Grand Traverse County Board of Commissioners and  
Citizens of Grand Traverse County, Michigan:

The Comprehensive Annual Financial Report (CAFR) of Grand Traverse County, Michigan, for the calendar year ended December 31, 2017, is hereby submitted. In accordance with State Law, re: Public Act 34 of 2001, the revised Municipal Finance Act, Section 141.2303 (1) requires each municipality within the state of Michigan to file an audit report annually with the Michigan Department of Treasury within 6 months from the end of its fiscal year or as otherwise provided in the Uniform Budgeting and Accounting Act, 1968 PA 2, MCL 141.421 to 141.440a. This report was prepared by the Grand Traverse County Finance Department. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the government based upon a comprehensive framework of internal control that has been established for this purpose. Since the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

Michigan law requires an annual audit of the County's financial statements. The Grand Traverse County Board of Commissioners has engaged Vredeveld Haefner LLC, Independent Auditors, for this purpose. The independent auditors' unmodified ("clean") opinion has been included at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### **ORGANIZATIONAL STRUCTURE**

County government is the largest unit of local government in Michigan and is also the oldest political subdivision of the state, having attained stature and importance before any other form of government now in existence.

Grand Traverse County, Michigan, incorporated in 1851, is located approximately 250 miles north of Detroit, in the northwestern section of Michigan's Lower Peninsula. It currently occupies 485 square miles and serves an estimated population of 91,807. In terms of population, this ranks Grand Traverse County as the 22nd largest of 83 counties in the State of Michigan. Grand Traverse County is empowered to levy a property tax on real, personal and industrial property located within its boundaries.

The Board of Commissioners exercises the legislative power of the County and determines all matters of policy. The Board of Commissioners is comprised of seven commissioners who are elected from their respective districts. Each commissioner serves a term of two years. The county administrator is the appointed head of the administrative branch of the county government. The judicial branch of government

consists of two Circuit Court judges, two District Court judges, and one Probate Court judge. All judges are elected at large for a six-year term. The Circuit and District Court judges are elected on two-year, staggered terms. The Offices of Prosecuting Attorney, Sheriff, Clerk, Treasurer, Register of Deeds, Drain Commissioner and County Surveyor are elected at large and serve for a four-year term.

Grand Traverse County provides a wide range of services, including public safety, health and welfare services, community and economic development, and recreational and cultural activities. Certain financing and oversight services on the construction of Grand Traverse County public buildings are provided through a component unit, a legally separate building authority, which functions, in essence, as a department of Grand Traverse County, and therefore has been included as an integral part of Grand Traverse County's financial statements. Grand Traverse County is also financially accountable for services provided by other legally separate component units of Grand Traverse County. These services include the construction and maintenance of the county's system of roads and bridges by the Grand Traverse County Road Commission, and water supply and wastewater disposal services provided by the Grand Traverse County Department of Public Works. In addition, the Grand Traverse County Drain Commissioner provides for the construction and maintenance of drainage districts throughout Grand Traverse County. The Grand Traverse County Brownfield Redevelopment Authority promotes the revitalization of environmentally distressed areas/sites. The Grand Traverse County Land Bank Authority works to provide affordable housing and economic development opportunities from foreclosed properties. These five component units are reported separately within Grand Traverse County's financial statements, and additional information on them can be found in the notes to the financial statements.

Grand Traverse County prepares, adopts and maintains budgetary controls on an annual basis. Governmental fund types of Grand Traverse County are under formal budgetary control. Activities of the General fund, Special Revenue funds and Debt Service funds are included in the annual appropriated budget. The level of budgetary control, that is, the level at which expenditures cannot legally exceed the appropriated amount, is established at the activity level. Capital Project funds are budgeted by project. Enterprise funds and Internal Service funds, which are Proprietary funds, are also subject to budgetary controls and are budgeted at the activity level as well. The County's procedures in establishing its annual budget are as follows:

Beginning in the summer of each year, budget forms are provided to all county elected officials and department heads, outlining the procedures for requesting appropriations for the subsequent budget year. In the fall of each year, the County Administrator and Finance Director may hold budget hearings with all elected officials and department heads to obtain additional information regarding budget requests.

In October, preceding the beginning of the next fiscal year, and in conformance with Act 2, PA 1968, as amended by Public Act 621 of 1978, (the Uniform Budgeting and Accounting Act), the Finance department prepares, and the County Administrator submits, a proposed operating budget for review and adoption by the County Board of Commissioners.

Subsequent to the County Administrator submitting the proposed budget to the Board of Commissioners, a public hearing is conducted to obtain taxpayer comments. The Board of Commissioners then makes any amendments to the budget it deems necessary and adopts the same by formal resolution prior to December 31.

The Board of Commissioners is authorized to make adjustments to the various budgets as deemed necessary. Elected officials and department heads are authorized to amend budgets under their control subject to the provisions of the County's budget resolutions as amended.

## **ECONOMIC CONDITION AND OUTLOOK**

### ***Population Trends***

In 2017, the estimated population of Grand Traverse County was 91,807 according to the U.S. Census. This is an increase of 5.5% from the 2010 U.S. Census population count of 86,986. Grand Traverse County is the 22nd most populated county in Michigan and was third fastest growing county in the state in 2016.

The 2016 median age in Grand Traverse County is 42.5 years, compared to 39.5 years for Michigan overall. In 2016, 17.0% of the population of the County was 65 years old and over which is higher than the 15.4% for Michigan overall. In comparison, only 13.1% of the County population in 2000 was 65 years old and over. This trend of an aging population is expected to continue for the region.

### ***Labor Market***

In 2017, the annual average workforce in Grand Traverse County was 44,949 employees, representing two-thirds of the total regional employment. Annual average unemployment for the County in 2017 was 3.6%, down from 4.1% in 2016. Health care and social assistance is the largest employment industry in the county. Over the next 30 years, Grand Traverse County is forecasted to experience employment growth more than 150% higher than the state average. Median household income in the County is \$55,597, 14th highest county in Michigan.

### ***Property Values and Home Sales***

There are 55,132 parcels of property in the County for the 2018 Assessment year, an increase of .33% from 2017. The County Equalized Value (CEV) for Grand Traverse County for 2018 is \$6,324,678,828, an increase of 4.07% from 2017, which was \$6,077,177,576. Taxable value increased overall 4.896% countywide from 2017 to 2018.

Total listings of home sales in Grand Traverse County in 2017 by real estate agents were 2,293, up from 1,735 in 2016. The average sales price in 2017 was \$279,083, up from \$250,086 in 2016. In comparison, the average price for sales in Michigan in 2017 was \$155,250, an increase from \$154,133 in 2016.

### ***Education***

On a whole, Grand Traverse County residents tend to have a higher than average education compared to the remainder of Michigan. The County is ranked sixth in the state with 94.5% of the population having a high school diploma or more and ranked tenth in the state with 31.7% of the population having a bachelor's degree or more.

The two primary public school districts in Grand Traverse County are the Traverse City Area Public Schools and the Kingsley Area Schools. Traverse City Area Public Schools includes 16 schools. The district has a current enrollment of nearly 10,000 students spread over 300 square miles across three counties. Kingsley Area Schools includes three schools and covers the southern end of the County. The district has a current enrollment of over 1,500 students. Both districts have a dual enrollment program which enables high school students to enroll in classes offered by Northwestern Michigan College and earn college credit while still in high school.

Northwestern Michigan College pioneered post-secondary education in northern Michigan when it was established as Michigan's first community college in 1951. With an enrollment of 5,400, the college provides collegiate-level instruction in the liberal arts and in many occupational fields. The college's Great Lakes Maritime Academy, the only maritime academy on the Great Lakes, prepares students to become

merchant marine officers. The college also is in partnership with 7 Michigan colleges and universities to provide bachelor's completion and advanced degrees.

### ***Tourism Industry***

The Grand Traverse region's largest industry is often considered to be tourism. With a market area accounting for close to 10 percent of the state's travel volume, Grand Traverse County ranks second among Michigan counties in the number of pleasure trips hosted. An estimated 3.3 million persons annually visit Grand Traverse County. This includes hotel guests, business meeting and convention travelers as well as seasonal property owners. The Grand Traverse visitor industry includes 3,900 hotel rooms and an estimated 3,600 seasonal condominiums. The total economic impact from the visitor industry in Grand Traverse County is \$1.2 billion annually.

### ***Cherry Industry***

The U.S. cherry industry produces more than 650 million pounds of tart and sweet cherries each year. Michigan, mainly the Grand Traverse region, grows about 75 percent of the tart cherry crop. Generally, Michigan produces 200 to 250 million pounds of tart cherries with the total U.S. crop being 275 to 350 million pounds. Sweet cherries primarily are grown in the Pacific Coast states, but Michigan joins the top four producers, harvesting about 20 percent of the crop each year. Michigan produces about 50 million pounds of sweet cherries.

### ***Wineries and Eateries***

The Traverse City area is home to numerous vintners who grow grapes and bottle wines on the scenic Old Mission and Leelanau Peninsulas. The wines are fast becoming among the finest offered nationally and internationally. The ideal climate, with vineyards protected by winter snows and conditions moderated by proximity to Lake Michigan, has given rise to a wine industry that has been recognized for its quality and variety since the first winery opened here in 1974. The area also contains nearly 20 breweries and 11 distilleries.

