Subject: Letter of Interest

Dear Mr. Hentschel:

Thank you for the opportunity to express my interest in the opening at the Area Agency on Aging.

My interest lies with the aging citizens of our great community because so many of them have become my friends. I see how their lives are impacted with day to day challenges in their daily activities. I have personal experience caring for aging citizens with caring for my grandfather when we moved him from Florida to Traverse City. I cared for my mother through her battle with breast cancer until her passing. In the last few months, I have cared for an elderly friend. I also have an organized group that senior citizens attend monthly, hear their battles, their concerns and their loving stories.

My degree is a BA in Organizational Communications from Western Michigan University. My background was in pharmaceutical sales as a diabetes specialist so I am well acquainted with how that and other illnesses effect aging citizens. Most recently, I am a distinct event coordinator and have plenty of programs and events in which aging citizens attend. I help with the special attention and needs required to accommodate them.

I believe I am a qualified candidate for this position and I thank you for your consideration.

Sincerely,

*Heather Cerone*

Rob - I was just going to ask you about this. Also, could you please forward the letter from Heather that you read into the record for Bonnie?

Thank you!

Chris C.
