GTCHD to open COVID-19 scheduling survey for 12-15 age group

In anticipation of the CDC's Advisory Committee on Immunization Practices (ACIP) approving the Pfizer COVID-19 vaccine for the 12-15 year age group, the Grand Traverse County Health Department (GTCHD) is now expanding its scheduling survey to include the 12-15 age group.

If you are interested in having your child receive a vaccine, please complete the scheduling survey located at www.gtcountycovid19.com/vaccine and click "Scheduling for 12-15". Your child will be placed on a waiting list and you will receive an email with a scheduling link when appointments become available. Pending approval, appointments will be made available as soon as Thursday, May 13, with additional clinics being scheduled in the coming days and weeks.

Any child that is receiving a COVID-19 vaccine must be accompanied by a parent or guardian. Verification of date of birth is required.