Thanks to its award-winning wines and talented local chefs, Traverse City enjoys a national reputation as a place of food and drink. Midwest Living listed Traverse City among its Five Top Food Towns two years in a row, and Bon Appetit has listed it as one of America's Top Five Foodie Towns.

### ***Arts and Culture***

The arts and culture industry represents a diverse group in this region from the world-renown Interlochen Center for the Arts to self-employed artists often working from their homes. Regionally, the arts and culture sector has grown significantly in the past few years and is an important contributing force in the economy. Highlights of the region include Dennos Museum Center, the Traverse City Opera House, the Old Town Playhouse, and the Traverse Symphony Orchestra.

### ***Healthcare***

Munson Healthcare, the parent company for Munson Medical Center in Traverse City and eight other affiliated hospitals, is the region's largest provider of health care and also the region's largest employer with over 5,000 employees. Munson serves 24 counties in northern Michigan and offers 41 specialties including one of the nation's top heart programs.

## MAJOR INITIATIVES

### ***Boardman River Dams***

The Grand Traverse County Board of Commissioners has decided to remove the Boardman and Sabin Dams on the Boardman River after a long study that included surrounding property owners, the Michigan Department of Natural Resources and Environment (DNRE), the U.S. Army Corps of Engineers, Grand Traverse County Road Commission, City of Traverse City, and Traverse City Light and Power. This decision is joined by the City of Traverse City which has removed Brown Bridge Dam also on the Boardman River. The County and City are working with the Army Corps of Engineers and DNRE on the removal of the dams and to restore the river. The Boardman Dam was removed in 2017 and the Sabin Dam is scheduled to be removed in 2018. A project of this scale is substantial and will have a significant impact on the community.

### ***Brownfield Redevelopment***

Since its inception, the Grand Traverse County Brownfield Redevelopment Authority has been one of the most active authorities in Michigan, working to revitalize environmentally distressed areas. Over \$250 million of private investment has been added to the Grand Traverse County tax base as a result of environmental clean-up of nearly 20 brownfield sites. The new investment and new businesses have resulted in the creation of over 1,800 jobs. Further, an additional \$250 million in investments is anticipated in the continued redevelopment of these sites.

### ***Economic Development***

Grand Traverse County has been designated as a Next Michigan Development Corporation by the Michigan Strategic Fund Board. As one of only seven communities in Michigan, "Northern Nexus" utilizes key economic development tools to assist in the expansion and attraction of businesses that ship goods by two or more modes of transportation. With strong support from the Michigan Economic Development Corporation, Northern Nexus works in partnership with the City of Traverse City, Garfield Charter Township, East Bay Charter Township and Blair Township.

### ***National Cherry Festival***

Traverse City is considered the Cherry Capital of the World. Its annual celebration, the National Cherry Festival, is held every July and attracts over 500,000 people over eight days. At a minimum, the annual festival contributes \$27 million to the region. The festival has been well recognized by the Governor, the Michigan legislature, AAA Michigan and USA Today. The festival is also annually rated in the Top 100 Festivals and Events in North America by the American Bus Association.

### ***Traverse City Film Festival***

Every summer, the annual Traverse City Film Festival, founded by Academy Award winning filmmaker Michael Moore and co-founders, photographer John Robert Williams and New York Times bestselling author Doug Stanton, presents the best of independent, foreign, and documentary films in several indoor movie houses and one free outdoor location. The Festival also operates the historic State Theatre as a highly successful year-round movie house.

## ***Traverse City Beach Bums Professional Baseball Team and Hockeytown North***

Averaging 120,000 fans a year, Wuerfel Park is home to the Traverse City Beach Bums professional baseball team of the Frontier League and draws fans from across northern Michigan. Across town, Centre Ice, known as Hockeytown North, is home to the training camp of the Detroit Red Wings and its annual prospects tournament.

### ***Coast Guard City***

In 2010, Traverse City was designated as the 10<sup>th</sup> “Coast Guard City.” Traverse City is one of only 21 Coast Guard Cities in the United States. There are 140 Coast Guard personnel stationed at Air Station Traverse City located at Cherry Capital Airport. Traverse City is considered the #1 retirement location for Coast Guard personnel.

## **FINANCIAL INFORMATION**

### ***Relevant Financial Policies***

In accordance with the County's General Financial Policy, the General fund objective is to establish and maintain a 15% level of unassigned fund balance based on the General fund's most current adopted operating budget.

The 100% Tax Payment Fund Policy, which authorizes appropriations from the 100% Tax Payment fund, requires that it be self-funded. Beginning in 1999, the fund retains 25% of the earnings, with the balance available for distribution or appropriation to the general fund. Since 2002, \$450,000 of the amount available for appropriation has been designated as a capital appropriation.

Cash balances are invested according to the Investment Policy adopted by the Board of Commissioners. The Board of Commissioners has authorized the Grand Traverse County Treasurer to invest surplus funds of the County in accordance with those investments permitted by Act 20 of the Michigan Public Acts of 1943 as amended, M.C.L. 129.91. The Act generally allows the County to deposit funds in banks, savings and loan associations, and credit unions in the state of Michigan. The Act also provides for investments in U.S. government obligations; certificates of deposit, savings accounts and deposit accounts of banks, savings and loans, and credit unions who are members of the FDIC, FSLIC, and NACU, respectively; commercial paper, U.S. government or federal agency obligation repurchase agreements; bankers' acceptances of United States banks; and, with some restrictions, mutual funds.

### ***Employees' Retirement Systems***

The County participates in the Municipal Employees Retirement System of Michigan (MERS), and offers both a defined benefit pension plan and a defined contribution pension plan for most full-time employees. In 2017 the Board of Commissioners authorized a payment of \$5.8 million in addition to the annual required payment of \$5.2 million to improve the funded position of the defined benefit pension plan.

### ***Awards and Acknowledgments***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded twelve consecutive Certificates of Achievement for Excellence in Financial Reporting to Grand Traverse County, Michigan for its Comprehensive Annual Financial Report (CAFR) for the fiscal years ended December 31, 2005-2016. This Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR whose contents conform to program standards. This CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are again submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department and other county departments, and the various elected and appointed officials. We would like to express our appreciation to everyone who assisted in and contributed to the preparation of this report. We would also like to thank the Board of Commissioners for their interest and support in planning and conducting the financial operations of the county in a responsible and progressive manner.

Sincerely,

Nate Alger  
County Administrator

### INDEPENDENT AUDITORS' REPORT

June 22, 2018

Board of Commissioners  
Grand Traverse County, Michigan

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Grand Traverse County, Michigan (the County), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Grand Traverse County, as of December 31, 2017, and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 9 and the information on pages 67 through 82 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### ***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

# Management's Discussion and Analysis

As management of the County of Grand Traverse, Michigan (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2017.

## Financial Highlights

The financial statements, which follow this Management's Discussion and Analysis, provide these significant key financial highlights for the 2017 fiscal year as follows:

- An additional \$5.84 million pension payment was made to MERS
- Tax revenues are up due to increasing property values and construction activity
- The Boardman Dam removal was completed at no cost to the County
- An agreement was reached with MERS regarding a fixed payment amount to fund the defined benefit pension which will provide long-term financial stability to the County

## Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) Government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements** The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected revenues and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include legislative, judicial, general government, public safety, public works, health and welfare, economic development, and parks and recreation. The business-type activities of the County include the Pavilions, Homestead, Inspections, Solid Waste, Foreclosure tax collection, and Delinquent tax revolving funds.

The government-wide financial statements include not only the County itself (known as the primary government), but also the legally separate Road Commission, Brownfield Redevelopment Authority, Land Bank Authority, Drain Commission, Department of Public Works, and Building Authority.

**Fund financial statements** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, health department, and commission on aging, all of which are considered to be major funds. Data is combined into a single aggregated presentation for the other governmental funds (non-major governmental funds). Individual fund data for each of the non-major governmental funds is provided in the form of combining statements and schedules.

The County adopts an annual appropriated budget for its general fund and all special revenue funds as required by state law. Budgetary comparison statements have been provided for the general and special revenue funds to demonstrate legal compliance.

**Proprietary funds** The County also maintains proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the Pavilions and the Delinquent Tax Revolving Fund, both of which are considered to be major funds. Data is combined into a single aggregated presentation for the other enterprise funds (non-major enterprise funds). Individual fund data for each of the non-major enterprise funds is provided in the form of combining statements and schedules.

The County has internal service funds to account for and allocate costs internally among the various functions. Because these services predominantly benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

**Fiduciary funds** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of these funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. This is limited to this discussion and analysis, major fund budgetary schedules and benefit plan trend information. Supplemental information follows the required supplementary inventory information.

## Government-wide Financial Analysis

**Statement of Net Position** As noted earlier, net position may serve over time as a useful indicator of the County's financial position. In the case of the County, assets exceeded liabilities \$38,267,448 at the close of the most recent fiscal year. The following chart illustrates the composition of net position.

### Net Position

By far the largest portion of the County's net position reflects its investment in capital assets (e.g., land, buildings, machinery and equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position in the amount of \$8,638,956 represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position was an unrestricted deficit of \$20,789,506.

