**Immediate Release:  
9/28/20**

## **Grand Traverse County Case Covid Report and Case Investigation Breakdown Sept. 25 - 27**

The Grand Traverse County Health Department is reporting four new cases of COVID-19 since September 25th and one death, bringing the cumulative case total to 422, with 323 recovered and eight deaths, leaving 91 active cases. The latest death, a male in his 80s, was being cared for at Munson Medical Center.

While conducting case investigations, the listed location, during the specified date and times was discovered to be a place of potential public exposure. Exposure sites not open to the public are contacted directly.

### **The Gym**

Thursday, September 24 from 8 - 9 p.m.

If you were present at any of these locations during the listed time periods, you should self-monitor for COVID-19 symptoms for 14 days since the possible exposure, **particularly if you were not wearing a mask or maintaining 6 foot distance from others.**

Symptoms include: fever, cough, shortness of breath, vomiting, diarrhea, muscle aches, repeated shaking with chills, headache, sore throat and new loss of taste or smell.

**Anyone that is self-monitoring as a result should keep away from the public, family, close contacts and roommates as much as possible.**

From September 25 through September 27 Grand Traverse County Health Department completed 4 case investigations of confirmed COVID-19 cases. The following is information known at this time:

- All 4 cases are primary residents.
- Ages:
  - 30-39 1
  - 50-59 1
  - 70-79 2
- Symptomatic: **2**                      Asymptomatic: **2**
- **0** are linked to travel either into or out of the area as reported during the case investigation
- **0** linked to large group gatherings or social events
- **1** case was a known close contact to other positive cases
- Approximately **5** close contacts were identified, notified, and instructed to quarantine.

Case Investigations were also completed on 0 probable cases (individuals who were close contacts of a positive COVID case who became symptomatic during their quarantine).
