappropriation of resident property is given a hearing and has an opportunity to rebut findings in the Registry. Only validated findings are placed on the Registry. This is public information.

Moving out of state. If you are a nurse aide moving from Michigan to another state, you must contact the Registry of that state to see if your CNA status can be transferred to that state as requirements vary from state to state. If the new state requires verification of your Michigan Registry information, the state must send the necessary paperwork requesting this information to Prometric.

Renewal eligibility

You are eligible for renewal if you have worked as a Certified Nurse Aide (CNA) for pay for at least eight consecutive hours within the immediate 24-month period prior to your current Registry document expiration date.

You must have been performing nursing or nursing-related services for pay under the supervision of a licensed registered nurse. This experience must be verifiable by an R.N. who has directly supervised you performing nursing or nursing related services.

Nurse aides that are flagged on the Registry for resident abuse, neglect, or misappropriation of property are not eligible for renewal.

Renewing the Registry document

Approximately 45 to 60 days prior to the expiration of the Registry document, a renewal notification will be mailed to you. The notice will go to your home address currently listed on the Registry. You are then required to go to the website at www.prometric.com/nurseaide/mi and print off a registry renewal application. Applications must be completed and returned to Prometric with the required Registry document renewal fee and requested supporting documentation.

It is your responsibility to keep your information correct and current with the Michigan Nurse Aide Registry. You may update your address in the Registry by calling 800.752.4724. There is no charge for correcting this information.

Note If you have not received a renewal notification letter within 30 days prior to the expiration date, please obtain a Registry Renewal form online at www.prometric.com/NurseAide/MI or by calling Prometric at 800.752.4724.

Completing the Registry Renewal form

Your renewal form must be signed and verified by the licensed Registered Nurse supervising your duties.

A letter, written on the employer's letterhead, documenting the current or former employment with the facility/agency as a nurse aide, must accompany all renewal forms. The Director of Nursing, Facility Administrator or Staff Development Coordinator must sign it. Human Resource personnel signatures are not acceptable.

If you are not currently working as a nurse aide, you will be recertified for two years beginning from the last day you worked as a nurse aide for an approved nurse aide employer. A letter from the employer verifying your last date of qualifying employment is required.

Renewal fees. The renewal fee is \$20. This is a nonrefundable processing fee. You will not get your money back if you are not eligible for renewal. If you have any

questions as to whether or not you are eligible, you should resolve this issue before submitting your form.

Important It is your responsibility to renew your Registry document prior to its expiration date. If your Registry document expires, you will be required to retrain and retest. There is no grace period for an expired Registry document. There are no exceptions.