At the end of the current fiscal year, the County is able to report positive balances in two categories of net position, for the governmental activities and all three categories of net position for the business-type activities.

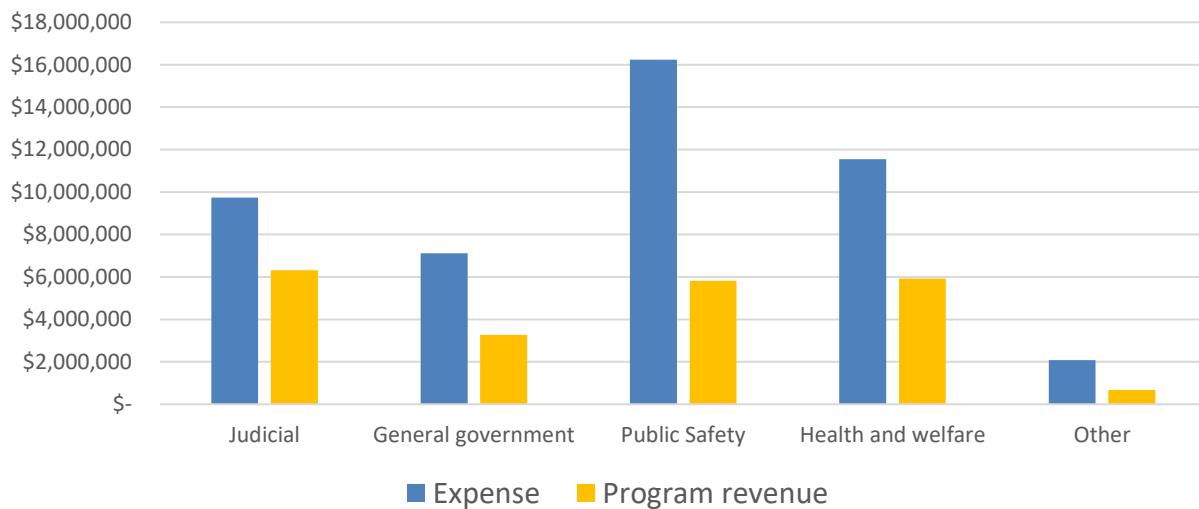

**Statement of Activities** The County's total revenue for the fiscal year ended December 31, 2017, was \$86,223,033 while total cost of all programs and services was \$76,535,386. This results in an increase in net position of \$9,687,647. The following table presents a summary of the changes in net position for the years ended December 31.

The beginning net position for the Governmental Activities was reduced by \$4,555,063 due to the County adopting GASB 75 relating to Other Post-Employment Benefits.

## Governmental activities - expense and program revenue by function

## Governmental activities - revenues by source

**Governmental Activities** The preceding table shows that the governmental activities increased the County's net position by \$8,774,227 during this fiscal year. The increase was primarily related to a reduction in pension and OPEB plan liabilities.

**Business-type Activities** Business-type activities increased the County's net position by \$913,420 during the year. This increase is primarily the result of increased revenues and decreased expenses.

### Financial Analysis of the Government's Funds

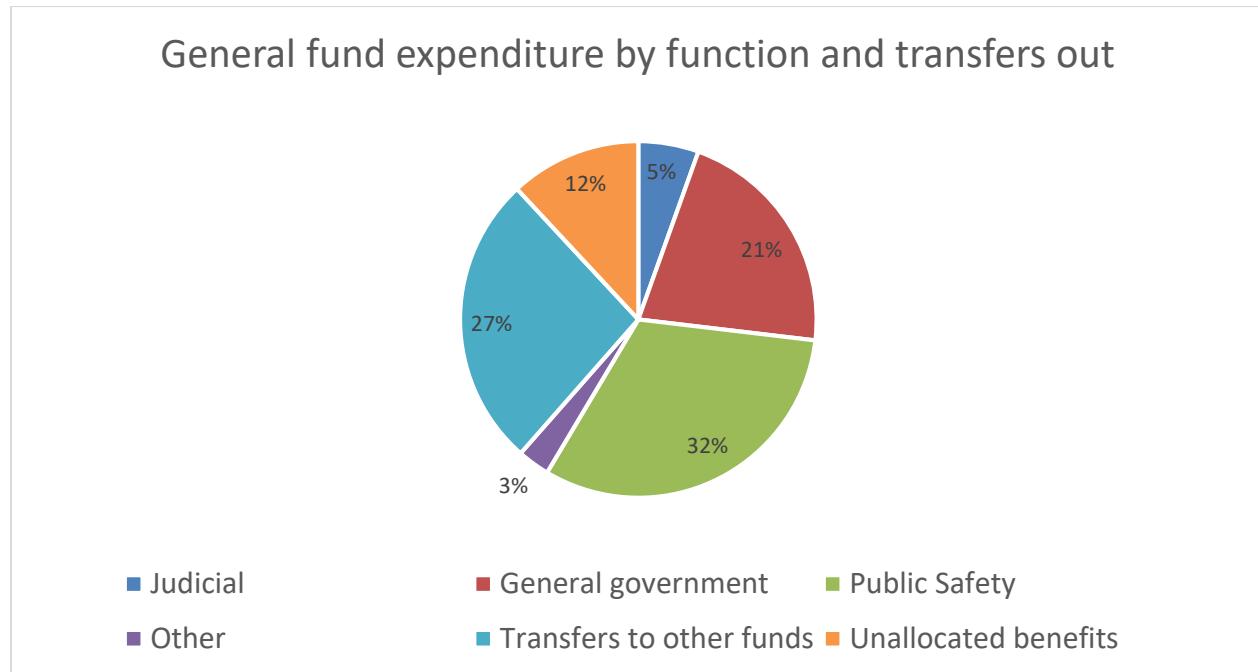

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a County's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance was \$8,214,689. As a measure of the general fund's liquidity, it may be useful to compare unassigned fund balance to total fund expenditures. Unassigned fund balance represents 20% of total general fund expenditures and transfers.

Health Department - At the end of the current fiscal year, fund balance was \$1,952,855, a decrease of \$30,638 from the prior year.

Commission on Aging - At the end of the current fiscal year, fund balance was \$1,575,813, a decrease of \$346,636 from the prior year. The primary reason for the decrease was planned program expenditures exceeding revenues.

**Proprietary funds** The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The County of Grand Traverse's major enterprise operations consist of separate and distinct activities. These activities are accounted for in the Grand Traverse Pavilions and the Delinquent Tax Revolving Fund. These activities provide services to residents and businesses of the County. The Pavilions had an increase in net position of \$1,439,267 largely due to a reduction in the net pension liability. The Delinquent Tax Revolving Fund had a decrease of \$1,886,412 largely due to transfers to other funds.

## Budgetary Highlights

- Unexpended personnel funds were used to fund ongoing needs
- The use of fund balance in the general fund was less than planned
- Other funds remained within budget to maintain fund balance levels or the use of fund balance was in line with budget authorizations
- Tax revenue in the general fund exceeded budget estimates

## **Capital Asset and Debt Administration**

**Capital assets** The County's investment in capital assets for its governmental and business-type activities as of December 31, 2017, amounted to \$65,211,359 (net of accumulated depreciation). Of this amount, \$44,347,862 was for its governmental activities and \$20,863,497 was for its business-type activities. This investment in capital assets includes land, buildings, equipment and vehicles, and infrastructure.

Significant additions to capital assets during the year include police vehicles, playground improvements, and security upgrades for the jail.

Additional information about the County's capital asset activity can be found in Note 6 to these financial statements.

**Long-term debt** At the end of the current fiscal year, the County had total long-term debt outstanding of \$14,877,956 for governmental and business-type activities. The Building Authority issued \$3,500,000 of bonds during the year to fund Pavilions Improvements.

Additional information on the County's long-term debt can be found in Note 9 to these financial statements.

## **Economic Factors and Next Year's Budgets and Rates**

The following economic factors were considered in preparing the County's budget for the 2018 fiscal year:

- Property values and taxable values are expected to increase due to residential construction and economic growth (See 2018 Equalization Report which indicates 4.89% increase in TV)
- Labor contracts require 20% cost sharing for employee health insurance
- Several labor contracts need to be negotiated in 2018 and 2019
- Technology needs were addressed in the 2018 Budget and will continue to be addressed in the 2019 Budget

## **Requests for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Grand Traverse County, 400 Boardman Avenue, Suite 304, Traverse City, MI 49684.

Amounts reported for *governmental activities* in the statement of net position are different because

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds.

Add - land	15,639,877
Add - construction in progress	317,466
Add - capital assets (net of accumulated depreciation)	25,120,251

Internal service funds are used by management to charge the costs of centralized services to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities.

Add - net position of governmental activities accounted for in the internal service funds	2,018,829
---	-----------

Certain liabilities are not due and payable in the current period and therefore are not reported in the funds.

Deduct - bonds payable	(11,667,956)
Deduct - post-employment benefits	(2,515,857)
Deduct - compensated absences payable	(1,416,995)

## RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED DECEMBER 31, 2017

---

<b>Net changes in fund balances - total governmental funds</b>	\$ 3,310,068
--	--------------

Amounts reported for *governmental activities* in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense.

Add - capital outlay	987,185
Deduct - depreciation expense	(1,582,859)
Deduct - net book value of disposed assets	(9,199)

Issuance of bonds or notes provides current financial resources to governmental funds in the period issued, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond or note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Add - principal payments on debt	590,000
Deduct - bonds issued	(3,500,000)
Deduct - amortization of premium/discounts	(1,852)

Internal service funds are used by management to charge the costs of certain services to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities.

Add - increase in net position from the internal service funds	70,903
--	--------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Add - decrease in accrued employee benefits	38,919
Add - decrease in net pension obligation	7,466,394
Deduct - decrease in deferred inflows and outflows related to benefit plans	(3,784,793)
Add - decrease in other post-employment benefit liability	5,188,477
Add - decrease in accrued interest	984

<b>Change in net position of governmental activities</b>	<b><u>\$ 8,774,227</u></b>

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of Grand Traverse County (the County) conform to generally accepted accounting principles as applicable to governments. The following is a summary of the significant policies.

***Reporting Entity***

The County was organized in 1851 and covers an area of approximately 485 square miles with the county seat in Traverse City. The County operates under an elected County Board of Commissioners (seven members) and provides services to its residents in many areas including law enforcement, administration of justice, community enrichment and development, and human services.

These financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the County's operations, so data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the financial statements to emphasize they are legally separate from the County.

***Blended Component Unit***

The Grand Traverse Building Authority (the Building Authority) is governed by a five-member Board appointed by the County Board of Commissioners. Although legally separate from the County, the Building Authority is reported as if it were part of the primary government because its sole purpose is to finance and construct the County's public buildings. The Building Authority activity is presented in the Building Authority, capital projects, and debt service funds. A separate audit report is not issued for the Grand Traverse County Building Authority.

***Discretely Presented Component Units***

The component unit columns in the government-wide financial statements include the financial data of the Grand Traverse County Road Commission (the Road Commission), the Grand Traverse County Brownfield Redevelopment Authority (the Brownfield Redevelopment Authority), the Grand Traverse County Land Bank Authority (the Land Bank Authority), the Grand Traverse County Department of Public Works (the Department of Public Works), and the Grand Traverse County Drain Commission (the Drain Commission). They are reported in separate columns to emphasize they are legally separate from the County.

The Road Commission was established pursuant to the County Road Law (MCL 224.1) to maintain and construct county roads and is governed by a Board of County Road Commissioners appointed by the County Board of Commissioners. Complete financial statements for the Road Commission can be obtained from: 1881 LaFranier Road, Traverse City, MI 49696.

The Brownfield Redevelopment Authority was established pursuant to Public Act 381 of 1996 to fund redevelopment of contaminated property and is governed by a Board of Directors appointed by the Grand Traverse County Board of Commissioners. The Brownfield Redevelopment Authority is fiscally dependent on the County. The County Commission has the ability to significantly influence operations of the Brownfield Redevelopment Authority. Financial statements are not separately issued for the Brownfield Redevelopment Authority.

**GRAND TRAVERSE COUNTY**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

The Land Bank Authority was established pursuant to the Michigan Land Bank Fast Track Act (2003 P.A. 258, MCL 124.751) to facilitate use of property obtained as a result of delinquent property taxes. Members of the governing body of the Land Bank Authority are appointed by the County Board of Commissioners. The County Commission has the ability to significantly influence operations of the Land Bank Authority. Financial statements are not separately issued for the Land Bank Authority.

The Department of Public Works was established to facilitate municipal shared public utilities and is governed by a Board of Directors appointed by the County Board of Commissioners. The County Commission has the ability to significantly influence operations of the Department of Public Works. Financial statements are not separately issued for the Department of Public Works.

The Drain Commission drainage districts are established pursuant to the Drain Code of 1956 and were legally separate entities. The Drain Commissioner has the power to contract, to sue and be sued, and to hold, manage and dispose of real and personal property. The statutory drainage board of Chapter 21 drainage districts consists of the State Director of Agriculture and the Drain Commissioner of each county involved in the project. The County Drain Commissioner has sole responsibility to administer the drainage districts established pursuant to Chapters 3, 4 and 8 of the Drain Code. The Drainage Board or Drain Commissioner, on behalf of the drainage districts, may issue debt and levy special assessments authorized by the Drain Code without the prior approval of the County Board of Commissioners. The County Commission has the ability to significantly influence operations of the Drain Commission. Financial statements are not separately issued for the Drain Commission although financial information for specific drainage districts may be obtained from the County Drain Commissioner, 400 Boardman Avenue, Traverse City, MI 49684.

***Related Organizations***

Hospital Finance Authority

The Hospital Finance Authority is a related organization with outstanding conduit debt of \$177,779,528. The County Board of Commissioners appoints the five members of the governing board but does not have the ability to impose their will, and there is no benefit/burden relationship.

***Jointly Governed Organizations***

*Northwestern Regional Airport Commission*

The County participates in the operation of the Northwestern Regional Airport Commission (Airport Commission) with Leelanau County. Complete financial statements for the Airport Commission can be obtained from: Cherry Capital Airport Administrative Office, 144 W. South Airport Road, Traverse City, MI 49686.

*Northern Lakes Community Mental Health*

The County also participates in the operation of the Northern Lakes Community Mental Health Authority (NLCMH) with Missaukee, Leelanau, Crawford, Roscommon and Wexford counties. Complete financial statements for NLCMH can be obtained from: 105 Hall Street, Traverse City, MI 49684.

***Government-wide and Fund Financial Statements***

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Exceptions to this general rule are charges between enterprise functions and other various functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

***Measurement Focus, Basis of Accounting, and Financial Statement Presentation***

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, except for agency funds which do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, except for reimbursement-based grants and interest, which use a one-year collection period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to long-term employee benefits and claims and judgments, are recorded only when payment is due. Property taxes, state revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

**GRAND TRAVERSE COUNTY**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges for services. Operating expenses for the enterprise funds include depreciation on capital assets, labor, supplies and contracted services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The County reports the following major governmental funds:

The *General Fund* is the general operating fund of the County. It is used to account for all financial resources, except those required to be accounted for in another fund.

The *Health Department Fund* accounts for the federal and state grants, local service fees and general fund appropriations which are used to provide health services to citizens of the County.

The *Commission on Aging Fund* is used to account for revenues received from property taxes and fees to provide services and programs for County residents 60 years of age and older.

The County reports the following major proprietary funds:

The *Grand Traverse Pavilions Fund* accounts for the activities of the County's medical care facility.

The *Delinquent Tax Revolving Fund* is used to account for the purchase and subsequent collection of delinquent real property taxes of local units of government.

Additionally, the County reports the following fund types:

The *Special Revenue Funds* are used to account for the proceeds of specific revenue sources (other than permanent trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

The *Capital Projects Funds* account for the accumulation and disbursement of resources for the purchase and construction of governmental fund capital assets.

The *Debt Service Funds* are used to record revenues which are restricted or otherwise provided for the payment of principal and interest on general long-term debt.

The *Enterprise Funds* are used to account for operations of the County that are financed by charges for the services provided.

The *Internal Service Funds* account for the fleet and equipment management, data processing, copy machine, mailing department and insurance services provided to other departments or agencies of the County on a cost reimbursement basis.

The *Agency Funds* are used to account for the collection and disbursement of funds that are collected on behalf of outside governments or other parties.

The other postemployment benefits trust fund accounts for the accumulation of resources to be used for retirement annuity payments and other postemployment benefits at appropriate amounts and times in the future.

***Budgets and Budgetary Accounting***

The County adopts a budget for the general fund and special revenue funds as required by state law (P.A. 621 of 1978, as amended). Budgets for other funds are used as a management control device. The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Management submits to the County Commission a proposed operating budget for the fiscal year commencing the following January 1.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to January 1, the budget is legally enacted through passage of a resolution. Formal budgetary integration is employed as a management control device during the year for the general and special revenue funds. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). The legal level of budgetary control adopted by the governing board is the activity level, which is the level at which expenditures may not legally exceed appropriations.
4. Adoption and amendments of all budgets used by the County are governed by Michigan Law. The appropriations ordinances are based on the projected revenue and expenditure of the various functions of the County. Any amendment to the original budget must meet the requirements of Michigan Law. The County did amend its budget for the year. Any revisions that alter the total expenditures of any fund must be approved by the County Commission. Appropriation laps at year end.

***Cash and Pooled Investments***

For the purpose of the statement of cash flows the County considers all assets held in the cash and investment pool to be cash and cash equivalents because the investments are not identifiable to specific funds and the assets can be withdrawn at any time, similar to demand deposit accounts. Restricted cash includes deposits held in resident's trust accounts in the Grand Traverse Pavilions enterprise fund.

***Investments***

Investments are stated at fair value at the balance sheet date.

County investment policy allows for all investments authorized by State statutes. State statutes authorize the County to invest in:

- a. Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers' acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.

**GRAND TRAVERSE COUNTY**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20 as amended.
- h. The OPEB Trust may also invest in corporate debt and equity securities.

***Receivables / Due From Other Governments***

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. For receivables, an allowance for uncollectible accounts of \$879,999 has been established. All other estimated uncollectible balances are immaterial to the financial statements.

Economic development fund receivables consist of loans to promote economic development within the County, community development block grant fund receivables consist of loans to area residents for home improvements which must be repaid by the homeowner upon sale or foreclosure. Brownfield Redevelopment Authority component unit receivables represent loans to assist with the economic development of environmentally distressed sites within the County. Department of public works receivables are due from local units of governments that participate in utility projects. Long-term receivables generally represent the balance due on capital projects financed by the County for local units of government (the local unit reports the capital asset similar to a capital lease). The County has an enforceable lien on such property.

***Prepaid and Items***

Certain payments to vendors represent costs applicable to future accounting periods and are recorded as prepaid and other assets in both the government-wide and fund financial statements. The County uses the consumption method of accounting for prepaid items.

***Inventory***

All inventories are valued at the lower of cost or market using the first-in/first-out (FIFO) method (average unit cost method used for the Road Commission). Inventory represents parts, materials, and supplies utilized in the various County operations. The County uses the consumption method of accounting for inventory items.

***Capital Assets***

Capital assets, which include land and improvements, construction in progress, buildings and improvements, equipment, vehicles and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental, business-type activities., and component unit columns in the government-wide financial statements.

Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (\$1,000 for DPW and Drain Commission) and an estimated useful life in excess of two years. Such assets are valued at cost where historical records are available and at estimated historical cost where no historical records exist. Donated capital assets are valued at acquisition value (the price that would be paid to acquire an asset with an equivalent service potential in an orderly market transaction) on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

No interest expense has been incurred or capitalized on capital assets reported in proprietary funds.

Depreciation on capital assets (including infrastructure) is computed using the straight-line method (sum of the year's digits for Road Commission) over the following estimated useful lives:

	<u>County</u>	<u>DPW &amp; Drain Commission</u>	<u>Road Commission</u>
Land improvements	10-20	-	-
Buildings and improvements	30-50	50	50
Furniture and equipment	5-25	5-30	5-30
Vehicles	5	-	-
Infrastructure	5-50	5-50	20-50

***Unearned Revenue***

Funds report *unearned revenue* in connection with asset balances that have not yet been earned.

***Deferred Outflows / Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County reports deferred outflows of resources for the loss on advance bond refunding reported in the government-wide statement of net position which results from the difference in the carrying value of refunded debt and its reacquisition price. The County and Road Commission have items that qualify for reporting in this category related to the net pension liability, these items are discussed in Notes 7 and 8.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The governmental funds and governmental activities report deferred inflows for property taxes levied for the following year. The County also has items that qualify for reporting in this category related to the net pension/OPEB liability, these items are discussed in Notes 7 and 8.

***Compensated Absences***

Under contracts negotiated with employee groups and personnel policy, individual employees have a vested right to receive payments for unused vacation and other compensation depending on employment agreements. Compensated absences reported for governmental activities are primarily liquidated from General fund resources.

***Long-Term Obligations***

In the government-wide financial statements and proprietary fund types in the fund financial statements, the long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

**GRAND TRAVERSE COUNTY**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

In the fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs in the year of issuance. The face amount of debt issued and any premiums received are reported as other financing sources. Discounts on debt issuances are reported as an other financing use. Governmental, proprietary, and component units report issuance costs are reported as expenditures/expenses.

***Net Position and Fund Balance Reporting***

Governmental funds report fund balance in the following five categories:

1. Non-spendable - the related asset's form does not allow expenditure of the balance. The assets are either (a) not in a spendable form or (b) legally or contractually required to be maintained intact. Non-spendable fund balance would be equal to inventory, prepaid items, non-current financial assets, and the non-spendable portion of endowments.
2. Restricted - the related assets can only be spent for the specific purposes stipulated by constitution, external resource providers, or as identified in enabling legislation.
3. Committed - the related assets can only be spent for a specific purpose identified by formal resolution of the governing board.
4. Assigned - the related assets can only be spent for a specific purpose but do not meet the criteria to be classified as committed.
5. Unassigned - is the residual classification and includes all spendable amounts not contained in the other classifications.

The Commission has delegated the authority to assign fund balance to the County Administrator. Only the Commission can commit fund balance.

The Commission has adopted a minimum fund balance policy in which the total fund balance of the General fund will be equal to at least 15 percent of the subsequent year's adopted General fund budgeted expenditures and transfers out. If the General fund balance falls below the minimum range, the County will replenish shortages or deficiencies using budget strategies and timeframes as detailed in the policy.

***Net Position and Fund Balance Flow Assumptions***

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position/fund balance and unrestricted – net position/fund balance, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to use restricted resources first, then unrestricted resource as they are needed. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

***Pensions***

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees' Retirement Plan (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED DECEMBER 31, 2017

---

#### ***Property Taxes***

County property taxes for general operations are levied as of July 1 and property taxes for special purposes are levied as of December 1 on property values assessed as of the preceding December 31, the lien date. The taxes levied as of December 1 are due February 14 of the following year and taxes levied July 1 are due on September 14 after which applicable property is subject to lien, and penalties and interest are assessed.

It is the County's policy to recognize the summer tax levy in the financial statements as current revenue because these revenues are budgeted and made "available" to fund current operations. It is the County's policy to report the winter tax levy in the financial statements as deferred inflows because it is intended to fund next year's activities. Winter taxes are recognized as revenues in the subsequent year when the proceeds of this levy are budgeted.

#### ***Intergovernmental Revenues***

Grants and assistance awards made on the basis of entitlement periods are recorded as due from other governments and revenue when entitlement occurs. Reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditure/expenses are incurred.

#### ***Interfund Transactions***

During the course of normal operations, the County has numerous transactions between funds. Transactions that constitute reimbursement to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. Charges between enterprise funds and other functions of the County are not reimbursements because elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. Remaining transactions are generally reflected as transfers.

## **2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS**

Michigan law provides that a local unit of government shall not incur expenditures in excess of the amount appropriated. In the body of the financial statements, the County's actual and budgeted expenditures for the budgeted funds have been shown at the activity level. The legal level of budgetary control defined through the County's budgetary process is the activity level.

During the year, the County incurred the following expenditures in budgeted funds which were in excess of the amounts appropriated:

<b>Special Revenue Funds</b>	<b>Final Budget</b>	<b>Actual</b>	<b>Variance</b>
Corrections P.A. 511 Fund			
Public safety	\$816,913	\$842,614	\$ (25,701)

#### 3. CASH AND INVESTMENTS

The captions on the financial statements relating to cash and pooled investments and investments are as follows:

	<b>Governmental Activities</b>	<b>Business- type activities</b>	<b>Component Units</b>	<b>Fiduciary Funds</b>	<b>Total</b>
Cash and pooled investments	\$20,076,969	\$17,346,459	\$8,810,135	\$3,354,282	\$49,587,845

The cash and investments making up the above balances are as follows:

Deposits	\$16,642,430
Investments	33,380,540
Petty cash	11,271
<b>Total</b>	<b>\$50,034,241</b>

The deposits are in financial institutions located in Michigan in varying amounts. State policy limits the Treasurer's investing options to financial institutions located in Michigan. All accounts are in the name of the County and a specific fund or common account. They are recorded in County records at fair value. Interest is recorded when earned.

*Custodial Credit Risk - Deposits.* Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned. State law does not require, and the County does not have, a policy for deposit custodial credit risk. As of year-end, the County's bank balance was \$19,380,644; of this amount, \$13,499,477 was collateralized, \$2,388,281 was insured, and \$1,746,443 was exposed to custodial credit risk because the balance was uninsured and uncollateralized.

#### Investments

The County chooses to specifically identify its investments. As of year-end, the County had the following investments:

	<b>Maturity</b>	<b>Fair Value</b>	<b>Rate</b>	<b>Rating</b>
MBIA MI Class	n/a	\$ 30,815,106	n/a	AAAm S&P

MERS Total Market Portfolio	n/a	256,132	n/a	None
<b>Total</b>		<b>\$33,380,540</b>		

The aforementioned investments do not include certificates of deposit which are classified as deposits for risk identification purposes.

***Investment and deposit risk***

*Interest Rate Risk.* State law and County policy limit the allowable investments and the maturities of some of the allowable investments as identified in Note 1, the summary of significant accounting policies. The County's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The maturity date for each investment is identified above for investments held at year-end.

*Credit Risk.* State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in Note 1, the summary of significant accounting policies. The investment policy does not have specific limits in excess of state law on investment credit risk. The rating for each investment is identified above for investments held at year-end.

*Custodial Credit Risk - Investments.* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the County does not have a policy for investment custodial credit risk. Of the above \$33,380,540 of investments, the County has a custodial credit risk of \$2,253,776 because the related securities are uninsured, unregistered and held by the government's brokerage firm which is also the counterparty for these particular securities. Of the above mutual fund/pool investments the County's custodial credit risk exposure cannot be determined because the funds do not consist of specifically identifiable securities.

*Concentration of Credit Risk.* Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer. The County does not have an investment policy that limits the amount that may be invested in any one issuer. Excluding U.S. government guaranteed, mutual funds and pooled investments, the County does not own investments in any one issuer that represent 5% or more of total County investments at year-end.

The County categorizes its fair value measurements of investments within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The County has the following recurring fair value measurements as of year-end. All of the County's investments are valued using a pricing model utilizing observable fair value measures of bond/pool investments and other observable inputs to determining the fair value of the securities making up the investment bond/pool (Level 2 inputs).

## 7. PENSION PLANS

### Defined Contribution Pension Plans

#### Defined Contribution Pension Plan – Grand Traverse County

The **Grand Traverse County Defined Contribution Plan** is sponsored by the County created in accordance with Internal Revenue Code Section 401(a), which is available to all full-time employees. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees who were hired previous to May 1, 2001 were able to choose to either stay in the defined benefit plan or to change to the defined contribution plan once their union contract was settled. Participants do not vest in the first two years of service, and are considered 25%, 50%, 75% and 100% vested in years three through six, respectively. Members may contribute 3% of their base pay, and the County's required contribution is an amount equal to 6% of the participant's base pay plus match employee contributions up to 3% of the employees' base pay for employees hired prior to January 1, 2014 and for certain bargaining unit members. New employees hired after January 1, 2014 and for certain bargaining unit members, the employer is required to contribute 3% of the participant's base pay plus match employee contributions of 3%.

The plan is administered by MERS. Plan provisions and contribution requirements were established and can only be amended by authorization of the County Commission. In 2017, the County contributed \$1,494,998 and employees contributed \$546,004.

**Defined Contribution Pension Plan – Road Commission**

The Road Commission maintains a defined contribution plan administered by MERS for those employees who do not participate in the defined benefit pension plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Administrative employees are eligible to participate from the date of employment. Union employees are eligible after one year as established by agreement. The Commission contributes 9% of administrative and 8% of union personnel gross earnings, respectively plus match employee contributions in an amount equal to 3% administrative and 2% union. Contributions for each employee (adjusted for gains and losses allocated to the employee's account) are vested 20%, 40%, 60%, 80% and 100% in years two through six, respectively. Plan provisions and contribution requirements are established and may be amended by the Board of County Road Commissioners. During 2017, the Commission contributed \$188,825 and employees contributed \$45,683 towards the defined contribution plan.

**Defined Benefit Plans**

***General Plan Description***

The following is applicable to the Grand Traverse County defined benefit pension plan (closed to new employees), Grand Traverse Pavilions defined benefit pension plan (open to new employees) and Grand Traverse County Road Commission defined benefit pension plan (closed to new employees).

***Plan Description***

The defined benefit pension plan provides certain retirement, disability and death benefits to plan members and beneficiaries. The employer participates in the Municipal Employees Retirement System (MERS) of Michigan. MERS is an agent multiple employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine-member Retirement Board. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at [www.mersofmich.com](http://www.mersofmich.com).

***Investments***

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<b><u>Asset Class</u></b>	<b><u>Target Allocation</u></b>	<b><u>Long-Term Expected Real Rate of Return</u></b>
Global Equity	57.5%	5.02%
Fixed Income	20.0%	2.18%
Real Assets	12.5%	4.23%
Diversifying Strategies	10.0%	6.56%

***Actuarial Assumptions***

The total pension liability was determined by an actuarial valuation as of December 31, 2016, using the following actuarial assumptions:

Inflation – 2.5%  
Salary increases – 3.75% in the long term  
Investment rate of return - 7.75 percent; net of investment expense including inflation  
Mortality rates – based on the RP-2014 Group Annuity Mortality Table of a 50% male and 50% female blend  
The actuarial assumptions used in the valuation were based on the results of the 2015 actuarial experience study

The actuarial assumptions used in the valuation were based on the results of the 2015 actuarial experience study.

***Discount Rate***

The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made at the current actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

***Aggregate Primary Government Defined Benefit Pension Plan Balances***

	<b>County</b>	<b>Pavilions</b>	<b>Total</b>
Net pension liability	\$46,078,344	\$7,864,621	\$53,942,965
Deferred outflows	2,613,846	2,740,718	5,354,564
Deferred inflows	-	469,483	469,483
Pension expense	1,524,481	(693,442)	831,039

***Net Pension Liability***

The employer's Net Pension Liability was measured as of December 31, 2016, and the total pension liability used to calculate the Net Pension Liability at December 31, 2017 was determined utilizing roll forward procedures as part of the annual actuarial valuation as of December 31, 2016.

**Defined Benefit Pension Plan – Grand Traverse County**

***Plan Membership***

At December 31, 2016, participants included the following:

Active plan members	64
Terminated vested plan members	43
Retirees and beneficiaries	<u>295</u>
Total participants	<u><u>402</u></u>

***Benefits***

Pension benefits vary by division and are calculated as final average compensation (based on a 3 or 5 year period) and multipliers ranging from 2.25% to 2.80%. Participants are considered to be fully vested in the plan after 6, 8, or 10 years. Normal retirement age is 60 with early retirement at age 50 with 25 years of service, age 55 with 15 years of service, age 55 with 25 years of service, or with 25 years of service (no age requirement).

***Contributions***

The County is required to contribute at least an amount equal to the actuarially determined rate, as established by the MERS Retirement Board. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. In addition, the employer may establish contribution rates to be paid by its covered employees.

Employer and employee monthly contribution amounts are generally fixed by division/bargaining unit and based on a percentage of payroll for employee contributions. The employer actuarial required contribution of \$6,106,164 was exceeded by the actual contribution of \$11,014,005 for the year ended December 31, 2017; employee contributions amounted to \$44,784.

***Sensitivity of the Net Pension Liability to Changes in the Discount rate***

The following presents the net pension liability of the County, calculated using the discount rate of 8 percent, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7 percent) or 1-percentage point higher (9 percent) than the current rate:

### Defined Benefit Plan – Grand Traverse County (excluding Pavilions)

#### *Plan Description*

**Grand Traverse County Retiree Health Care Plan** is a single employer defined benefit plan sponsored and administered by Grand Traverse County. The plan is reported as an OPEB Trust Fund in the County's financial statements.

The Plan provides of health insurance premiums for retirees based on specified contributions. The plan is closed to new participant. Benefit provisions may be amended by the Plan administrator (subject to bargaining agreements). Separate financial statements are not issued for the Plan.

The long-term expected rate of return on retirement plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	55.5%	5.25%

Active plan members	203
Retired plan members	35
Total participants	<u><u>238</u></u>

**Benefits**

Retirees have access to employer sponsored Medical, Dental, Vision and Life Insurance coverage subject to varying specified contributions. Members pay a percentage of premiums; additional beneficiaries must pay 100% of additional premiums.

**Contributions**

The Plan was established and is being funded under the authority of the County and under agreements with the unions representing various classes of employees. The Plan's funding policy is to contribute \$1,350,000 in 2018 and \$250,000 per year thereafter beginning in 2019. There are no long-term contracts for contributions to the Plan. The Plan has no legally required reserves.

**Rate of Return**

For the year ended December 31, 2017, the money-weighted rate of return was 2.4%.

**Net OPEB Liability of the County**

The components of the net OPEB liability of the County at December 31, 2017, were as follows:

Total OPEB liability	\$2,771,988
Plan fiduciary net position	<u>256,131</u>
County's net OPEB liability	<u>\$2,515,857</u>
Plan fiduciary net position as a percentage of total OPEB liability	<u>9.2%</u>

**Actuarial Assumptions**

The total OPEB liability was determined at December 31, 2017 using the entry age normal actuarial cost method by an actuarial valuation using the following actuarial assumptions based on 2017 County experience:

Inflation – 2.0%  
Salary increases – 2.0%  
Investment rate of return - 6.0% (including 2% inflation)  
20-year Aa Municipal bond rate – 3.15%  
Remaining amortization period of 14 year  
Healthcare cost trend – 6.5% in 2017 graded to 4% in 2021  
Asset value - market  
Mortality rates – based on SOA RPH-2014 at 2006 projected with MP-2017, annuitant, non-annuitant (sex-distinct) Mortality Table

**Discount Rate**

The discount rate used to measure the total OPEB liability was 6 percent. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at the current contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. For projected benefits that are covered by projected assets, the long-term expected rate was used to discount the projected benefits. From the year that the benefit payments were not projected to be covered by the projected assets (the "depletion date"), projected benefits were discounted at a discount rate reflecting a 20-year AA/Aa tax-exempt municipal bond yield. A single equivalent discount rate that yields the same present value of benefits is calculated. This discount rate is used to determine the total OPEB liability. As of December 31, 2016, the discount rate used to value OPEB liabilities was 4.0%

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2017

### **Contributions**

The contributions of member and employees are established by action of the Pavilions pursuant to the applicable collective bargaining and employment agreements. The required contribution rates of the employer and members vary depending on the applicable agreement. The Pavilions has contributed sufficiently to the plan to satisfy current obligations on a pay-as-you-go basis. The Pavilions cover the cost of administering the plan.

### **Actuarial Assumptions**

In the January 1, 2016 actuarial valuation, the individual entry-age actuarial cost method was used. The assumptions were as follows:

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED DECEMBER 31, 2017

---

In the January 1, 2016 actuarial valuation, the individual entry-age actuarial cost method was used. The actuarial assumptions included a 3.0% investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets, and an annual healthcare cost trend inflation rate of from 8.4% to 4.2%. The UAAL is being amortized as a level percentage of projected payroll over 30 years.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

#### Defined Benefit Plan – Road Commission

The Commission provides health care benefits to retirees and their survivor as established by resolution of the County Road Commission. Under the Plan, a \$500 monthly stipend is provided to early retirees for health care expenses until age 65 (Medicare eligible). Retirees age 65 and older receive a \$112/\$224 monthly stipend for gap insurance. At December 31, 2016 the plan provided benefits to 47 retirees and 13 survivors. The plan is not open to active employees. During the year, the Commission contributed \$159,128 to the Plan.

The following table shows the components of the Commissions annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Commission OPEB obligation to the plan.

Annual required contribution	\$ 90,845
Interest on Net OPEB obligation	93,556
Adjustment to annual required contribution	<u>(225,218)</u>
Annual OPEB cost (expense)	(40,817)

**NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2017**

---

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The Commission is currently funding the plan based on its discretion.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculation.

In the December 31, 2016, actuarial valuation, the projected unit credit actuarial cost method, level dollar, and closed amortization method were used. The remaining amortization period at December 31, 2016, was 14 years. The actuarial assumptions included a 4% return on plan assets and a discount rate of 4%.

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

**Defined Contribution Plan – Road Commission**

The Road Commission administers a single-employer defined contribution Retirement Health Savings account (the Retiree Health Savings Plan). The Commission contributes \$80 monthly to a healthcare savings plan (HCSP) for all fulltime employees. In addition, the commission provided additional one-time contributions during 2016. The Commission plan contribution requirements were established and may be amended under the authority of the Board of County Road Commissioners. The Plan has no vesting period. During the year the commission contributed \$27,840 to the plan.

During fiscal 2017, the County and its component units issued \$3,210,000 and \$4,010,000 of refunding bonds to provide resources to purchase U.S. Government securities that were placed in an irrevocable trust for debt service. As a result, \$3,210,000 and \$2,715,000 of refunded bonds were called and the liability has been removed from the statement of net position. A portion of the \$4,010,000 proceeds were used to refund \$2,468,000 of local unit bonds that resulted in additional Department of Public Works long-term receivables. This advanced refunding was undertaken to reduce total debt service payments by \$482,184 and \$318,975 which resulted in an economic gain of \$377,909 and \$250,075, respectively.

The County has pledged its full faith and credit for the repayment of Building Authority Bonds. The County has pledged state revenue sharing payments for the repayment of Brownfield Redevelopment Authority loans. The County and participating municipalities have pledged their full faith and credit for the repayment of Department of Public Works bonds.

#### 11. DEFICIT FUND EQUITY

The Building Authority reported deficit unassigned fund balance of \$715,000 in the LaFranier Department of Public Works nonmajor governmental debt service fund. This was the result of the fund receiving a lump sum payment (advance from other funds) in a prior year in order to call the related bonds early which is reduced ratably over the course of the related building rental agreement.

The Woodmere nonmajor governmental debt service fund also reported a deficit unassigned fund balance of \$240,000. This was also the result of the fund receiving a lump sum payment (advance from other funds) in a prior year in order to call the related bonds early which is reduced ratably over the course of the related building rental agreement.

The Motor Pool internal service fund reported an unassigned deficit net position of \$2,719,112. Overall, the total net position for this fund amounted to \$416,230.

The Drain Commission component unit reported a deficit unassigned fund balance of \$28,140 and \$295,058 in the Drain Revolving special revenue and Cass Road Drain Special Assessment capital projects funds respectively.

The Septage Facility fund within the Department of Public Works component unit reported an unrestricted deficit net position of \$1,140,238. Overall, the net position within this fund was \$3,218,331.

#### 12. TAX ABATEMENTS

Certain local units of government entered into property tax abatement agreements with local businesses under the Plant Rehabilitation and Industrial Development Districts Act, (known as the Industrial Facilities Exemption), PA 198 of 1974, as amended, provides a tax incentive to manufacturers to enable renovation and expansion of aging facilities, assist in the building of new facilities, and to promote the establishment of high tech facilities. An Industrial Facilities Exemption (IFE) certificate entitles the facility to exemption from ad valorem real and/or personal property taxes for a term of 1-12 years as determined by the local unit of government. The agreements entered into by the local units of government include claw back provisions should the recipient of the tax abatement fail to fully meet its commitments, such as employment levels and timelines for relocation. The IFT is computed at half the local property tax millage rate. This amounts to a reduction in property taxes of approximately 50%. For the year ended December 31, 2017, the County's property tax revenues were reduced by \$54,934 as a result of Industrial Facilities Tax exemptions.

Certain local units of government entered into property tax abatements through the Payments-in-Lieu-of-Tax (PILOT) program related to housing. For the year ended December 31, 2017, the County's property tax revenues were reduced by \$163,588 as a result of this program.

#### 13. RISK MANAGEMENT

##### *Primary Government*

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the government carries commercial insurance and participates in the Michigan Municipal Risk Management Authority (the Authority). The County is covered for general and auto liability, motor vehicle physical damage and property coverage through the Authority. The Authority has entered into reinsurance agreements providing for loss coverage in excess of the amounts to be retained by the Authority and individual members. The County's risk retention on general liability and auto liability is \$75,000. The limits on auto physical damage are \$15,000 per unit and \$30,000 per occurrence. The retention limits for property coverage are subject to a \$1,000 deductible to be paid by the member. In the event a reinsurance company does not meet its obligation to the Authority, responsibility for payment of any unreimbursed claims will be that of the Authority reinsurance fund. The Authority has retained certain levels of risk rather than obtaining coverage through reinsurance agreements. The Authority established the Authority reinsurance fund in order to participate in the reinsurance agreements. Individual members are provided the same level of coverage previously afforded through a combination of the reinsurance agreements and the reinsurance fund. The claims liabilities reported at year are based on the requirements of GASB Statement No.10, which requires that a liability for claims be reported if it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated.

The change in claims liability for the years ended December 31 is as follows:

<u>Year</u>	<u>Beginning of Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Year Liability</u>
2017	\$16,000	\$174,983	\$ 5,900	\$185,083
2016	25,000	15,000	24,000	16,000

The County reports the activity and its share of the reinsurance fund in the County Insurance internal service fund. The County has had no settled claims resulting from these risks that exceeded their coverage in any of the past three fiscal years. There have been no reductions in insurance coverage from the prior fiscal year.

The County has established a self-insurance program for workers' compensation, which is accounted for in the Fringe Benefits internal service fund. This program is administered by a third-party administrator that provides claims reviews and processing. A specific excess workers' compensation reinsurance policy indemnifies the County up to \$5,000,000 for each loss in excess of the first \$400,000 for all employees except for police officers and drivers who have a \$500,000 retention amount. All applicable funds are charged premiums based on payroll. Settled claims have not exceeded insurance coverage in the history of the self-insurance program. There have been no significant reductions in insurance coverage from the prior fiscal year. The claims liabilities reported at year are based on the requirements of GASB Statement No.10, which requires that a liability for claims be reported if it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated.

## NOTES TO THE FINANCIAL STATEMENTS

### FOR THE YEAR ENDED DECEMBER 31, 2017

---

The changes in the claims liability for the years ended December 31, 2017 and 2016 were as follows:

<u>Year</u>	<u>Beginning of Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>End of Year Liability</u>
2017	\$87,815	\$43,581	\$43,581	\$87,815
2016	40,833	72,865	25,883	87,815

#### **Risk Management - Road Commission**

The Road Commission is exposed to various risks related to property loss, torts, error and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Road Commission mitigates risk by carrying workers' compensation insurance through the County Road Association Self-Insurance Fund. The Road Commission is also a member of the Michigan County Road Commission Self-Insurance Pool (MCRCSP). The insurance coverage provided by MCRCSP includes, but is not limited to, general liability, auto, property insurance, stop loss protection, errors and omissions, trunk line liability and an umbrella policy. The amount the Road Commission pays annually is determined by the Administrator of MCRCSP and is based on miles of roads, population and prior claim history. In addition to premiums paid, the Road Commission is responsible for the first \$1,000 of legal expense incurred per occasion. All other risk is transferred to MCRCSP.

#### **14. OPERATING AGREEMENTS AND LEASES**

##### **Governmental Center**

In June 1978, the County entered into an agreement with the City of Traverse City for the joint ownership and operation of the Government Center. Under the terms of the agreement, the City of Traverse City owns 26.39% of the property and the County owns the remaining 73.61%. The County's share of the original building cost was approximately \$2,900,000. Under the terms of a separate agreement, the City of Traverse City reimburses the County for its' pro rata share of operation and maintenance costs.

##### **Operating Leases**

The County is a lessee under various operating leases for vehicles. Lease expenditures for the year ended December 31, 2017 amounted to \$87,287. Future minimum lease payments for these leases are as follows:

<u>Fiscal Year Ended</u>	<u>Minimum Payment</u>
12/31/18	\$ 87,287
12/31/19	87,287
12/31/20	87,287

#### 15. JOINT VENTURES/RELATED ORGANIZATIONS

##### **Northwestern Regional Airport Commission**

The Northwestern Regional Airport Commission (NRAC) consists of representatives from Grand Traverse and Leelanau counties. The NRAC operates and maintains the Cherry Capital Airport in Traverse City, Michigan. By resolution adopted in 1990, Grand Traverse County was granted representation by five members and Leelanau County two members on the NRAC Board. At the same time, Antrim, Benzie and Kalkaska counties were granted the opportunity to join the NRAC with two representatives from Antrim County and one member each from Benzie and Kalkaska counties. As of December 31, 2016, Antrim, Benzie and Kalkaska counties had not joined the NRAC. Separate financial statements for NRAC are available at 144 W. S. Airport Rd. Traverse City, MI 49686.

Financial information as of December 31, 2017 (the most recent audited financial statements) is as follows:

Assets	\$66,991,984

##### **Northern Lakes Community Mental Health**

Northern Lakes Community Mental Health (NLCMH) was created by joint action of the Boards of Commissioners for the following counties in the State of Michigan: Crawford, Grand Traverse, Leelanau, Missaukee, Roscommon and Wexford. NLCMH operates under the provisions of Act 258 – Public Act of 1974 (the Michigan Mental Health Code), as amended. NLCMH arranges for or provides support and services for persons with developmental disabilities, adults with severe mental illness, children with serious emotional disturbance, and individuals with addictive disorder and substance abuse. The support and services are made available to residents of Crawford, Grand Traverse, Leelanau, Missaukee, Roscommon and Wexford counties who meet eligibility and other criteria. As the community mental health services provider for the previously mentioned counties, NLCMH also serves to represent community members, assure local access, organize and integrate the provision of services, coordinate care, implement public policy, ensure interagency collaboration and preserve public interest. The County contribution to NLCMH for the year was \$682,200. Separate financial statements for NLCMH are available at 105 Hall St. Traverse City, MI 49684.

Financial information as of September 30, 2017 (the most recent audited financial statements) is as follows:

Other	16,109
Total	<u>\$8,638,956</u>

#### **17. COMMITMENTS**

At year-end, the County had outstanding commitments of approximately \$3.3 million for Pavilions building improvements to be funded with 2017 Building Authority Pavilions bond proceeds.

#### **18. CONDUIT DEBT**

At year end, the County had outstanding conduit debt for which the County had no responsibility for repayment as follows:

- Loan to Montessori Children's House with a balance of \$2,508,137
- Loan to YMCA with a balance of \$3,579,059

#### **19. CONTINGENCIES**

In the normal course of its operations, the County has become a party in various legal actions, including property tax appeals. Management of the County is of the opinion that the outcome of such actions will not have a material effect on the financial position of the County. Amounts reserved for losses related to legal actions have not been included as a liability in the financial statements.

Under the terms of various Federal and State grants and regulatory requirements, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants and requirements. Such audits could lead to reimbursement to the grantor or regulatory agencies. However, management believes such disallowances, if any, will not be material to the financial position of the County.

#### **20. SUBSEQUENT EVENT**

Subsequent to December 31, 2017 the County issued Grand Traverse County Michigan Transportation Fund Bonds in the amount of \$3,600,000.

*Homestead Fund* - This fund is used to account for interest earned on delinquent tax revenues from properties determined not eligible for homestead exemptions. Collected tax payments are remitted to local school districts.

*Building Authority Fund* - This fund was established to account for the operation of public facilities by the Building Authority board.

#### Internal Service Funds

*Information Technology Fund* - This fund was established by the County to account for the cost of the IT and telecommunications department and properly distribute the cost back to the departments that utilize their service proportionately.

*County Insurance Fund* - This fund was established by the County to provide insurance coverage to its departments or funds for general liability insurance. It is funded by charges to the various funds covered under the program, with all claims being paid from the fund.

*Fringe Benefits Fund* - This fund was established by the County to provide insurance coverage and fringe benefits to its departments or funds for healthcare, post-employment healthcare, workers' compensation, short-term and long-term disability, life insurance, MERS and defined contribution retirement plan costs. It is funded by charges to the various funds covered under the program, with all claims/costs being paid from the fund.

*Central Services Fund* - This fund was established by the County to centralize the purchase of supply items to obtain a volume discount, perform the postage and mailing tasks for all departments, and purchase and maintain departmental copiers.

*Motor Pool Fund* - This fund was established by the County to track the purchase of County vehicles and maintain the inventory for insurance and depreciation purposes.

# GRAND TRAVERSE COUNTY

## ***FUND DESCRIPTIONS***

### **Fiduciary Funds**

*Trust and Agency Fund* - This fund accounts for money held by the County in trust for other local units of government and their political subdivisions as well as some receipts that are not initially allocated to individual funds. As required by accounting principles generally accepted in the United States of America (GAAP), all monies that accrue to the benefit of the County have been allocated to the appropriate funds within these financial statements. Any balance remaining in the Trust and Agency fund is held in a fiduciary capacity for other parties.

*Inmate Trust Fund* - This fund was established to account for the profits accruing from the inmate commissary activities in the county jail. These funds are used mainly to purchase items for common benefit or use by the inmates.

*District Court Trust Fund* - This fund was established to account for bond and other trust money held by the 86th District Court.

*Friend of the Court Trust Fund* - This fund accounts for escrow funds received until their ultimate disposition or use has been determined.

*Library Fines Fund* - This fund is used to accumulate money collected by courts for fines imposed for State law violations. The accumulated fines must be apportioned annually among the public libraries and county library in accordance with the directions of the State Board for Libraries.

*Water and Sewer Receiving Funds* - These funds were established to account for the user fees collected on the various township sewer and water systems to cover the related maintenance, operating, and debt service costs associated with those systems.

### **Component Units**

*Land Bank Authority* – Members of the governing body of the Land Bank Authority are appointed by the County Board of Commissioners. The County also has the ability to influence the operations of the Land Bank Authority and has accountability for fiscal matters.

*Brownfield Redevelopment Authority* – The members of the governing board of the Brownfield Redevelopment Authority are appointed by the County Board of Commissioners. They review and approve plans for business development within designated areas of the County where property was once contaminated. Revenues received from local units of government are restricted to pay for site clean-up expenditures and future development depending on the development plan adopted for each project.

## GRAND TRAVERSE COUNTY

### ***FUND DESCRIPTIONS***

*Drainage Districts* – Each of the drainage districts established pursuant to the Drain Code of 1956 are separate legal entities, with the power to contract, to sue and be sued, to hold, manage and dispose of real and personal property, etc. The statutory drainage board of Chapter 21 drainage districts consists of the State Director of Agriculture and the Drain Commissioner of each county involved in the project. The County Drain Commissioner has sole responsibility to administer the drainage districts established pursuant to Chapters 3, 4 and 8 of the Drain Code.

The Drainage Board or Drain Commissioner, on behalf of the drainage districts, may issue debt and levy special assessments authorized by the Drain Code without the prior approval of the County Board of Commissioners. The full faith and credit of the County may be given for the debt of the drainage district. The County also has the ability to influence operations of the Drain Commission and has accountability for fiscal matters.

*Department of Public Works (the “DPW”)* - Members of the governing body of the Department of Public Works are appointed by the County Board of Commissioners. The County also has the ability to influence operations of the Department of Public Works and has accountability for fiscal matters.

Source:

Debt outstanding and estimated share of overlapping debt provided by Municipal Advisory Council of Michigan.

This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the County. This process recognizes that, when considering the County's ability to issue and repay long term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) Applicable percentages were estimated by determining the portion of the County's taxable value that is within the County's boundaries and dividing it by the County's total taxable value.

### **INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

June 22, 2018

Board of Commissioners  
Grand Traverse County, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Grand Traverse County, Michigan (the County) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 22, 2018.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of the County, in a separate letter dated June 22, 2018.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### **INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

June 22, 2018

Board of Commissioners  
Grand Traverse County, Michigan

#### **Report on Compliance for Each Major Federal Program**

We have audited Grand Traverse County, Michigan's, (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2017. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### ***Management's Responsibility***

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

#### ***Opinion on Each Major Federal Program***

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2017.

#### ***Other Matters***

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as items 2017-001 and 2017-002. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on it.

### **Report on Internal Control Over Compliance**

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**SECTION II - FINANCIAL STATEMENT FINDINGS**

**None**

**SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS**

**2017-001 - CFDA #93.563**

**Condition and Criteria:** The Uniform Guidance 2 CFR Part 200, Appendix V, paragraph G(2) provides the standards for internal service funds working capital reserves. It states charges by an internal service activity to provide for the establishment and maintenance of a reasonable level of working capital, in addition to the full recovery of costs are allowable. A working capital reserve as a part of retained earning of up to 60 calendar days cash expenses is considered reasonable. The County's Central stores funds exceeds the allowable amounts at December 31, 2017.

**Cause:** While the appropriate County employees were aware of the applicable compliance requirements and the necessity to lower working capital reserves, there was incomplete follow-through to ensure compliance with uniform guidance.

**Effect:** Noncompliance with the requirements of the Uniform guidance 2 CFR 200.

**Recommendation:** The County should develop and implement reimbursement rates to get working capital reserves down to limits consistent with Uniform Guidance 2 CFR 200

**Management Response:** The County is in process of reviewing the reimbursement rates of its internal service funds to ensure they are appropriate and keep working capital reserves at allowable levels.

**2017-002 - CFDA #93.563**

**Condition and Criteria:** The Uniform Guidance 2 CFR Part 200, Subpart D, Section 200.303 requires written procedures covering the following: payments (draws of federal funds and how to minimize the time elapsing between the receipt of federal funds and the disbursement) and the allowability of costs charged to federal programs.

**Cause:** While the appropriate County employees were aware of the applicable compliance requirements, the County has not allocated sufficient time to update policies to comply with the Uniform guidance.
